Lonely Valley's

Keepin' Kind

Bull Sale

Saturday, February 23, 2013

1:00 PM CST, at the farm, Creston, Nebraska

Lonely Valley's **Keepin' Kind** Bull Sale

Saturday, February 23, 2013 • 1:00 PM CST at the farm, Creston, Nebraska

Welcome to our 22nd Annual 'Keepin' Kind' Production Sale. After 30 years in the seedstock business, we have been blessed to have so many friends in this business. We are very grateful for the opportunity to bring another set of bulls to you, our customer.

We know that there are other places to make your seed stock purchases and we appreciate your loyalty. Last year we sold 90% of our bulls to repeat customers. As always, we offer an unconditional guarantee on all cattle sold. If you should have a bull go down during breeding season, we can usually have a replacement for you within a few days, available at our ranch or we will try to meet you half way, depending on the distance. Sold 90 bulls last year and only replaced one.

We continue to run our cows in pastures ranging from across Nebraska. While most of our herd is registered Limousin and Lim-Flex cattle, we have built our registered Angus herd to over 100 females. Our goal is to become a one-stop bull shop for all your genetic needs. Lonely Valley's Bull Battery is ranked as follows

Top 2% for Marbling

Top 4% for Weaning and Yearling (ADG) Growth

Top 1% for Scrotal Development

Top 18% for Disposition

Currently our bull battery ranks in the top of the breed for weaning and yearling growth and milk and does so with a low to moderate birth weight. Our Marbling and Scrotal circumference EPD is unsurpassed, not just on one bull, but all LVLS herd sires combined. 25 plus years of selection pressure really do pay off. We continue to place extensive selection pressure on calm, easy doing cattle. This set of bulls is easy to work with. You will notice the difference. As well, cows that fail to breed being sent down the road. Fertility in these bulls is excellent with an average scrotal measurement that is unequaled in the Limousin and Angus.

The bulls will be available to be viewed at the ranch near Creston a few days prior to the sale. As well, we will have 300 calves on the ground by sale day and several of the herd bulls for your viewing. We will be serving a complimentary Limousin Beef lunch at 11:00 a.m. Should you need assistance with travel plans, trucking and delivery or anything else, please call and we will be happy to assist you. See you Saturday, February 23rd at the Ranch.

Sincerely,

The Settje Family

Airports: Columbus Municipal Airport, Norfolk Regional Airport & Omaha Eppley Airfield

Delivery: Free delivery within a 250 mile radius and cost share arrangements will be made for traveling beyond 250 miles.

Announcements: Announcements made sale day will take precedence over printed material in the catalog. Please take note of any changes.

Terms: Terms of the sale are cash unless prior credit arrangements are established between buyer and seller. Settlements are to be made with the clerk immediately after the conclusion of the auction.

Mail & Phone Bids: Mailed or phone bids will be handled in a confidential matter. If you are unable to attend the sale, simply contact anyone at the sale day phone numbers.

Please call in advance of the sale so we can help you ringside sale day. All cattle purchased through our 'sight unseen program' are unconditionally guaranteed, if the cattle purchased for you on order are not what you expected, we don't expect you to pay for them, no questions.

Blood Type for Parentage Verification: All animals sold are guaranteed to be offspring of the recorded parents. Under the rules of NALF, all bulls born after January 1, 1991 that are to be used for artificial insemination or used naturally in a herd other than the owner of record must be parent verified by blood typing to both sire and dam. All females born after July 1, 1987 and December 31, 1990 that are to be used for artificial insemination or naturally in a herd other than the owner of record must be sire verified through blood typing. Sellers shall make the necessary parent blood samples available to purchasers upon written request by the purchaser's so long as a written request is received by sellers within 60 days after the sale of the applicable animal.

Liability: Each animal will be the buyer's risk as soon as it is sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither owner nor sales management can be responsible for accidents, but every effort will be made to provide for safety and comfort of those attending the sale.

Insurance: Insurance on your purchase can be provided by Mark Smith, Grass Roots Genetics & Consulting, Ankeny, IA, 515.229.5227

**Celebrating 30 years in the
Purebred Seedstock business!!**

- This Final Product son is out of a MYTTY In Focus dam and is really nice.
- He has a .9 birth EPD, 58 weaning EPD, 104 yearling EPD and a 25 for milk.
- If your needs are to have light birth weight calves that grow fast then take a look at 8102Z.
- This well balanced prospect is long and smooth while maintaining plenty of muscle and volume.

