CF Sue Beth 133C

Fullblood [100]	HP / Red	CVER 133C
Cow	06.06.15	NFF 2092642

Homo Polled (P-2)

CF Sue Beth 133C represents the future of the Polled Fullblood sector, she is homozygous polled, low actual birth weight and structurally sound. Many of these traits are so closely aligned with with the strengths her sire, CVER New Generation 365Z possesses. New Generation is featured on Limi Live, where you can witness so thick and sound he is; he is the right kind for the discriminating producer. Maternally speaking, 133C's dam is one of the most desirably designed Fullblood cows to ever grace the pages of a sale catalog, she is halter-broke, ready to show and catches the eye of many due to her depth, fleshing ability and udder quality.

Built for it All

Fullblood [100]
Cow

Polled / Red
04.04.15

LVIE 355C
NFF 2076914

Polled

Garrison Limousin has brought this spring yearling female to us that is very stout and functional in her make-up. We love the amount of muscle she carries in a refined package, her substance of bone and size of foot indicate longevity; she is quite simply the right kind. This Polled Liberty granddaughter is a 26 for MK and in the top 10 of the breed for YG EPD; Polled Liberty is the famous sire of ENGD Unbridled as well. At birth, Built For It All was certainly a highlight of the calving season when she hit the ground at a highly manageable 65 lbs.

RJRD's Miss Daisy

Fullblood [100]	Polled / Red	RJRD 587C
Cow	04.02.15	NFF 2091190

Polled

RJDJ's Miss Daisy is a truly spectacular female that will be an asset to any lean muscle based system that is also concentrating on maternal traits. Her data indicators for milk and put her in the top 25% of the breed, and her YG and FT are in the top 2 and 1% of the Fullblood/Purebred population. An own daughter of CFSV On Target 384A who is one of the young and promising Fullblood sires due to his balanced EPD profile that spreads from 1.6 BW to 74 YW.

Total Sweetness

Fullblood [100]	DP / Red	GARS 545C
Cow	04.01.15	NFF 2076920

Double Polled

Total Sweetness is long sided with a long stride. We just love the balanced lean look she gives us and how she can flat get out and cover ground. View this female on the move and she has all the right angles to assure structural soundness and longevity. We also admire her proven pedigree who includes STZZ Polled Yukon 50E, the sire of the famous Fullblood matriarch, ANLC 10H, who's embryos are featured as lot 18. Sweetness's dam is out of a J Bar J female from Jack Glendenning in Missouri, one of the long-standing Limousin producers.

GBBL Lady Sierra 102B

Fullblood [100] Horned / Red GBBL 122B
 Cow 12.30.14 NFF 2093963

Horned

GBBL Lady Sierra 102B has a tremendous performance profile that will rival that of any young full-blood heifers sold this year. 71 WW, 97 YW, 61 TM, 19 ST, -.30 CW and -.09 FT epds put her well the other side of average for these economically important traits. Billy White has dug deep into his replacement pen to bring the Polled Mojo daughter to the offering. 102B's dam, FL Foxy lady was imported from Canada and is a masterpiece in her own right. As you will see, she is super straight-lined and eye appealing. It is important that we point out her exceptional disposition as well.

BW: 75 lbs.

CF Polled Mojo 194U, sire of Lot 6.

CF Alberta Jo 110B

Fullblood [100] DP / Red CVER 110B
Cow 11.15.14 NFF 2074426

Double Polled

CF Alberta Jo 110B is a direct daughter of CF Polled MOJO 194U that goes back to the historically proven Posthaven program on the bottom side. Without a doubt, this female has such a maternal look to her; she is ultra-refined through her front 1/3, she is neat about her neck and fresh in her appearance. This heifer is at the age where you can really capitalize on your investment, she is ready to breed for a spring 2017 calf and has been developed nicely to this point. From a statistical standpoint, you have to admire her YW epd, as she is in the top 25% of the population, furthermore she makes an intriguing breeding piece as she is in the very top 1% for FT EPD.

BW: 69 lbs.; Adj. WW: 820 lbs.;
Adj. YW: 1,082 lbs.

Double Polled

Carver Farms has put their best foot forward in this offering, with CF Mojo Queen 124B certainly not being an exception. This high growth, high milk female has a world of potential given the great ones in her pedigree and her exceptional look. She is so elegant from the side and doesn't disappoint you from behind when it comes to skeletal width and muscle mass. Being 76 lbs at birth and over 1000 at yearling, she truly hits the mark for actual birth to yearling spread. On paper she ranks in the top 25% of the breed for MK, TM, YG, FT and well above average for WW, CW, and REA.

