*FC Beloved Angel TAC, sister to Lot 1.*

Semen is being sold on the open market through Grassroots Genetics. Selling only 100% possession in this elite herd sire.

BW: 74 lbs.

WW: 647 lbs.

YW: 1,321 lbs.

Consigned by Legacy Farms, Witt, IL and Fosdick Cattle, Chenoa, IL

With Legacy Farms rotating herd bulls every two years in order to promote progressive genetics, they have offered 100% possession of FC Angels Answer. Angels Answer is a full brother to the very popular 2015 Eastern Regional Junior Show Champion female for Micaela Fosdick, FC Beloved Angel. Legacy will be keeping every female ever created out of FC Angels Answer; to date his calves have averaged 76lbs and yet has there been one that doesn't have an excellent disposition, tremendous feet and legs and a ton of power. With generations of dominant donors and the ever famous CJSL Windfall in this fine individuals lineage, the future is wide open.

WLR Skyfall has the stunning look that so many red Limousin enthusiasts are seeking to add into their breeding programs. His extension through his front end, his level design and his nearly ideal set to his hind leg are spectacular and a rare combination that will certainly increase his and his progeny's level of popularity. Skyfall is a direct son of past Triple Crown winner, MAGSWL Usual Suspect 538U who may possibly be one of the stoutest and soundest Limousin bulls to ever step foot in the showing. This incredible lot 1 bull may be one of the finest designed purebred red Limousin bulls to sell this fall.

RVDR The Winner is the \$20,000 valued highlight of the 2012 Englewood offering, his soundness, power and exceptional growth profile have made him a valuable breeding piece in the Massey Limousin and Milam Cattle Co. programs. Impressively he posts a 76 WW epd and 119 YW epd. In addition to this tremendous growth, his transmittable maternal traits place him in the top 10% of the breed for MK and top 4% of the purebred population for TM. Homozygous Polled and a direct daughter of the famed donor EXLR Perfect Margarita make RVDR The Winner the perfect concoction for success. A large group of his daughters are entering production and they couldn't look any better!

The partnership of Minerich Land & Cattle and Ms. Sarah Johnson has yielded spectacular results over the years, Braxton 3201A is no exception. This 2 year old herd bull is so very ready to breed cows and go to work immediately for you. MINE PLD Braxton 3201A is a polled Lim-Flex son of Red Angus sire TPIE Red Canyon 934, who has produced over 95 registered progeny in Bob & Gwen Minerich's famous herd of Limousin cattle nestled in Central KY. The Red Canyon cattle have great dispositions, are extremely long sided and packed with muscle.

FOXES Bold Venture 450B absolutely kills it when it comes to growth, maternal and carcass data! He is in the top 1% of the breed for TM and CW, top 2% for WW and YW, top 3% for REA, top 5% for \$MTI and significantly above average for CEM, SC, ST, DOC, YG, MB and FT. Very rarely does a data profile like this come along in the form of a herd sire prospect. 450B is a maternal granddaughter of MAGS Roaring Twenties, the now deceased, monster numbered past donor at Massey Limousin. Bold Venture is extremely deep sided, level designed and long fronted. Progeny of this Lim-Flex powerhouse will be have exceptional data and a substantial look to them.

Homozygous Polled AND Red makes RVF Firehouse 221B ET a hot option! This 71% Lim-Flex herd sire is a maternal powerhouse and is sure to pass of the tremendous traits of both his balanced trait sire, LH U Haul 135U and his maternally superior dam, AUTO Makayla 658U to his progeny. AUTO Makayla 658U is a trait leader for both MK and TM epd's and in the top 2% of the breed for CEM. We are so excited for the future of this bull's dam in the Riverside Valley e.t. program, the possibilities are endless when there are genetics with this much maternal influence.

2014 Kentucky State Fair Reserve grand champion bred and owned  
Consigned by Portwood Family  
Limousin, Versailles, KY

The Portwood Family dug deep into their genetic supply to sell one on their very best high percentage Red purebred bulls in PFL Baxter. Baxter is a son of their King Wulf 7188Y herd sire that has done so many good things in their cowherd for them. 7188Y has brought a new dimension of muscle and length of side that the Ransom son's are known for. Shown successfully by junior member, Alex Portwood, PFL Baxter has a tremendous disposition and is already proven in the show ring. He was the 2014 Kentucky State Fair Reserve Grand Champion Bred & Owned Bull. This phenotypically strong sire, also has proven calving ease genetics and is a .6 for BW epd and 8 for CEM.

Consigned by Gardiner Livestock,  
Pilot Point, TX

GDNR Flatliner is an April born yearling fullblood bull that was produced from off a fantastic first calf heifer at Gardiner Livestock. Bred in the longtime fullblood breeder, David Finney's herd, we can guarantee that they actual growth, lean muscle performance and maternal superiority will shine through in Flatliner's progeny. This grandson of MINE Gold Medal and Goldnview Krugerrand will be the exact double polled, breeding piece that every fullblood herd can benefit from.

