Hard Work, Good Friends, Great Beef

HOW IT STARTED

2018

Just An Idea

In 2018 we sat around a campfire in Gatesville, Texas, and asked, how can we share moments like this with everyone? Ranching is in our blood, so we hit the drawing board and started talking about how we could disrupt an industry that has long left quality and honesty in the dust. We knew we were going up against a challenge, but that excited us even more.

2019

Everything Is Better In Texas

We know one thing that brings together family and friends universally is great food, and being from Texas, that means one thing to us: BBQ. It wasn't long after that Iron Table Wagyu was born. We realized we could bring something to the market that would far exceed the quality of anything else available, and we wanted to do it right here in the heart of Texas.

2020

No Shortcuts

We put our heads together, and pulled ourselves up by the bootstraps. Iron Table Wagyu started as a humble ambition with a big goal. "Farm Raised", and "Farm to Table" have never been just marketing phrases to us. We began breeding our first 100% Full Blood Wagyu cattle, DNA certified to Japan in 2019, and by 2020 we were solidifying our genetics to bring you an experience like no other.

Today

One Chapter Ends, and A New One Begins

Jim DiMeo has decided it's time for him to retire and enjoy the fruits of his labor in the past and current businesses. This has not been an easy decision but is one that is made with much consideration and respect with all that have been involved.

ITW ~ THE STANDARD ~ COMPLETE AND TOTAL DISPERSAL SALE

Sale cattle are available for viewing prior to the sale. Call Will to make an appointment, 254.498.2278.

SALE ORDER & SUPPLEMENTAL INFORMATION

Lots sell in catalog order. A supplement sheet will be available on sale day with updated information. Announcements from the auction block will take precedence over printed material.

All Videos will be available on Live Auctions.TV

CARCASS PHOTOS

All carcasses imaged with the MIJ camera between the 12th and 13th rib.

REGISTRATIONS & TRANSFERS

All cattle are registered with the Australian Wagyu Association. ITW will assist in getting lots registered in the American Wagyu Association if the buyer desires.

TRUCKING TRANSPORTATION

To coordinate trucking needs, please contact Randy Lathrop, 847.910.4673 and/or your preferred trucking company.

Shipping expenses of any and all live animals will be the buyer's responsibility - seller and buyer will work together to establish all shipping arrangements. All lots become the buyer's risk once purchased. After purchase, all costs are the buyer's responsibility.

INSURANCE

If you would like to purchase insurance, please contact James Bessler Insurance, 815.762.2641

INTERNATIONAL BUYERS

ITW will complete necessary testing at the buyers expense. ITW will not

be able to guarantee that animals will pass testing for export.

GENETIC CONDITION STATEMENT

All cattle will sell free of genetic defects for any tested traits unless otherwise stated on the lot page. Please also reference Australian website.

SEMEN

Semen selling is not eligible for Export.

HERD HEALTH STATEMENT

- All Sale Cattle have been vaccinated with Bovi-Shield Gold One Shot, UltraBac 8, Vira Shield 6+L5
- All Sale Cattle have been treated with Cydectin Pour On, Ivermectin Plus and Cylence Fly Control
- All Heifers 6 months or older will be Brucellosis Vaccinated
- All Bulls have passed a Breeding Soundness Exam and will be Trich Tested
- ITW works with Dr. Matthew Wright, Belton Veterinary Clinic, consults with ITW on all herd health protocols

BREEDING STATUS

All females have been intentionally left open by design.

BREEDINGPLAN

EBV references in footnotes are based off of Breedplan, May (Run 2) information

EBVs listed with pedigrees are from the Breedplan, June (Run 1)

LIVEAUCTION.TV

If you have any questions in signing up for the sale, please contact representative Erick Schmidt, 830.263.0166 or email Erick@liveauctions.tv.

1. CREATE AN ACCOUNT ...

- Click “Register to Bid” on the top right corner of LiveAuctions.tv.
- Fill out the required information to bid online.
- Agree to the terms of service and finish with the “register” button.

2. REGISTER FOR A BUYER NUMBER ...

- From the home page or the “all auctions” page, choose the sale you’re interested in.
- Once selected, click the “request a buyer number” button.
- Verify your email address with the email verification link. To verify your mobile number, click “send token.” Follow the steps to authorize your mobile device and click “submit.”

3. BID SUCCESSFULLY ...

- You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you’re a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

PAYMENT

All lots must be paid for immediately following the conclusion of the ITW The Standard Sale. Both IN PERSON and ONLINE buyers are welcome to pay by cash, check, credit card (you will be charged a 3% fee on the total sum of your purchase), or wire.

