ADDITIONAL NOTES

- \$250 discount per animal on live lots (excluding embryos) for any customer that has purchased from Buck Ridge Limousin in the past or for new customers purchasing multiple animals. New customers will receive the discount on animals after their first purchase in this sale.
- Cattle sell under a Sight Unseen Guarantee
- Buy with confidence
- All purchases are fully guaranteed
- All sale cattle are available for viewing at the farm. We welcome your visit and would love to show you our cattle. We take pride in what we have created and are anxious to show you what's for sale.
- All cattle sell under the standard guarantee of the North American Limousin Foundation

Bid at www.rrmarketplace.com

My son Logan and I bought our first Limousin bull in 2002 to use on our commercial cow herd. We liked the Limousin influenced calves and decided to try and buy some females to start a registered cow herd. In December of 2003, we traveled to Tennessee and bought a couple trailer loads of registered purebred Limousin females to get a herd started. From that point, we migrated our cow herd into all registered females. In 2005, we A.I.'d our first group of females. After seeing the calves, we were thoroughly convinced in the A.I. process.

Today we have grown our herd to 100 cows, almost all of which are out of top A.I. sires. Along the way, we began incorporating Angus genetics to create Lim-Flex cattle. In 2010, we began our embryo transplant program and it has since grown. We are now convinced of the merits of using our top donors in our embryo program and nearly half of our calves are from embryos.

Our philosophy is to continually try to improve Buck Ridge genetics and to provide cattle that will work in almost any environment and represent the great Limousin breed well. We greatly appreciate you viewing our genetics and hope you can find something that will benefit your operation.

Sincerely,
Mark Haden

- Selling 8 packages (20 units for \$1,000).
- HBRL Genesis 404B is not just a useful piece of a breeding program, he is the foundation that you can build a complete program around. Due to his high breeding value, he has been used in the field since he was 15 months old. Very rarely does a bull of this quality come onto the market, we are privileged to be able to offer semen packages on what we feel is one of the most intriguing sires to enter the marketplace recently. He combines excellence in nearly all of the sought after EPD columns, including being the top 5% for CEM, MK, TM, CEM, REA, MB and SMTI while still accomplishing a 75 for WW EPD and 118 for YW EPD. He truly is amongst the breed's elite for being able to combine such exclusive data with a phenotype that reaps of functionality and longevity as well as eye appeal. His appropriate skeletal angles, length of side, depth of rib and smooth yet plentiful muscle shape are nearly ideal. This homozygous polled / homozygous black is a son of one of the most talked about million dollar bulls in the Angus breed and entire beef industry, EXAR Denver.
- This is what he looks like straight out of the field to the picture pen!

- Adj. FAT: 0.11; Adj. REA: 17.33; %IMF: 2.16
- This special son of EBFL Ypsilanti has exhibited monumental growth and performance in person and on paper, with a 4.13 WDA and WW and YW ratios of 117 and 111. Visually this EBFL Ypsilanti 420Y son is absolutely loaded with muscle, and according to ultrasound he measures with a 17.33 REA which calculates to a 117 ratio amongst his contemporaries and a .97 REA EPD. HBRL Avenger 362A not only has a record setting sire, he stems from the same famous cow family that produced the world known MAGS Manuela. Growth, muscle and milk are all represented very strongly in 362A's performance profile; he is a trait leader for TM and in posts a WW EPD of 85 and YW EPD of 122. His data is very similar to those of that made his maternal grand-sire, AUTO Dollar General, so popular.

- The combining of very elite Angus and purebred Limousin genetics has produced an exceptional herd sire in HBRL Beefy 485B. 485B is a direct son of the million dollar valued Angus powerhouse, EXAR Denver and our JCL Lodestar donor, AUTO Exceptional 282S. Being homozygous polled / homozygous black with a balanced performance profile, HBRL Beefy 485 offers a tremendous amount of breeding flexibility and marketability. Double digits for CED, negative BW and 113 YW and such powerful numbers for both MB and REA will add value to any cow herd that he goes to work in, we invite you to analyze this long sided, growth oriented bull.

