Watch & bid online for FREE at DV Auction
Buying online is as easy as 1, 2, 3 ...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction — a DV Auction representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases! After the sale, contact the sale manager or owner to arrange transportation and payment. High speed internet is required for successful bidding. Be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

PROXY BIDDING: If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. The DV Auction full-time support team can also always be reached at 402.474.5557.

GUARANTEE:

All cattle sell under the standard guarantee of the North American Limousin Foundation and Red Angus Association.

FINANCING:

For financing options please contact
R&R Marketing, 615.330.2735.

TRUCKING:

A trucking company will be on hand sale day to assist with any trucking that might be needed. Lenape Cattle Co. will see to it that cattle will be delivered to several central locations to accommodate anyone that lives throughout the United States and Canada.

TERMS & CONDITIONS:

Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor Lenape Cattle Co or guest consignors assume liability, legal or otherwise for, any accidents which may occur.

PAYMENTS:

All cattle must be paid for immediately following the conclusion of the sale. R & R Marketing Company will now be accepting credit cards the day of the sale.

CATTLE PICKUP:

The only cattle that will be at the sale will be those from **Lenape** cattle and can be picked up from there after the sale. **Sullivan/KLS** cattle can be viewed prior to the sale and picked up after sold in Dunlap, IA. **Stone Valley** cattle can be viewed prior to the sale and picked up after sold in Cashion, OK.

LENAPE CATTLE CO.

A LITTLE TRUST AND A WHOLE LOT OF FAITH

by Megan Silveira

Home after a typical shift at work in 2012, Ray Moyer didn't think much when he asked his wife, "What did you do today?"

If Barb's laugh didn't tip him off, her smile sure did.

"You know, I think I bought a farm."

The couple grew up near Telford, Pennsylvania, both comfortable with the rolling hills and trees. While they liked the quiet of rural life having grown up around agriculture, neither had a lick of experience with raising beef cattle.

Just down the road from their house in 2014 sat Lenape Limousin, a small cattle farm owned by Harris and Marge Mosher. Barb knew the couple through their groundskeeper.

As the Moshers got on in age and Mr. Mosher had a few health problems, Barb offered to buy the some of their property—the "lower farm."

"I think he thought I was half crazy," she recalls on a laugh. "And I think it was one of those God moments, because I'm not bold that way."

The Lord continued to work in mysterious ways for Barb and Ray. Despite having been told it would be at least three years before they could buy, Mrs. Mosher offered Barb the land immediately when six weeks after that initial conversation the Moyers discovered they would be losing their home to eminent domain.

So that dinner conversation about purchasing a farm turned into moving plans and moving plans became blueprints for a home. During that period, Barb said her bond with Mrs. Mosher continued to grow. She would help with errands or sit with Mr. Mosher while his wife was out and about.

"She just looked at me one day when we were chatting and said, 'I want you to take over Lenape,'" Barb explains. "I knew nothing. Seriously nothing."

Inexperience didn't stop Barb from immediately agreeing, however.

A few weeks into breaking ground for their new home, the community lost Mr. Mosher, and with him, Barb and Ray lost their friend and intended cattle mentor.

Mr. Mosher had been raising livestock in the area for years, building up his reputation and the farm name with strong genetics. Though he had dispersed five years prior to the farm being passed to the Moyers, he still kept a few head around.

In 2016, Mrs. Mosher transferred nine females and one bull—all fullblood Limousin—into Barb's name.

"And off I went," Barb said. "It's been an adventure."

The path might not have been clearly marked in the beginning, but Barb and Ray's story at the farm, now called Lenape Cattle Co., has become one of success.

In the early days of September 2023, the couple welcomed their 114th animal to the world. Standing to look out the back of their home today, Barb said she can see all 106 acres they own, including a pond and barn. The only other structure on the horizon is the tip of a roof, a house that belongs to their son and his family.

"It's just somewhat special," she admits, still enjoying the view.

Growth during the past seven years is clearly the result of hard work and eager minds, but Barb said she and Ray credit a lot that they have to some fantastic opportunities. It's Barb's tenacity and Ray's dedication that put the farm on track for success since day one.

The two own another company with a birthdate far back from their ranching career. When they decided to take over the farm, Ray called a business meeting.

"If you want to do this, it's great," he said. "But you need to do this not as a hobby, but to be great at it."

Barb's answer?

"Is there any other way?"

AN ICY WELCOME

Barb and Ray knew the learning curve to owning cattle would be steep, but things seemed to snowball their first winter in the business.

March in their area can be beautiful or miserable, and that inaugural year was anything but pretty. Calving season was just underway, and babies were hitting the ground that Barb had inherited when she was transferred bred females.