PAYMENT INFORMATION FOR ALL BUYERS

- ☐ CASH
- ☐ CREDIT CARD (3% fee will be added) - please call Abby at 919.618.8098 to run your card information or request a quickbooks invoice to enter your information manually
- ☐ CHECK PAYMENT - please send with a tracking # to our Nashville office, PO Box 60097 Nashville, TN 37206
- ☐ BANK WIRE - wiring instructions will be available at the check out desk, or if you are an online buyer, these instructions will be send with your invoice.

IN PERSON BUYER INFORMATION

If you are a WINNING BIDDER, please follow these closeout steps:

- 1.) Visit the clerking table to get a printed copy of your invoice and receive all payment options and instructions. You cannot load out or set up trucking until you have been provided a copy of this invoice.
- 2.) Payment options—please let our clerking table know how you plan to pay for your purchase
- 3.) Collect heath papers on the live animals you purchased
- 4.) All buyers are responsible for setting up trucking arrangements or organizing pick up details with Iron Table Wagyu.

ONLINE BUYER INFORMATION

If you are an ONLINE WINNING BIDDER, please follow these closeout steps:

- 1.) You will receive a buyer invoice via email with payment options and instructions.
- 2.) Once you receive your invoice (check your spam), please send a text or email to confirm receipt with your name, invoice number, and your preferred method of payment to: Abby Hinton 919.618.8098, abby@wagyu365.com
- 3.) Once received, a member our Wagyu365 team will contact you if needed for payment assistance (applies to credit card or quickbooks payment links)
- 4.) All buyers are responsible for setting up trucking arrangements or organizing pick up details with Iron Table Wagyu.

MANAGEMENT

Auction money and proceeds will be conducted under

Randall O. Ratliff, DBA R & R Marketing,

P.O. Box 60097, Nashville, TN 37206.

Bond # 7901027402

(U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers & Stockyards Program).

AUSTRALIAN WAGYU GENETIC ANALYSIS

Wagyu BREEDPLAN is the genetic evaluation program implemented by the Australian Wagyu Association, which uses Best Linear Unbiased Prediction (BLUP) technology to produce Estimated Breeding Values (EBVs) of performance and pedigree recorded cattle for a range of economically important production traits (e.g. weight, carcass, fertility). More than 600 scientific publications have been produced describing BREEDPLAN and its implementation for driving genetic progress across cattle breeds.

Wagyu BREEDPLAN includes pedigree, performance and genomic information from the Australian Wagyu Association's database, which is the largest globally available Japanese Black database used for the evaluation of the genetic merit of Wagyu cattle. The Wagyu BREEDPLAN analysis provides the most thorough and accurate assessment of fullblood Wagyu genetics available outside Japan. The analysis includes over 300,000 registered Wagyu animals. Phenotypic records include 70,000 animals with birth weights, 77,000 with weaning (200-Day) weights and 52,000 with 400-Day weights. Carcass data includes 34,000 carcass weights, 28,000 carcass EMAs and a total of 33,000 carcass AUS-Meat marble scores, camera marbling percent and camera fineness index measures.

ESTIMATED BREEDING VALUES (EBVS)

An animal's breeding value is its genetic merit, half of which will be passed on to its progeny. While we will never know the exact breeding value, it is possible to make good estimates based on the performance of the animal and its progeny. These are called Estimated Breeding Values (EBVs) and these are the best estimate of an animal's genetic merit. Estimated Breeding Values for an animal may change as additional performance data or genotype information is provided for that animal or animals within that animal's pedigree.

Estimated Breeding Values for an animal may change as additional performance data or genotype information is provided for that animal or animals within that animal's pedigree. It is not unusual for EBVs to change, particularly where the EBVs are low accuracy (<50%). For hard to measure, or traits that can only be measured late in life, such as carcass and meat quality traits, EBVs provide the best estimate of an individual's genetic merit early in life to help inform management decisions.

Submission of performance data can have a large bearing on the estimate of an animal's genetic merit over its life and this will impact the genetic merit of the animal's progeny. As the accuracy of an EBV improves over time (along with more data and genotype information), EBV values will be more constant.

All EBVs and selection index values listed in this catalog are current as of the Wagyu Breed Plan November 2024 - Run 1. On June, 2025 the Australian Wagyu Association introduced changes to their selection indexes. Due to the timing of these changes and the production timeline of this catalog we were not able to reflect these changes in the catalog. Updated EBV and Selection Index values will be available on sale day or you can request updated values by contacting Iron Table Wagyu Directly.