- Adj. FAT: 0.19; Adj. REA: 13.41; %IMF: 1.19

• HBRL Bounty Hunter 490B is royally bred and represents the most exclusive pedigrees available in the Limousin and Lim-Flex population. With the amount of power in his pedigree, we had tremendous expectations for this sire prospect and he is certainly living up to those expectations. His sire, MAGS Zodiac was the high selling son of MAG Winston in the 2013 Magness Bull Sale; Zodiac is becoming one of the exclusive go-to bulls for proven growth due to hi 88 WW EPD and 144 YW EPD. HBRL Wholesome 953W has been extremely consistent in our program and continuously raised some of our heaviest calves, currently her performance report show 4 calves with an average WW ratio of 108. Her maternal ability is reflected accurately in 490B's epd alignment; he records a TM EPD of 72, which places him amongst the top 1% of the Limousin population for non-sire bulls. Study this bull from the ground up and you will be impressed with the massive amount of foot and bone that 490B is utilizing for a foundation, he definitely is the cattleman's kind.

- HBRL Cargo is one that stands out to us for being smooth patterned, being exceptionally balance from front to rear and super sound. He is homozygous polled / homozygous black son of MAGS Argo out of a Linhart bred female who we brought into our system in the end of 2014. Her growth numbers land her in the top 2% of the breed for WW and top 1% for YW EPD's in addition she is a MAGS Winston out of a Deuce with a superior phenotype. 501C is her first calf and we are absolutely thrilled about the job she did with him and look for great things to come from this cow family. This is your opportunity to be invest in what we feel is going to become a tremendous breeding bull that has every piece of the equation going for him.

• Here is one of the very first AUTO Boot Daddy 111A sons to be offered in public auction. AUTO Boot Daddy was the top selling bull in a past Heart of America sale and a many time champion in his show career. HBRL Casino 505C ET is just a February yearling and already shows so much expression of muscle, we can't help but be impressed. He easily sorted himself to our elite offering pen when it was time to pick our top bulls for the 2016 On Target Sale. This mating is very unique as it ties together the superior phenotype of AUTO Boot Daddy with the performance oriented profile of his Coleman bred dam, COLE Miss Production 926W. 505C is solid across the board for calving ease, growth and maternal traits and is in the top 15 of non-parent sires for MB and SMTI. Similar to his banner winning sire, Casino has really cool look through his front end and is extremely straight topped.

• Here is an opportunity to invest in a direct son of Baldridge Waylon, whose semen is in short supply and his progeny are in high demand due to his ability to improve fleshing ability, marbling, docility and scrotal circumference. Paternal brothers to HBRL Colt 45 512C averaged \$14,375 at Baldridge's Bull Sale. Waylon did exactly what we hope he would, 512C is moderate framed, extremely deep middled and has an exceptional disposition. We can really see a place for Waylon influence in the future within the Lim-Flex Population. With a 82.49 SMTI the possibilities are endless with this homozygous black AHCC Westwind W544 grandson, who also posts exceptional numbers for growth and maternal traits while still being below breed average for calving ease.

• Connealy Consensus 7229 is known across the country for producing record setting bull progeny and females who easily sort themselves into the replacement pen. His breeding flexibility and multi-trait superiority have provided the Lim-Flex population with an intriguing tool to capitalize upon. HBRL Cramer 514C is out of P Bar S / Double A Land & Cattle donor, PBRS Wagon Wheel 994W. Wagon Wheel 994W is one of the truly breathtaking females in the breed who has established herself as a standout donor producing many sale toppers. With this being said about his exceptional pedigree, it is no wonder that 514C is as superb as he is. Homozygous polled and nearly fault free in his performance indicators on paper make him so valuable in so many different ways. He certainly is one that you can confidently use and know that you won't be making any statistical sacrifices.

- This 56% Lim-Flex herd sire is homozygous black / homozygous polled and a breed leader for YW EPD and in the top 2% for WW EPD. HBRL Clint 517C is a direct son of past top-seller, MAGS Zodiac, the massive growth numbered son of MAGS Winston. Zodiac is an absolute powerhouse who passes on his growth in a consistent and predictable manner. HBRL Clint 517C recorded an adjusted weaning weight of 739 pounds and calculated a ratio of 107 off of a first calf heifer. MAGS Aiddlywinks is a LH Rodemaster daughter that goes back to Angus marbling giant, Rito 112. In the past 60 days, we have been absolutely blown away by how much 517C has changed and matured, in our opinion, he just keeps getting better and better every day.

