- This is an interesting combination, blending the past National Western Stock Show Champion, MAGS Y So Tangled with outcross Canadian Genetics. This combination yields a desirable phenotype, in a rugged and attractive package.
- His sire is one of the few show bulls that has been able to successfully record positive marbling numbers, as well as producing females that make excellent replacements.
- He's phenotypically black and polled and has an adjusted birth weight of 69 lbs.

Lot 1

- This young herd sire prospect is huge topped and thick ended. He presents himself with a lean muscular shape.
- A high percentage Lim-Flex bull, he is big footed, sound structured and ready for service. Sired by the 2014 Champion Bull of the Ohio Beef Expo, TMCK Combustion 009A. Combustion has worked well here in the Logan Hills program, siring several highlight heifer calves in our 2015 online show heifer sale.
- He excels in calving ease and maternal traits ranking in the top 25% of the breed.

Lot **2**

- SKLS 362D has the extra extension through his front end to give him a neat look, and has that extra length of spine, that gives him the added weight and performance. In addition to that, from a management standpoint, he is a bull that is particularly clean & tight underneath.
- If you believe in the power of cow families, there are few stronger than Wulf's Silvia 6194S, who was a past dominate donor cow at The Greenbrier Cattle Co.
- We admire the performance spread from .9 BW EPD to 109 YW EPD, to complement his CEM and carcass traits.

- 354D is a homozygous polled and homozygous black daughter of the popular curve bending Angus sire, RB Tour of Duty 177.
- What a powerful cow prospect, ranking in the top 10% of the breed for CED, Milk and Total maternal, combining that with a $-.3$ BW and 111 YW.
- Maternally speaking she traces back to COLE First Down, who was ahead of his time in terms of eye appeal and performance. He has left an impact throughout the nations cow herd.

Lot **4**

- Here is the bull that is designed phenotypically and statistically to be the choice for heifers; he is long fronted, flat shouldered and smooth jointed.
- Sired by the ABS Bull, KCF Bennett Absolute, who is known for his big time calving to growth spread, and strong maternal traits.
- SKLS 256D is a trait leader for marbling and \$MTI. He is a calving ease specialist ranking in the top 10 percent of the breed.

- The phenotypically superior bull of this years offering! SKLS 258D, is super attractive through his front one third, appropriate in his skeletal angles; furthermore, he has additional rib shape and muscular dimension, that makes him the complete package.
- This 50% homozygous polled son of the ever popular sire, JCL Lodestar 27L has a solid set of numbers across the board, for growth traits. He ranks in the top 10% of the breed for MB & \$MTI.
- His dam, P Bar S 416, is sired by the easy fleshing, big ended Genex sire, Buford Ranch Hand Y194. he has been used heavily in the Reisig Cattle herd in Montana.

Lot 6

- If you are searching for a soft middled, big footed, moderate framed and easy fleshing, high percentage Angus bull to add to your sire battery, SKLS 255D will fit the order. He would complement a purebred limousin or commercial cow herd masterfully.
- This homozygous polled son of KCF Bennett Absolute has the most extreme set of EPD's in the sale! Ranking in the top 2% for \$MTI, marbling, top 10% for CED, YW, top 15% BW and CW
- Dam was bred with phenotype in mind, out of the Heartfelt Farms program, which is known for being a perennial contender on the National show circuit.

Lot 7

- SKLS 151D is long sided, big hipped, and clean in his lines. Noteworthy testicle shape and circumference.
- He ranks in the top two percent of the population for MB and \$MTI. An end product oriented sire prospect, without sacrificing calving and maternal traits, being in the upper 3% for Milk.
- His sire, P Bar S Milestone, has been used very successfully in our herd, siring numerous sale high-lights.
