EPDs Dated 8/26/25

EPDs on live lots are Genomically-Enhanced.

DIRECTIONS: From Ninepipes Lodge, go north 1.1 miles on Hwy. 93. Take a left on Hwy. 212 and go 2.9 miles. Keep right onto Dellwo Rd. (the Hwy. curves left). Go 3.1 miles and take a left on Crow Dam Rd. The cattle will be displayed on your left at Coleman Limousin Ranch pasture.

Dear Fellow Cattlemen,

All of us at Coleman Limousin Ranch welcome you to the Discovery Sale of 2025. Thank you very much for your interest, support and confidence in our program.

This fall will be our fifth Discovery Sale and once again we are proud to showcase our top females responsible for producing breed-leading Limousin genetics. The cattle market is at an all-time high. Now is a great time to invest in top shelf genetics to bolster your herd.

We feel there is something for everyone in this sale. The offering is highlighted by semen packages from COLE Kash 34K as well as the donor COLE Beauty 1067J. This select group of bred heifers are as good as we have ever sold. We are also offering embryos from our proven donors.

The females in this sale are backed by generations of proven genetics. The bred heifers have been ultrasounded and are guaranteed bred. These bred heifers are as deep of a group as we have ever offered.

The cattle will be available for viewing at our ranch throughout the day October 9. Dinner will be served at Ninepipes Lodge at 6 p.m. and the video sale will start at 7 p.m. We will have videos of the females posted to our website, YouTube and Facebook.

October is a beautiful time of year here in the Mission Valley. Ninepipes Lodge is at the base of the majestic Mission Mountains. It is right on the way to Glacier National Park and Flathead Lake. Please join us for the sale and your own Montana vacation.

We hope this catalog's information will be helpful. Give us a call if we can be of further assistance. If you are unable to attend the sale, please contact us at Coleman Limousin Ranch, Kiley McKinna or any of the sale staff. We look forward to having you with us October 9.

Sincerely,

Coleman Limousin Ranch

Larry and Anita

Trent and Melissa

Your Montana Adventure Begins Now

Not unlike the majestic Mission Mountains located here in Western Montana, when viewed as a group, this set of females has the ability to take your breath away. When we set out on this adventure four sales ago, our goal was to assemble a set of Limousin and Lim-Flex genetics that would not disappoint. We feel we have succeeded, but as we have learned over our many decades as a superior seedstock supplier, we know the true value of our efforts will only be known at the final drop of the gavel. We sincerely hope you join us for what has become known as one the most important Limousin sales of the year in one of our country's most beautiful places. Please don't hesitate to contact us should you have any questions regarding the offering or in planning your trip to this scenic venue.

A purebred herd sire by AHCC Earning Power 900E out of the cornerstone donor COLE Beauty 276Z, who has 108 progeny on file at NALF. This double homozygous bull stacks real-world performance with carcass value—top 1% marbling, top 10% yearling weight and top 10% \$TPI. Backed by the influential Beauty cow family, he couples look, base width and foot quality with impressive data. He is the kind that works for both seedstock and progressive commercial programs.

Due approx. 1/29/26 to COLE Genesis 86G.

A Lim-Flex daughter of S A V Rainfall 6846 backed by COLE Beauty 276Z, tying Angus practicality to the proven Beauty maternal base. This homozygous polled female is a full sister to COLE Beauty 235K ET owned by Edelman Ranch. She is balanced across the board with top 30% calving ease, top 25% yearling growth and top 15% marbling. She's the kind of cow prospect that does a lot of things right—fertility, structure and market-minded carcass merit.

Due approx. 3/8/26 to COLE Genesis 148L.

Here is a female sired by COLE Justice 40J ET and out of COLE Miss Envision 1022J. Miss Justice posts a 113 WW ratio and 109 YW ratio. She ranks top 20% for \$TPI, top 10% yearling weight and top 15% weaning weight, delivering a blend of carcass merit, growth and maternal strength. Her dam, COLE Miss Envision 1022J, has been a steady producer in our program — this one offers similar brood cow appeal.

A mating that’s hard to duplicate. COLE Genesis 86G has proven himself time and again as a balanced, all-around sire. When paired with COLE Miss Production 104Y — a female admired for her calving ease and marbling — the result is predictable quality. Expect progeny with double-digit CE, breed-leading carcass merit and females that will flat work in production.

Here's a chance to inject growth and muscle without giving up maternal integrity. CELL Envision 7023E sires cattle with added power and style, while Miss Production 104Y has anchored one of the most reliable cow families in the program. This combination posts top-end rankings for WW, YW and \$TPI, projecting calves with growth and market appeal.

Elite carcass genetics on offer. Hunt Credentials 37C ET, the red, purebred marbling specialist, is mated here to the proven Beauty 276Z donor, whose milk and production record are second-to-none. The resulting calves are bred to rise to the top for marbling and maternal strength — a pairing that blends profitability in the feedyard with cow power in the pasture.

A full sibling package to Lot 35, doubling down on a proven recipe. The Credentials x Beauty mating clicks for both numbers and phenotype, producing cattle with extra body shape, strong marbling and daughters with stayability. Consistency is the trademark here, and this set of embryos carries it in spades.