Dear Wagyu Enthusiasts,

Iron Table Wagyu will sell in its entirety on June 21. This complete and total dispersal of all Registered Black Wagyu along with all our Fat and Feeder cattle will sell that day. Things and times change as we go throughout this life and Jim DiMeo has decided to retire and enjoy this next chapter in his life.

This sale will be held only online at www.Liveauctions.tv where you can bid online as the auction is happening. It will be a day filled full of excitement as it will be the chance for bidders from across the United States to have the chance to acquire and select from the entire ITW herd. We share our passion for Wagyu cattle with you and are in hopes you like the offering as much as we do.

At Iron Table, we believe that genetics are the cornerstone of producing the finest Wagyu beef. Our carefully curated herd has been a labor of love over the last few years.

This sale will showcase the most sought-after bloodlines, each representing years of dedication, innovation, and a commitment to excellence. Whether you are a seasoned breeder or new to the world of Wagyu, we are excited to help you discover the potential of these extraordinary animals.

Over the past six years we have focused on creating cattle that combine superior phenotype, deep maternal pedigrees, and proven carcass data. We believe it takes a high-pressure, multi-trait selection approach to achieve the complete combination animal the Wagyu breed requires.

Prior to this sale, you will have the opportunity to engage with our knowledgeable ITW manager, who is eager to provide insights and answer to any questions you may have. If you would like to view the sale cattle prior to the sale, please give Will Tawater a call to arrange an appointment.

We encourage you to take your time, explore our offerings, and connect with Will or anyone from the Wagyu365 Team, whom all share our passion for the ITW superior genetics.

As you browse our offering, remember that each animal has a story to tell, a lineage rich in quality and data.

Our goal is to assist you in making informed decisions that will elevate your breeding program and contribute to the ever-growing appreciation for Wagyu beef.

Thank you for joining us online and we are in hopes you find this experience inspiring and fruitful.

Together, let's celebrate the remarkable journey of Wagyu genetics!

Warm regards,
Iron Table Wagyu Team

Dear Wagyu Enthusiasts,

Wagyu365 welcomes you to the Iron Table Wagyu Complete and Total Dispersal Sale.

We along with the ITW team welcomes everyone to partake in what is destined to be a grand event. We are offering for your appraisal a total of 482 live cattle.

We are offering ...

- 220 Registered Black Wagyu Seedstock lots selling as 174 females and 46 bulls
- 254 embryos and 2,629 units of semen
- 111 Fat Steers and Heifers
- 151 Feeder Steers and Heifers

They have been genetically engineered to be the best possible and the most suited phrase that describes this sale offering is "When Phenotype MEATS Predictability."

The ITW team have been going strong since the inception of ITW over six years ago. It is important to note that there have been no females sold out of this herd except for meat purposes from the beginning, until this first and only production sale 12.15.24.

You will discover Registered Black Wagyu that blend the best of strong and predictable EBV's with current pedigrees and a conformation that is as good as you would ever want. The Iron Table Wagyu branded beef program is highly recognized in the marketplace and right fully so. Their ITW beef is served in several elite restaurants throughout Texas and is very sought after. Throughout the sale catalog you will see meat pictures that are shown as a reference to the genetic lots we are offering. It is nothing but impressive to say the least.

Team Members Jim and Will have been nothing but the utmost professionals regarding the handling of this sale and all the information. It is with gratitude and much appreciation that ITW and W365 thanks everyone for their support and confidence they have shown in the Iron Table Wagyu program. The team at Wagyu365 are pleased to be branding and marketing this unique and special event. We know you will be very impressed with the sale offering that is listed in this catalog, and it will bring attention to all the things that are great about Wagyu!

Please let any of us know if you have any questions and thanks for the interest you have showed in the sale.

Best regards,

Randall O. Ratliff, Wagyu365 team member

P.S. To schedule viewing of the sale cattle prior to the sale please contact Will via phone, text or email.

PROTOCOL FARMS

Protocol Farms Feeding and Research Center located near Bowie, Texas, is a highly unique, fully covered cattle feeding facility specializing in the nutrition and care of Japanese Wagyu cattle in a low-stress, spa-like environment. Top U.S. Wagyu producers feed their cattle here and produce the highest-quality beef in the country.

