HOHF Narcissa 905N is a 71% Lim-Flex female that exemplifies the ideal blend of balance, functionality, and proven genetics. She is sired by HWCB Eye of the Storm 406E, a bull known for his striking phenotype, sound structural design, and ability to transmit consistency and eye appeal across his progeny. Her dam, HOHF Koi 805K, provides the maternal strength and foundational quality that further elevates ELCX Narcissa 905N's breeding value. HOHF Koi 805K represents a cow family built around longevity, fertility, and functional production traits—females that not only look the part but also deliver year after year. Her influence contributes femininity, rib shape, and a consistent track record of producing calves with style and substance. HOHF Narcissa 905N is the kind of female that represents the next generation of progressive Lim-Flex breeding. She combines the eye appeal and muscle dimension of her sire with the maternal reliability and productivity of her dam, resulting in a complete package that balances phenotype, performance, and practicality. ELCX Narcissa 905N is a versatile, well-constructed female designed to make an impact—whether as a cornerstone brood cow, a show-quality producer, or a performance-driven addition to a top-tier breeding program. She is double black and double polled.

ELCX Nola 959N is a 67% Lim-Flex female that embodies the balance of power, refinement, and performance-driven genetics that define the ELCX breeding program. She is sired by ELCX Killinit 250K ET, a young and dynamic sire whose progeny have been making a strong impression for their structural soundness, depth of body, and natural presence. Her dam, ELCX Lost Capital 959L, contributes a solid maternal foundation built on productivity and longevity. ELCX Nola 959N is the kind of female that checks all the boxes for a modern Lim-Flex breeding program. She combines the eye appeal and muscle expression of her sire line with the maternal strength and dependability of her dam, making her a versatile option whether the goal is to produce high-performing seedstock or visually impressive show prospects. Her balance of genetic predictability, structural soundness, and classic Lim-Flex design makes her a standout among her contemporaries. She is double black and double polled.

ELCX New Rules 540N is a powerful and well-balanced female that showcases the blending of proven genetics, functional design, and breed character that define today's elite Lim-Flex cattle. She is sired by SSTO Guns N Roses 9408G ET, a bull that has gained recognition for transmitting exceptional structural integrity, muscle expression, and eye-catching phenotype. Guns N Roses combines the stoutness and mass desired in the Limousin breed with the softness and balance necessary to excel in both seedstock and show-focused programs. Her dam, KBCY Twilight Ususpect 055J, adds another layer of breed influence and maternal excellence. Twilight is a direct daughter of MAGSWL Usual Suspect 538U, one of the most iconic sires in the Limousin breed, celebrated for producing cattle that combine show-ring appeal with functional utility. The combination of SSTO Guns N Roses 9408G ET and MAGSWL Usual Suspect 538U creates a pedigree rich in both genetic strength and visual appeal. ELCX New Rules 540N embodies the best of both worlds—feminine and correct in her design, yet bold and powerful in her build. She represents a new generation of Lim-Flex females bred for longevity, versatility, and consistency, with the ability to produce offspring that excel in performance, phenotype, and productivity.

ELCX Nairobi 539N is a striking female that combines a proven pedigree with a foundation of genetic excellence and functional appeal. She is sired by ELCX Kings Landing 599D ET, a sire admired for his power, presence, and genetic consistency—transmitting exceptional structure, muscle shape, and balance to his offspring. Kings Landing has established himself as a breed-impacting bull known for adding style and growth while maintaining maternal integrity and performance. Her dam, ELCX Fiji 27Z, further enhances Nairobi's genetic merit. Fiji is a direct daughter of the highly regarded Connealy Consensus 7229, one of the most influential Angus sires in recent years, recognized for his ability to sire cattle with length, muscle expression, and superior carcass quality. Fiji's dam, SBLX Xina Colada, traces back to one of the most recognizable cow families in the Limousin breed—known for their striking front ends, longevity, and productive maternal lines. Through this pedigree, ELCX Nairobi 539N blends elite Lim-Flex genetics that emphasize both eye appeal and performance. Her lineage stacks generations of maternal reliability, growth potential, and breed character, making her a highly versatile female suitable for advancing a progressive breeding program. With a foundation rooted in structural integrity, femininity, and genetic predictability, ELCX Nairobi 539N exemplifies the kind of female built to perform in both the pasture and the show ring.

ELCX Naples 535N is a beautifully designed female who exemplifies the balance of performance, phenotype, and genetic predictability that define the modern Lim-Flex breeding program. She is sired by ELCX Kings Landing 599D ET, one of the most influential sires to carry the ELCX prefix. Kings Landing is admired for his ability to transmit exceptional structural soundness, body dimension, and breed character while maintaining balance across growth, maternal, and carcass traits. Her dam, ELCX Fiji 27Z, adds proven Angus influence through her sire, Connealy Consensus 7229, one of the most impactful sires in the Angus breed. Through this powerful pedigree, ELCX Naples 535N brings together the strength of Limousin muscle and performance with the refinement and maternal traits of Angus influence. She represents the kind of female that can move a program forward—one that blends genetic excellence, femininity, and production value in a complete, balanced package. ELCX Naples 535N is the type of female designed to generate cattle that thrive in both the pasture and the show ring, offering long-term value and versatility to any progressive herd.

ELCX 269K ET is a 65% Lim-Flex female that exemplifies the balance of structural quality, genetic depth, and performance potential sought after in today's Limousin and Lim-Flex programs. She is sired by ELCX Kings Landing 599D ET, one of the most influential sires in the ELCX lineup, known for producing cattle that combine impressive muscle shape, balance, and breed character. Her dam, BSTR Gold Digger ET, contributes a maternal strength and proven production background that complements Kings Landing's phenotype. m across a variety of environments. ELCX 269K ET represents the next generation of balanced Lim-Flex genetics- a female that pairs phenotype with genetic predictability. Her combination of Kings Landing's power and design with Gold Digger's maternal reliability positions her as a versatile breeding piece capable of producing progeny that excel in performance, structure, and style. She is homozygous polled and heterozygous black.

ELCX Little Red 356L ET is a 25% Lim-Flex female that combines a proven genetic foundation with a refined and performance-oriented profile. She is sired by EGL GCC Red Eagle E7194, one of the most influential sires in recent years, admired for his ability to transmit exceptional structural integrity, fleshing ability, and carcass merit. Her dam, SBLX Zane, provides an elite maternal foundation steeped in breed quality and predictability. Zane descends from one of the most recognizable cow families in the ELCX and SBLX programs, known for their combination of femininity, capacity, and production excellence. On paper, ELCX Little Red 356L ET demonstrates an added layer of carcass value, ranking in the top 35th percentile for marbling. ELCX Little Red 356L ET represents the modern direction of Lim-Flex breeding: functional, attractive, and performance-minded. She brings together the maternal strength of SBLX Zane with the genetic power and carcass potential of EGL GCC Red Eagle E7194, resulting in a female that is as practical as she is eye-catching. With her balanced EPD profile, elite marbling ranking, and proven pedigree, ELCX Little Red 356L ET is designed to leave a lasting impact in both seedstock and commercial operations. She is homozygous polled.