- If you are seeking fast growing cattle that will gain benefits on both quality and yield grade driven pricing grids, HBRL Citadel 519C ET is certainly going produce them for you. The unique blending of excellence in all recorded carcass traits is quite rare and makes 519C extremely valuable. We challenge you to find many bulls that tie together a carcass profile like this, many generations of genetic selection and data utilization on behalf of Yon Family Angus have made this alignment possible. YON Future Focus T219 has produced several tremendous sons and his impact in the Lim-Flex population is certainly going to be beneficial, particularly with the new branded product opportunities that lay ahead of us. In addition to the exceptional terminal number, Citadel also reads with an 80 WW EPD and 133 YW EPD.

- Adj. WW: 784 lbs.
- Adj. YW: 1,244 lbs.
- Adj. FAT: 0.31; Adj. REA: 16.51; %IMF: 4.28

- A flushmate to Lot 10 and Lot 13, HBRL Cain 521C ET is royally bred and possesses an impressive arsenal of tools that can be utilized in commercial and pure-bred herds alike including being homozygous black. His dominance in the weaning and yearling data is extremely valuable and his SC epd puts him in the top 5% of non-sire bulls; very rarely do we see a 1.10 SC epd, it certainly is something we don't take lightly and really feel that this indicator for heifer fertility is a trait that cannot be ignored. At weaning, HBRL Cain 521C ET weighed down the scale at an impressive 784lbs and ratio'd 108 among his contemporaries. SBLX University Girl has a proven track record an produced many top cattle that were offered in the Jepson dispersal, we look forward to see her influence working in these three bulls that we have decided to offer.

- Another flushmate from the productive mating of MAGS Wazowski and SBLX University Girl. HBRL Calgary 523C ET is extremely sound structured with an ideal set to his hind leg and exceptional flexibility to his spine, hip and hock. HBRL Calgary 523C ET led all of his pen mates with a YW of 1,299 pounds and a 108 ratio. MAGS Wazowski, sire of 523C, was truly a bull that was ahead of his time, when he entered the marketplace he was by far one of the softest structured and deep bodied bulls available.

- BW: 77 lbs.
- Adj. WW: 715 lbs.
- Adj. YW: 1,016 lbs.
- Adj. FAT: 0.22; Adj. REA: 14.24;
Adj. %IMF: 3.80
- Due 05.10.16 to HBRL Accurate 372A (HB/HP).
- Leading off our Spring heifer line-up is an absolutely stunning daughter of EBFL Ypsilanti 420Y, she is so neatly balanced from end to end, she is smooth patterned and ultra sound. HBRL Alpine 391A is a tough one to part with given her pedigree, phenotype and performance profile. If upgrading your herd is a priority in 2016, this is an absolutely perfect place to start. 391A is homozygous black and records a 79 WW and 119 YW EPD. In terms of carcass traits and her ability to produce herd sires, she is flawless in all terminal columns including a .80 REA and .40 MB epd. Being a December heifer, she was always managed with older cattle but it never slowed her down; at weaning she had an adjusted weaning weight of 715 pounds and an adjusted yearling weight of 1,016 pounds. This MAGS Ramada granddaughter is certainly a highlight of the spring sale season.

- Due 04.23.16 to HBRL Accurate 372A (HB/HP).
- HBRL Bristol 408B is the type of female, who from day 1 you look at and say to yourself “wow, that one is going to make a cow.” Then her scan data came back and it was obvious that she was going to be amongst the breed’s elite for marbling with an adjusted IMF score of 6.460 and an IMF ratio of 117.2 which helped in calculating a .51 MB EPD and placing her in the top 5% of non-parent females. This females production numbers never stop surprising us, especially her 15 CED. With these sought after highlights in calving ease and marbling, she is destined to be a herd bull producer.