Cow 02.19.08 NFF 1910252

Polled

A.I. safe 1.17.16 to GHR Polled After Shock

Lenape Hannah is a direct daughter of breed matriarch and past grand champion AUTO Pam 285P, who's impact will be seen for many generations to come within the Fullblood Limousin population. Hannah is amongst one of the many great Pam daughters in existence, however her outcross sire makes her a ultra-dynamic breeding piece. This polled female is certainly a viable option for those looking to make the next step forward in their breeding program. Sells A.I. safe 1.17.16 to GHR Polled Aftershock, who was imported from Canada and the Reserve Grand Champion Bull at the 2015 Fullblood National Show.

Lot 14A - CF Cedar Patch Hanna 168C - NPF 2092916, 100% PB Limousin cow, calved 11.16.15, double polled, red, sired by Wulfs Amazing Bull T341A. BW: 72 lbs.

CF Cedar Patch Hanna 168C, Lot 14A.

CF Second Generation 115B

Fullblood [100]	Polled / Red	CVER 115B
Bull	11.17.14	NFM 2074427

Study the look this guy gives you from all angles, wow! He is so long and extended through his front end, straight down his top with explosive muscular shape from the side. We just love how fluid he is in his movement and the flexibility he displays through his joint work. This son of CVER New Generation 365Z is polled, offers a WW epd that is in the top 30% of the breed and is ready to breed cows. His mother is the exclusive Lot 13 female that comes from our VOET Sassie donor. Note the explosive growth of 115B; from weaning to yearling he posted an Adj. WW of 822 and Adj. YW of 1,291.

BW: 79 lbs.; Adj. WW: 822 lbs.;
Adj. YW: 1,291 lbs.

Fullblood [100] DP / Red CVER 119B
 Bull 10.09.14 NFM 2074418

Double Polled

It is hard to part with this one, however we are certain he will make us so very proud when we see him working in another Limousin program. CF Wise Guy 119B has breeding bull written all over him, he is extremely masculine, has a superb amount of muscle working from all angles, long sided and stout featured. There will be no doubt in our mind that you made the right decision when you turn him out to breed cows. He carries the lineage of CFSV Polled Excel, STZZ Polled Guthrie and traces back to some of the very top cows in the Stone Valley program. Please note his Adj. YW of 1,315 lbs. He is certainly ready to work!

BW: 79 lbs.; Adj. WW: 883 lbs.;
 Adj. YW: 1,315 lbs.

5 Embryos LESF Naturally Peachy

Fullblood [100] Horned / Red LESF 167N
Cow 09.13.03 NFF 1755477

LESF Naturally Peachy is a direct daughter of Georgia Peach and is one of the deepest sided, easiest fleshing fullblood females in the country, yet she doesn't sacrifice the stoutness of foot and bone and dimension of muscle that we appreciate these fullblood cattle for. CPPD Georgia Peach has produced many of the legendary cattle in the breed and was truly ahead of her time in terms of style and eye appeal, she is past high seller in Andrews Land & Cattle Dispersal. Peachy is a paternal sister to past Futurity Champion, AUTO Pam. Carver Farms is offering 5 embryos by a sire of your choice in a, rights to flush scenario. Buyer supplies the semen and pays for the shipping of the 5 embryos. All other expenses are paid by the seller.

**Possible export to Canada and Australia, and Mexico

5 Embryos ANLC 10H

Fullblood [100] Cow	Polled / Red 02.25.98	ANLC 0H NFF 1467460
------------------------	--------------------------	------------------------

Selling: 1 embryo from each of these sires: EAFF Polled Hummer 530P (heifer embryo), PUB (heifer embryo), CF Jim Dandie 216U, FL PLD 4Z Olympus Touch and GRH Polled Aftershock.

(Option 2: any combination of 5 embryos of the three exportable bulls: CF Jim Dandie 216U, FL PLD 4Z Olympus Touch, GRH Polled Aftershock)

Exportable to Canada and Australia

Polled

ANLC 10H is recognized in the Limousin breed as one of the very best and finest polled fullblood females. She is sired by the breed popular STZZ Polled Yukon 50E sire from the famed fullblood donor Burning Heart 225W. The dam of more than 50 leading cattle in the Fullblood registry, her progeny have risen to the top of the Lenape, Englewood, ACH Holdings and Southern Cattle Company's programs. 10H, quite simply put is "the donor" in the Fullblood population; her influence is felt throughout the entire breed from shore to shore. This generous contribution by Carver Farms is one of the highlights of the breed thus far this year.

See the next 3 pages for bull information.