ABOUT OUR CATTLE ...

Feeding:

The yearling cattle are fed to gain 3.25 per day, receiving a ration of corn gluten and alfalfa. We feed our bulls to gain sufficiently, without pushing a lot of corn in the ration. We believe that corn causes structure problems later in life and causes yearling bulls to 'melt' when turned out to pasture. We are very proud of the success rate our yearling bulls have had.

Semen Testing:

This year's average testicle measurement at 12 months of age of 37. All bulls have been semen tested and measured and a certificate will go with each bull sold.

Unconditional Guarantee:

If the cattle that you purchase at our sale fail to meet your expectations, we will replace the animal, providing you return the animal to our ranch at your expense. We will provide you with a replacement animal or give you full credit toward next year's sale or a cash refund. This guarantee expires after the first breeding season. We ask that you provide travel expenses for the replacement animal. Customer Service is #1!

ANALYZING THE PERFORMANCE DATA ...

BW - Birth Weight:

We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

WW - Weaning Weight:

This is the weight of the cattle taken at weaning time adjusted to a constant age of 205 days, and a good indication of early growth.

YW - Yearling Weight:

This is the weight of the cattle taken at approximately one year of age and adjusted to a constant age of 365 days with at least 150 days between actual weaning and yearling weight dates.

ADG - Average Daily Gain:

Growth rate is highly heritable and these numbers will give you an idea of how the cattle respond to environmental conditions. i.e. feed, weather, etc.

HOW TO FIND WHAT YOU ARE LOOKING FOR IN THIS YEAR'S SALE ...

The following names have been applied to each bull, based on their percent Limousin and percent Angus. All the cattle go back to our Angus base. Maternal selection can be accomplished by selecting those bulls that are above breed average for Milk and Total Maternal EPDs. We suggest that you match your selection with your environment, as there is consideration for too much Milk in some environments. These 'lines' of performance bred bulls have undergone one of the most rigorous selection criteria of any seedstock provider.

We first select without papers, finding all visible phenotypic defects and problems. Once the outliers are eliminated, we then select on paper, eliminating those cattle with performance, EPD or genetic problems. This two step selection process is done at weaning and repeated again just before the sale with yearling data and semen checking added to the criteria. Of course, disposition is still the number one culling criteria in our herd. Choose the type of bull that best meets your cowherd or feel free to call us to further discuss your options. We would be happy to visit with you.

'Maximizers' - Purebred & High Percentage Limousin Bulls:

These lean, red meat machines will maximize hybrid vigor on your British and British X cows. These bulls will maximize performance without sacrificing calving ease. Several of these prospects go back into the purebred industry each year, being purchased by other purebred breeders.

'Lim-Flex 75' - 75% Limousin x 25% Angus Bulls:

Our most popular hybrid for 28 years, these ultra thick and deep machines are unequalled in their muscle, volume and phenotype. These bulls work well on most any cowherd, offering the extreme thickness of Limousin and the volume of Angus. Hybrid vigor can be increased and maintained with these bulls on most all straight bred and crossbred cows.

'Lim-Flex 50' - 50% Angus x 50% Limousin Bulls:

These Angus x Limousin F1 Composites have been a hit on our sale for many years as well. Many cattlemen are using these bulls to moderate their cow size and create consistency or in a four way cross breeding system. Optimizers are moderately framed, very deep and offer much more thickness.

'Lim-Flex 25' - 25% Limousin x 75% Angus Bulls:

They are 25% Limousin and 75% Angus. These bulls combine the best of the numbers of the elite Angus combined with the prominent Limousin. These bulls are huge numbered and have some of the strongest weights and stats of the entire sale offering. These bulls bring the statement of Lim-Flex to a whole new level in our breed. We urge you to consider the lots 1 thru 9 and see for yourself how any one of these bulls might fit into your program to sire a uniform and very desirable calf crop.

'Angus' - Purebred Registered Angus Bulls:

Over the past several years we have acquired over 100 Registered Angus females, along with flushing one of our top Angus cows in our Embryo Transfer Program, to promulgate a complimentary breed to our existing lines of seedstock. Our goal is to provide Purebred Angus bulls that can offer an ideal compliment to high percentage Limousin based cows. We have known for years that the Limousin x Angus cross is the best, now we will be offering both sides of the equation.