What a neat opportunity to dive right into the heart of the French Full-blood genetic base, with this high quality individual. GDNR Old Times ranks amongst the industry's elite for lean muscle traits, he is in the top 3% of the breed for YG epd and the top 1% for FT epd. This prestigious son of Mas Du Clo represents what this very breed was built upon. Don't miss your chance at the option to add the finest Fullblood genetics into your breeding program.

Any opportunity to acquire a direct son of SVL Polled Impressive 861Y is a good opportunity! 861Y was a member of the Stone Valley show string and is one of the superior herd sired ever bred in that program. He had a 73lb birthweight and has the true performance and muscle that is so very desirable. Batista posts a -.26 YG EPD and a -0.06 FT epd, which places him in the top 15 and top 5% of the breed respectably. In addition to these tremendous lean muscle numbers, he also excels in maternal traits with a 60 TM EPD. We can't say enough good about the set of females we have from Stone Valley and the exceptional job they do raising her sires.

Limousin, Versailles, KY

The Portwood Family has been nothing but thrilled with the progeny out of KING WULF 7188Y, the calves are coming really small and growing at above average rates of gain. They introduced this herd bull into their mating scenario to reduce birthweight and to increase maternal traits and it appears he is doing just that, both on paper and in the fields. This red, polled herd sire prospect that traces back to Angus marbling giant, Garden Prime Time is just starting to hit his prime and will continue to get better.

This calf is just old enough that you can see the good in him, but young enough that you can raise him how you want to, so he will fit into your system the very best possibly way. Eggar Limousin, the Eggenberger Family has developed a cowherd that is focused on producing superior genetics to propagate solid carcass genetics. AEGG Clifford 533C is a son of their GV Unbelievable herd sire and he ranks in the top 4% of the breed for YG and top 10% for REA.

This red polled son of KING Wulf 7188Y will be ready for light service this fall and you will be able to confidently use him on your mature cows and heifers alike. With a BW epd right at 1.3, he certainly falls in the acceptable range to be referred to as a calving ease option. Bred and raised in the Portwood Limousin program, Bravo is a resulting son of one of the several H&H Farms cows that we acquired, these cows are exceptional functional, very fertile and pass on excellent lean muscle performance and milking ability.

If you are in the market for a beautifully designed homozygous polled red female, this regally bred open female will be sure to fit the bill. Study the lineage in this future donor prospect, she sired by past Triple Crown winner, MAGSWL Usual Suspect out of an EF Main Stay daughter from the Cabin Creek Eisa Erica cow that has generated significant income for the Magness program. Her progeny include such breed greats as Grassroot's sire, MAGS Waken who is owned by Liberty Ranches. This easy keeping, easy on the eyes females is super deep sided, heavily constructed and halter broke. She is ready to hit the ring this fall and will be at her prime next summer. She is so highly thought of in the Taylor Cattle Co show barn, she is already entered at the American Royal.

Possibly one of the most balanced EPD profiles offered among this elite selection of red cattle. Across the board there are absolutely no holes in this females alignment in regards to birth weight, growth and milk. Double digit CED, 71 WW, 110 YW and a spectacular 61 TM. This combined with a 63 \$MTI which ranks her in the top 15% of the breed, makes her a donor prospect in our opinion. Riverside Valley has had tremendous success with their Red Angus sired Lim-Flex cattle, Cherry is a prime example of some of the very finest created in that segment of their system.

SBLX Zane is the \$55,000 valued female now owned by Edwards Land & Cattle Co. who was campaigned successfully by our friends Wies Limousin. She is a daughter of MAGS Winston and is one of the finest red and polled females in our breed. Zane is sired by the deceased sire MAGS Winston and from the \$50,000 valued donor SBLX Underthecovers 201U. She is a daughter of GAR Predestined and from the national gold medal dam ELMW Ginnie P58G.

Sire of Lot 22 embryos,  
Andras New Direction R240.

Dam of Lot 22 embryos,  
MAGS Zips Ice.

Consigned by Riverside Valley Farm,  
Hohenwald, TN

Andras New Direction offers outstanding EPDs, a purely outcross Red Angus pedigree and the masculine, robust phenotype of a breed changer. This big-bodied, capacious powerhouse is always a crowd favorite at Genex. Expect strong maternal merit – his dam possesses an excellent udder and hails from the Karuba cow family stacked with some of the Angus breed's best cow makers. MAGS Zips Ice is one of the most powerful red daughters of MAGS The General in existence. Her influence will be impactful in the Riverside Valley program in years to come.

The Red Angus based Lim-Flex cattle are some of the very best cattle in the beef industry, hands down. The maternal traits and overall functional look makes them very impressive to us. MAGS Unnecessary is one of the most precisely designed females in the Massey Limousin donor line-up. She is so precise in her lines, appropriate in her angles and extremely sound structured. This homozygous polled donor offers so many different options, it will be hard to decide which way to go with her when it comes to mating her for this next flush.