A cold snap brought ice, and one heifer pushed a calf out in the pasture, as the Moyers hadn't had time to build proper facilities yet. The newborn seemed to be alright, and Barb left the pair to check on others with a similar due date.

The next morning, Barb found the little one stranded on a patch of ice, just lying in the cold.

"What do you do with a hypothermic calf?" she asked, at the time not knowing there was even such a thing as tubing an animal.

Thankfully, this calf took a bottle, and Barb was able to slowly get it warmed up. With one crisis averted, she headed back out to check the rest of a herd. More trials awaited her, including a calf drowned in a frozen creek and a five-month-old heifer so stuck in a creep feeder she suffered nerve damage.

"It was so hard at the time," she said, remembering how she would watch the clock, dreading the countdown to feeding time.

It was her feed guy who gave her the courage to continue. He called and asked for the good, the bad and the question of the day. When he heard all her troubles, Barb said he just laughed.

His pep talk told her the situations were not her fault, and the problem with working alongside Mother Nature was that things like this happened to everyone—just not usually on the same day.

Barb and her cattle survived that first winter and have been thriving ever since. Her career as steward is marked with countless individuals like her feed guy who have helped share both encouragement and wisdom.

"Sometimes I think without these pretty red cows, we wouldn't have met that person," she explains. And in this industry, "The relationships that you build are the best. Bar none."

Her biggest helping hand has undoubtedly been Ray. Besides serving as each other's cheerleader, the two make a powerful farming duo. Ray earns the title of "land manager," keeping up with fencing, equipment and rotational grazing plans. Barb sticks to the cattle, making management and breeding decisions.

Barb's gone the extra mile to grow her herd, in both size and genetic quality. Just a few months into running the farm, she attended artificial insemination school with Select Sires. It was a decision founded in the desire to improve what she had.

That focus on securing elite genetics has never wavered.

"My Fullblood herd is stock full of great genetics from the old foundation genetics to newer names," she explains.

Those fullbloods expanded to purebreds and Lim-Flex, both red and black. Barb's even added a couple red Angus females to the herd recently. No matter their pedigree, she said people can expect her animals to be sound from the ground up, calve easy and keep a cool head year-round all while looking just as strong on paper.

To sum it up, Lenape cattle are consistent.

It took a while to identify and build a new customer base, but it's that consistency Barb said her customers look for today. They come for production and longevity, two things she can confidently offer with every animal that leaves the farm.

She's sold as far north as Maine all the way down to Texas; Lenape cattle have even made their way west to Southern California. In the past, private treaty sales were the only option, but the waitlist to purchase her animals prompted Barb to embark on a new adventure.

This November, she and Ray will offer young bulls, heifers, bred cows and a couple pairs at their first auction. Barb's philosophy when she started building the herd was to offer genetics all buyers would want to have, so it's hard for her to feel anything other than excitement as the big day approaches.

Between photos and planning, it's been another learning curve for the family, but Barb said it's almost a cake walk when she thinks back on that first winter. There's the usual concern about who or how many might show up on sale day, though she said the process keeps her humble.

"We don't know what to expect because it's the first one," she ex-

plains, "but I think it's exciting to be forwarding the breed any way we can."

The same mentality is responsible for another venture: Lenape Semen Sales. Though the business hasn't launched quite yet, Barb said it's an exciting opportunity to help make the breed she's so passionate about more readily available to other producers.

WARMER DAYS

Champion titles, success with technologies like embryo transfer and impressive matings are all happy moments Barb can recite with ease, but the biggest accomplishment of her farming career easily rises to the top of the list. She said there's nothing better than watching the youngest generation learn to call the livestock industry home.

The 37-year marriage she's had with Ray gave them their children, Mason and Molly, who now both have families of their own. Mason's wife, Kelly, and Molly's husband, Dustin, are each key people in the family and at the farm. Ranging from ages eight-years to seven-months-old, grandchildren Maddie, Joanna, Cassidy, Oliver, Lucy and Rissa all find their own ways to enjoy life on the farm, too, some drawing closer to the livestock and others to the land.

Their oldest just joined 4-H and several have already brought up the show ring to their grandparents—commentary that brings a smile to both Barb and Ray's faces.

"That's important that they can be involved in agriculture in some way," Barb said. "It's such a wholesome life for them to be living."

Truthfully, it's a wholesome life for anyone to live. Barb takes every opportunity to say thank you for the courage she found to take a chance on this lifestyle that's come to mean so much.

"That day that I volunteered to buy the farm, the Lord said you're just going to have to trust me through this," she said.

That kind of trust, alongside a heaping amount of faith and a good helping of courage, is what's helped keep Barb and Ray going, even when the situation seemed bleak.