- Adj. FAT: 0.35; Adj. REA: 13.42; Adj. %IMF: 5.02
- Due 03.03.16 to MAGS Zodiac (HB/HP).
- This spectacular homozygous polled / homozygous black individual is truly one of the finest that we have ever bred here at Buck Ridge. When you view this heifer on the profile, you can't help but be impressed immediately by her powerful stature, fleshing ability and designer hip shape. When you get behind her, you are anything but disappointed, she has so much dimension from stifle to stifle and comes thick and square from hooks to pins. Studying this female never gets old. Like her dam's name indicates, she is truly exceptional. Being an own daughter of Connealy Consensus 7229 makes her even that much more intriguing to us. The Consensus cattle are writing their own history amongst the Angus population with their record breaking sale figures and the amount of females being retained in breeding programs. Bijou is double digits for CED and .58 for MB.
- Buck Ridge is reserving the right to one flush on HBRL 415B at Four Corners Embryo Transplant. Expenses paid by Buck Ridge. Buck Ridge retains all embryos produced.

- Due 09.16.16 to MAGS Zodiac (HB/HP).
- On the maternal side of the fall bred heifer's pedigree you will find one of the most impressive cow families in the breed. JCL Heidi, the grand dam of HBRL Amazing Grace 375A is also that dam of WLR Ugly Betty 432U, who is the dam of Adam Griffith's many time champion heifer, AUTO Bette 266Y. In addition to this notable relationship, Amazing Grace 375A is one of the most numerically balanced females in the offering. She is in the top 40% or better for every single calving ease, growth, maternal and convenience trait. She is a first time heifer holding her own with a five month old calf on her out of the field. This 50% Lim-Flex female is homozygous polled and homozygous black and bred to one of the most popular sires in the breed, who has worked so well for us, MAGS Zodiac.

- Due 09.18.16 to HBRL Genesis 404B (HB/HP).
- HBRL Beauty Queen 494B is a trait leader for not one, but two economically important data points, MB EPD and \$MTI. This own daughter of the syndicated MAGS Zodiac A.I. sire who topped a past Magness Sale out of our MAGS Unibrow cow who is a GAR Predestined. GAR Predestined was one of the first Angus bulls to infiltrate the Lim-Flex population who added marbling ability and solid growth numbers in a functional, highly productive package. We take great pride in breeding cattle that have a significant spread between birth to yearling, HBRL Beauty Queen 494B falls right into that category; she is a 13 CED and 115 for YW EPD.

DAM: SBLX Zero Out

EMBRYOS
Bid at www.rrmarketplace.com

SBLX Zero Out 1361Z came out of the heart of the Pinegar and Sugar Bush programs originally. She is sired by the Angus sire SAV Brilliance 8077. He is the SAV Bismarck 5682 son back to a

daughter. She is from the Sugar Bush and breed-leading donor MAGS Manuela and she is remarkable in their design and profile. She is following in the same footsteps as many of the breed's greats that have come from the MAGS Manuela donor. Sire of embryos is MAGS Zodiac, our A.I. and natural sire that we own with Hager Cattle Co. and Magness Land and Cattle. He is a direct son of the now deceased MAGS Winston.

EMBRYOS

Bid at www.rrmarketplace.com

EXLR Luvly is a feature donor in the Buck Ridge Limousin program and is a go to donor to tie together phenotypic quality and predictable performance. Study the numbers that this exceptional homozygous polled female brings to the table. She in the top 10% of the breed for CED and YW, and top 2% for CEM. Carcass

wise, she is in the top 10% for REA, top 5% for MB and top 4% for \$MTL. She is destined to be a herd sire maker in the years to come. MAGS Anchor is now deceased and semen is limited in availability and with the popularity of the calves that are currently on the ground the marketability potential of this mating is endless. This lot is truly an investment in the future of the Limousin genetic base. Resulting progeny will be homozygous polled.

Bid at www.rrmarketplace.com

DAM: AUTO Exceptional 282S

It is always exciting when we can offer embryos out of our foundation donor, AUTO Exceptional 282S. Excep-

tional is a top homozygous polled and homozygous black purebred female, sired by JCL Lodestar 27L at Buck Ridge. Sired by one of the breed's hottest bulls in the breed at the moment, AUTO Cruze 132X. His semen is not on the open market and is only sold when Mr. Pinegar feels generous. When it has been offered, it has fetched very prominent figures and rightfully so. He is a son of MAGS The General.
