KAEDEMARU 2

LAG 2363M combines world-class phenotype with a rare genetic blend. Her sire, Hiromitsu, needs little introduction—a two-time Grand Champion at Denver and Houston and the PJ Budler Wagyu Champion of the World. He represents the ideal balance of muscle, rib shape, and breed character, transmitting both structural correctness and eye appeal across his progeny.

Her dam, LAG 2363H, adds a unique dimension as a HeartBrand 5002C (KC son) daughter built on a Kaedemaru foundation. This cross between HeartBrand and Legendary genetics is seldom seen in the marketplace and brings together the proven consistency of the HeartBrand program with the depth and maternal quality of Legendary's Kaedemaru cow family.

LAG 5155M represents a powerhouse blend of show-ring excellence and proven carcass heritage. Her sire, Hiromitsu, is one of the most decorated Akaushi bulls in the world—a two-time Grand Champion at Denver and Houston and the PJ Budler Wagyu Champion of the World. Hiromitsu is admired for his muscle expression, rib shape, and balance, producing offspring that consistently combine structural quality with breed character.

Her dam, 3117A, is a Rueshaw × Big Al/Fuyuko female who has earned recognition for her exceptional carcass performance and genetic consistency. This cow family has long been a benchmark for marbling and fertility, tying directly to some of the most influential foundation genetics in the breed.

DAM: SOR 1085C ET

BIG AL
KAEDEMARU 2

LAG 522M represents a timeless Akaushi pedigree—built on foundation sires and proven maternal design. Her sire, Hikari, remains one of the most influential Akaushi bulls ever imported, known for transmitting exceptional carcass quality, structural balance, and maternal performance. Hikari daughters have become breed cornerstones, producing cattle that consistently deliver both in the pasture and on the rail.

Her dam, LAG 1085C, is a powerful Big Al × Kaedemaru 2 female—one of the most dependable and maternally driven donor lines in the Legendary program. This mating doubles down on fertility, longevity, and carcass integrity, blending Big Al’s rib shape and maternal function with Kaedemaru 2’s marbling excellence and uniformity.

The result is a female that perfectly bridges past and future—LAG 522M combines the strength of Hikari with the reliability of Big Al and Kaedemaru 2, making her a cornerstone prospect for any breeder focused on predictable, data-driven Akaushi genetics.

KADEMAMARU 2
BIG AL
DAI-HACHI 8 MARUNAMI

LAG 5162M is a powerful example of how thoughtful linebreeding can preserve and enhance the best traits of the Akaushi foundation. Her sire, Rueshaw, remains one of the most revered bulls in breed history—the only Japanese National Champion to ever leave Japan—known for passing on exceptional marbling, muscle shape, and depth of body.

Her dam, LAG 2383H, is a Phoenix daughter backed by the Buckcherry cow family, which linebreeds the rare Kobai 73 foundation. This combination concentrates Rueshaw's carcass excellence through both sides of the pedigree while layering in the maternal strength and depth that define the Buckcherry line.

AKIKO
RUESHAW 430
AKIKO

LAG 5164M combines outcross foundation genetics with data-proven performance. Her sire, Judo, is one of the original imported Akaushi sires and remains a key outcross in modern pedigrees. His influence adds depth and genetic variation while maintaining the breed's signature balance and function—making him an important tool for breeders focused on long-term diversity and maternal consistency.

Her dam, LAG 2035E, is a Big Al × Z-Cow daughter and Legendary's highest-scanning donor from Fall 2024. This powerful female blends the maternal productivity of Big Al with the marbling and consistency of the Z-Cow line, a family tracing directly to Rueshaw and Akiko.

LAG 2158M represents one of the most exciting combinations of modern Akaushi genetics in the Legendary program. Her sire, Phoenix, offers a unique outcross pedigree that has quickly proven itself through data—his progeny consistently excel in carcass ultrasound scans, showing strong marbling expression and ribeye development. Phoenix daughters are gaining attention for their balance, femininity, and real-world performance, blending genetic diversity with measurable results.

Her dam, Kahlua, is one of Legendary's most genetically valuable females—sired by Kotsukari and out of the famed Z-Cow (Rueshaw × Akiko) line. This makes Kahlua a double-bred Akiko descendant and one of the most balanced Akaushi females in production, combining carcass excellence with maternal power.

HEARTBRAND NIKKI DR S1029P

LAG 5066M combines two of the most proven foundation lines in Akaushi history. Her sire, Hikari, is one of the breed's three elite marbling foundation sires—alongside Rueshaw and Big Al—known for transmitting exceptional carcass quality with balance and maternal strength.