"Sometimes this seems to take on a life of its own, and you feel like you're just along for the ride," she said. "But it's incredibly fulfilling, even when it's brutally hard."

The 37-year marriage between Barb and Ray gave them their children, Mason and Molly, who now both have families of their own. Mason's wife, Kelly, and Molly's husband, Dustin, are key people at the farm. Ranging from ages eight-years to seven-months-old, grandchildren Maddie, Joanna, Cassidy, Oliver, Lucy and Rissa all find their own ways to enjoy life on the farm, too, some drawing closer to the livestock and others to the land.

Whether Fullblood, Purebred, Lim-Flex or Red Angus, Lenape cattle are sound from the ground up, calve easy and keep a cool head year-round all while looking just as strong on paper.

PROVEN RED ANGUS DONOR

Sells open and ready for transplant. Selling full interest and full possession

Talk about one heck of an opportunity here, folks! The famed Red Angus donor female, J6 Advance E501 sells open and ready for transplant. The donor female is the one and only J6 Advance E501, a daughter of the foundation donor, JKC Berry Advance 36W. Unsurpassed is how many describe the pedigree behind the daughters of JKC Berry Advance 36W. J6 Advance E501 is sired by Six Mile Taurus 519A, a son of the great Six Mile Game Face 164Y. Six Mile Taurus 519A was the 2014 National Western Stock Show Champion bull. A son of J6 Advance E501 sold for \$13,000 in the 2022 Lonely Valley Seedstock Sale to Davis Ranches. P Bar S has a daughter of hers in their program that was the 2021 Champion Red Angus Influence Heifer at the Tulsa State Fair. Phenotypically, when it comes to elite donor females, J6 Advance E501 is at the forefront of many cattlemen's minds. She is absolutely stunning on the profile, she's angular in her design, ultra-attractive in her look and wide at the base of her skeleton. J6 Advance E501 has already begun writing her own chapter in the breed history book and now is your chance to have a unique influence in a flush to the bull of your choice. We could write paragraphs describing the caliber of this donor female, but her high quality look will speak for itself.

Three IVF purebred Red Angus heifer embryos from the Red Diamond El Rey 102 x J6 Advance E501 mating. Red Diamond El Rey 102 was the Champion Red Angus Bull at both the 2022 National Western Stock Show and the 2022 Fort Worth Stock Show. He was then named the Supreme Champion Bull and the Champion Red Angus Bull at the 2023 Cattlemen's Congress in Oklahoma City. He is one of the hottest sired in the Red Angus breed and is the most popular son of the now-deceased MANN Red Box 55C. The donor female in this mating is J6 Advance E501. She is the daughter of the foundation donor female, JKC Berry Advance 36W. Unsurpassed is how many describe the pedigree behind the daughters of JKC Berry Advance 36W. J6 Advance E501 is sired by Six Mile Taurus 519A, a son of the great Six Mile Game Face 164Y. Six Mile Taurus 519A was the 2014 National Western Stock Show Champion bull.

Three IVF heifer embryos from the DUFF Red Blood 18114 x J6 Advance E501 mating. DUFF Red Blood 18114 was the second high-selling bull at the record-setting 2022 Power Plus Bull and Female Sale for \$135,000 for semen interest. Red Blood will add his dark red color and impeccable structure. His soundness of feet and correctness in his joints is "breed changing." Red Blood has an extreme amount of rib shape and ties in perfectly behind his shoulders with an overall smoothness and masculinity. Red Blood's first progeny hit the sale scene with two daughters selling through the 2021 Duff Holiday Kickoff Sale, bringing \$50,000 and \$29,000 along with the top-selling bull through the 2022 Rhodes Red Angus Bull sale for \$30,000. The donor female in this mating is J6 Advance E501. She is the daughter of the foundation donor female, JKC Berry Advance 36W. Unsurpassed is how many describe the pedigree behind the daughters of JKC Berry Advance 36W. J6 Advance E501 is sired by Six Mile Taurus 519A, a son of the great Six Mile Game Face 164Y. Six Mile Taurus 519A was the 2014 National Western Stock Show Champion bull.

Three IVF heifer embryos from the Wulfs John Wayne H915J x J6 Advance E501 mating. Wulfs John Wayne H915J is a bull that we admire for his athleticism, flawless structure and his massive foot size. When set in motion he covers his tracks effortlessly, taking an extended stride. His silhouette will catch your eye with his dimension, muscle expression, capacity and growth. His actual performance is truly impressive, weighing heavy at weaning and yearling, measuring a large scrotal circumference and scanning exceptionally well. He is sired by Wulfs Command K136C, a top-selling bull in a previous Wulf Cattle Opportunity Sale and then being named Reserve National Champion in 2017. His dam is a beautiful patterned Wulfs Warbonnet 6254W daughter. The donor female in this mating is J6 Advance E501. She is the daughter of the foundation donor female, JKC Berry Advance 36W. Unsurpassed is how many describe the pedigree behind the daughters of JKC Berry Advance 36W. J6 Advance E501 is sired by Six Mile Taurus 519A, a son of the great Six Mile Game Face 164Y. Six Mile Taurus 519A was the 2014 National Western Stock Show Champion bull. These embryos will be 50% Lim-Flex, red and homozygous polled.