Cattle comfort is king at this facility with everything from an insulated roof, ceiling fans, lush straw bedding, feed-refreshing robots that run every four hours around the clock, and a very succulent, all-natural total mixed ration fed to appetite, all to provide cattle with the most comfortable environment possible. Cattle are even serenaded with music 24/7. The farm also has a veterinary-supervised biosecurity plan along with well-trained personnel specializing in low-stress management practices.

Protocol Farms is the culmination of our owner and staff's pioneering efforts and many years of experience working with top Japanese and US Wagyu producers committed to ultra-high quality and consistent, all-natural Wagyu beef.

- Over 50% of all fullblood Wagyu beef from PF has graded at 44% DMP or higher (comparable to Japanese A5 grade)
- Over 4% of all fullblood Wagyu beef has graded at 56% DMP or higher (comparable to Japanese BMS 12)
- Wagyu beef from Protocol Farms is already recognized as the very best in the U.S. and is quickly becoming recognized worldwide as the premier purveyor of 100% Japanese Wagyu beef outside Japan

6179 FM 2127, Bowie, TX 76230
940-683-8123

Iron Table Wagyu will assume all costs associated with feeding cattle housed at Protocol Farms in Bowie, TX, through 6/30/25. After this date, the new owner will have the sole responsibility for all costs associated with feeding cattle at Protocol Farms including an ownership transfer fee of \$10 per head. For those buyers wishing to leave their feeders at Protocol Farms, in addition to executing a placement agreement by July 1, 2025, please know the average total daily cost will be approximately \$5 per head daily depending on size of the cattle and their associated daily feed intake. For any questions or to make shipping arrangements, please contact Ethan Harms, Protocol Farms Mgr, at 817-598-9683.

WORDS FROM ITW

Our Nutritionist, Dr. Jimmy Horner has developed a feed program specifically for Iron Table Wagyu feeder cattle. He has taken forage, soil, and water samples from our ranch, and created a custom ration to ensure that our cattle are receiving all of the essential vitamins and nutrients needed to produce a great carcass. He has been working with Wagyu cattle for over 30 years. He very much understands the nutritional requirements of our forage and feed programs, and husbandry practices needed to produce the absolute best results. Once our calves become six months of age, we wean them and have them start on our custom all-natural diet that has been formulated for our ranch by Dr. Jimmy Horner. Once the calves become nine to ten months of age, the cattle are under Dr. Horner's direct care at his state of the art cattle feeding facility, Protocol Farms. This feed facility was created with the animals' health at the forefront and to eliminate as much stress as possible. The facility is all under cover, has fans for all the cattle, fresh shavings for bedding, soft music playing throughout the day, and

a feed robot that keeps the feed pushed up 24/7 for fresh consumption. The feed is a 100% all-natural ration. We are also antibiotic free, Dr. Horner promotes probiotics over antibiotics, and targets the natural gut microbes to heal sickness. All feed that is fed is sourced local, and follows all FDA guidelines for quality. We have done everything in our control to insure the best results for the animal, and to create the best quality possible.

TESTIMONIES

Iron Table Wagyu (ITW) fullblood Wagyu feeder and fat cattle at Protocol Farms are among the very best in the U.S. In addition to superb functional type/phenotype and growthiness, ITW cattle have consistently ranked in the top 3 for carcass quality of all the U.S. Wagyu producers harvesting fullblood Wagyu cattle from our facility over the past 3 years. ITW dams and calves are fed and managed to optimize fetal imprinting from the get-go at the ranch and the ITW folks have never wavered on their commitment to our well-established and highly proven Protocol Naturals' Wagyu Feeding Program. As a result of their being "jump-started as calves" once ITW cattle arrive at our facility, they never miss a beat. They are promptly placed in one of two ultra-comfortable, low-stress, covered feeding barns and are bedded on straw and fed an all-natural and very succulent total mixed ration daily comprised primarily of flaked corn, wheat bran, corn DDG, cottonseed meal, ground wheat hay, minerals and vitamins, all balanced by our staff of certified professional animal nutritionists. We do not take shortcuts with our client's cattle at Protocol Farms, and I can also say with 100% confidence that the folks at ITW have never taken shortcuts with their cattle either. Iron Table Wagyu has accomplished more in approximately 6 years than most producers realize in a lifetime and to say they will be sorely missed by us, and the rest of the U.S. Wagyu industry is a gross understatement.

Jimmy Horner, Ph.D., PAS, Diplomate ACAN
Protocol Farms, President/CEO/Founder