Her dam, LAG 2117F, is a Rueshaw × Nikki female, carrying one of the most influential marbling pedigrees in the breed. This cross blends Hikari's depth and refinement with the power and carcass expression of Rueshaw and Nikki, making LAG 5066M a female bred for consistency, carcass excellence, and long-term herd value.

LAG 5357M represents one of the most unique pedigrees in the offering. Her dam, LAG 2383H, is a Phoenix daughter whose bottom side combines Rueshaw × Buckcherry, linebreeding the rare and highly valued Kobai 73 line. This female family blends the marbling strength of Rueshaw with the maternal consistency and depth that have made the Buckcherry line a cornerstone of the Legendary program.

Her sire, A5, adds a modern touch of performance and phenotype, transmitting power, growth, and carcass merit while maintaining breed character. The result is a female that ties together rare lineage, maternal quality, and forward-moving carcass genetics—a perfect reflection of Legendary’s balance between heritage and innovation.

LAG 5223 carries a pedigree steeped in foundation strength. Her sire, Shigemaru, is one of the original imports and a proven source of structural correctness and maternal longevity.

Her dam, DCW 48F, is a Red Emperor × JC Ms Rueshaw 74 daughter—the same cross that defined one of the most influential cow families in the Akaushi breed. JC Ms Rueshaw 74 built her reputation on transmitting elite marbling and balanced phenotype, producing offspring that continue to excel across carcass and maternal traits.

This mating blends Shigemaru's timeless foundation genetics with the marbling and fertility legacy of Rueshaw 74, creating a female bred for both predictability and long-term herd impact.

LAG 2609 combines one of the breed's most valuable sires with one of Legendary's most proven maternal lines. Her sire, Dos Equis, made headlines when his semen interest sold for \$111,000, marking him as one of the most valuable homozygous polled sires in Akaushi history. A King David × J-Prime son, Dos Equis brings together carcass merit, growth, and fertility while ensuring every calf is naturally polled—representing the next generation of modern Akaushi breeding.

Her dam, LAG 2148F (AF147208), is a Rueshaw 430 daughter out of Nikki, an Akiko daughter, giving her a direct tie to the most influential marbling and maternal lines in the breed. This cow family is recognized for its udder quality, depth, and consistent carcass excellence, making 2148F a cornerstone female in the Legendary program.

LAG 2608 blends cutting-edge polled genetics with proven Akaushi maternal strength. Her sire, Dos Equis, made headlines when his semen interest sold for \$111,000, marking him as one of the breed's most valuable homozygous polled sires. A King David x J-Prime son, he combines carcass merit, growth, and fertility while ensuring every calf is naturally polled.

The donor, LAG 3151G, is a Big Al daughter out of a Rueshaw x Akiko female that is also known as Double Z Cow and is a full sister to Brady- a combination that has long defined the Legendary program. This cow family is known for its uniformity, fertility, and elite carcass quality, tracing directly to the powerful Akiko maternal line that built the breeds foundation.

HIKARI
KADEMAMARU
BIG AL
YAMATO 117 RINGO
RUESHAW 430
HEARTBRAND Z1118P
BIG AL
FUYUKO

Umeringo is one of the most promising sons of Umemaru, built around carcass merit and backed by one of rarest families in the breed—Brook B0445N. He transmits marbling, ribeye power, and terminal strength while retaining the maternal foundation of Big Al and Ringo in his dam line.

By mating Umeringo to 2115F, a female carrying Brady (Rueshaw influence) on a Big Al × Fuyuko base, you stack carcass performance on maternal stability. Bill Fisher used this breeding as a part of his map to A5 carcasses making this dam one of the most exciting crosses for carcass in the program. LAG 2115L captures that ideal union — terminal strength from Umeringo anchored on a cow line proven to scan among the highest in Legendary's program.

HEARTBRAND Z1118P
SHIGEMARU
HARUKO

LAG 5044M represents the kind of female we've worked years to build at Legendary Akaushi Genetics — balanced, maternal, and bred from the heart of proven foundation genetics.

Sired by Honjo, one of the most complete sons of Red Emperor and Kaedemaru, she traces back to one of the most proven cow families in the Akaushi breed. The Honjo daughters are deep-bodied, structurally correct, and consistently transmit the growth and carcass performance that have made the Kaedemaru line a cornerstone of our program.

Her dam brings a modern outcross twist, combining Brady 2627A with a Shig/Haruko base. Brady has earned a reputation as a highly functional sire that complements the traditional import pedigrees without sacrificing maternal strength. The Shig/Haruko influence adds predictability — known for fertile, long-lived cows with excellent udder structure and an abundance of marbling.

LAG Umemaru Marble Master 37K. His lineage combines some of the most proven marbling genetics in the Akaushi breed; holding the distinction of being the highest IMF scanned bull at Legendary Akaushi to date- a true testament to the power of his pedigree.

His lineage includes Umemaru, Brady (Rueshaw x Z Cow) and the Big Al x Dai 8_ stacking the breeds most influential marbling lines in one package. His dam, 2069F, is a Brady daughter backed by Big Al and Dai 8. She is also been a consistent calving ease cow, with calves averaging just 62 pounds at birth.

Add these performance genetics to your program and elevate the marbling potential of your next calf crop.

Sor Mr. Honjo Masamune 1099 brings well know and proven calving ease, growth, and the carcass traits that he inherited from his sire Red Emperor and dam Kaedemaru. But who is Honjo? Honjo's story is interesting...When his dam Kaedemaru was 19 and after numerous failed attempts, an Oocyte was successfully collected and fertilized, the resultant birth being Honjo. He became the final calf ever to be produced by Kaedemaru, and he is the half-brother to both Umamaru and Kaedemaru #2. All three have now crossed the rainbow bridge, the boys succumb to injuries and Kaedemaru #2 to old age...However when it comes to genetic preservation, Honjo, will likely be the last man standing. For experimental purposes we bred many of the same cows to Umamaru, Honjo and Kotsukari, Honjo has never disappointed us and we have a good collection of his daughters in our herd.

MITSUTAKE KO 58
MITSU KO 1753

Big Al holds a special place in Akaushi history as the first bull born outside of Japan, arriving in January 1995. Nearly a full-blood brother to the legendary Hikari, he shares the same sire—Dai 10 Mitsumaru—and dam line through Akiko, a Namimaru daughter.

A cornerstone of many breeding programs, Big Al has earned his reputation as one of the most influential foundation sires. His legacy is clear in his offspring: powerful performance, consistent calving ease, and strong maternal traits.

Big Al is also F11 free, adding to his genetic value and appeal.

FULLBLOOD AKAUSHI BULL \ AF107 \ HORNED \ 02.25.1993

Hikari came to America carrying on the strengths of the dominant Japanese sire's Dai 10 Mitsumaru and Namimaru in one package. Hikari's sons excel in calving ease and his daughters are some of the heaviest milking Akaushi females in the breed. His impact on the breed will be long-lasting!

WSI Umemaru is a Hikari son born out of the original import cow Kaedemaru. Umemaru is a transformational sire, he corrects many conformation inadequacies, has sired many show champions, improves carcass texture and composition and is considered by many to be the top Akaushi sire ever born in North America! His semen has become very rare, currently sells for \$4000/straw and is seldom available. He has a grandiose reputation outside of the American Akaushi Association where he is known for being the sire or grandsire of many show champions and most of the top bulls in circulation today.

BIG AL
DAI-HACHI 8 MARUNAMI
TAMAMARU
KAEDEMARU

This elite mating blends two of the breed's most proven carcass lines. Rueshaw's XXX combines the marbling strength of Rueshaw 430 with the maternal consistency of Nikki, producing balanced, high-scanning progeny with depth and uniformity.

The donor, 1087C, is a Red Emperor × Kaedemaru 2 female whose influence runs deep in the Legendary program—valued for fertility, longevity, and exceptional carcass performance.

This cross stacks Rueshaw, Nikki, Red Emperor, and Kaedemaru 2, delivering predictable carcass quality and maternal power in every embryo.

WSI UMEMARU
KAEDEMARU 2
BIG AL
DAI-HACHI 8 MARUNAMI

This mating stacks proven foundation power with modern performance. Samsung is a Shigemaru son out of the imported donor HB Haruko—a time-tested sire used for balance, longevity, and consistent marbling expression across programs.

The dam, LAG 2483H, is a Hiromitsu daughter whose bottom side is Big Al × Dai-8 Marunami—the same base behind Alamo and Red Emperor. Expect calves that marry Samsung's steady, foundation correctness with 2483H's carcass-forward, maternally reliable linebreeding—a predictable package for both phenotype and the rail.

DAI-JU 10 MITSUMARU KO 76
AKIKO
RUESHAW 430
HEARTBRAND Z1118P

This embryo package blends two pedigrees rich in carcass strength and maternal depth. Umeringo, a son of Umemaru, carries forward one of the most proven carcass lines in Akaushi history. His pedigree stacks foundation marbling genetics with real-world performance and balance, consistently producing cattle with shape, depth, and high scan data.

The donor, LAG 3151G, is a Big Al daughter out of a Rueshaw x Akiko female that is also known as Double Z Cow and is a full sister to Brady- a combination that has long defined the Legendary program. This cow family is known for its uniformity, fertility, and elite carcass quality, tracing directly to the powerful Akiko maternal line that built the breeds foundation.