Due 01.01.24 to SSUL KingPin 9535G (LFM2270523, 25% Lim-Flex, homo polled, homo black son of 3Aces Sky Fall x WLR Eden)

Folks, here is a female we can't say enough about! CFLX Robinette 070E has a stacked pedigree that is second-to-none. She is a 75% Lim-Flex female sired by GPF Blaque Rulon and out of the legendary BOHI Red Robin 282R female. Red Robin 282R is the phenomenal daughter of MAGS Manuela. She is a female you can count on not only for her superior genetics and great maternal power, but her stylish and powerful design. We love how athletic she is in her movement and her functional design. Picturesque is how we like to describe CFLX Robinette 070E- she's just a powerhouse of a female that has that elite donor look we all desire. She is homozygous black and homozygous polled.

Selling 50% embryo interest only. Possession owned by Red Rock Limousin, Gary, TX

This beautiful female is a past San Antonio Supreme Champion Female. Her perfectly engineered skeleton and stunning maternal profile made her not only a 'can't miss me' female in the show ring, it also has made her one of the highest valued young donors in the breed at \$106,000. The DHVO Deuce 132R x MAGS Manuela mating has produced some of the finest cattle to set foot on ground, and SBLX Xtra Special is no exception. She is a maternal sister to SBLX Znote. Already, she has recorded an impressive WW ratio of 107 and YW ratio of 108 on 15 progeny. Don't pass on these elite and proven genetics when sale day rolls around. This female has a killer look paired with genetic potency that takes her immediately to the top of everyone's radar.

Another unique mating to pay close attention to! Three IVF heifer embryos from the Hill Valley Reckoning 931 x SHSK Elaine Benes 107J mating. Hill Valley Reckoning 931 was the Intermediate Angus Champion at both the 2021 OKC Cattlemen's Congress and 2020 North American International Livestock Exposition. His dam was an extremely successful multiple-time champion at all levels and is now producing breed changers. He is sired by Young Dale Believe 46B and out of Hill Valley Elbina 456. The donor female in this mating is SHSK Elaine Benes ET, is a 43% Lim-Flex female from the highly productive mating of Silveiras Style and the famed WLR Prada. WLR Prada has earned the reputation for being a consistent producer and continues to produce cattle that are great footed, attractive, sound and maternal. SHSK Elaine Benes ET has had a successful show career garnering the Division IV Reserve Champion title at the 2022 NJLS&C. As well, this female will be part of Sara Sullivan's show-string at the 2023 Cattlemen's Congress and Sullivan Farms will be retaining show possession through the 2023 Cattlemen's Congress. These three IVF heifer embryos will be 21.5% Lim-Flex, homozygous polled and double black.

Three IVF heifer embryos from the TASF Heineken 405H ET x WFL Jordan 010J ET mating. TASF Heineken 405H ET was the top-selling \$44,500 lot in the 2021 Thomas & Son Farms New Year's Resolution Online Bull Sale. He is a double homozygous son of TASF Crown Royal 960C and out of Pleasant Valley Elsa 1439. TASF Crown Royal 960C is the highly renowned son of DHVO Deuce 132R and TASF Whiskey Lullaby 357W. TASF Heineken 405H ET's dam is a daughter of EXAR Classen 1422B. From a phenotypic standpoint he is big footed, relaxed in his pasterns and excellent when you set him in motion. Numerically, he ranks in the top half of the breed or better in some of the most relevant traits in the industry today- weaning weight, yearling weight, carcass weight, ribeye, marbling and mainstream terminal index. The donor dam of these embryos is WFL Jordan 010J, a daughter of MAGS Cable, a powerful MAGS Applesseed son who has produced numerous top sellers in a variety of programs. Her dam is the great LLJB Absolute Style 3056A, a Silverias Style daughter that Shelby Hennessy of North Dakota campaigned in 2014 with major success. Among many other achievements, she was the 2014 Grand Champion Female at the North American International Livestock Exposition Level I MOE Open Show. If you are looking for individuals that will compete at any level and become top producers in your herd— look no further. These embryos will be 50% Lim-Flex, homozygous black and homozygous polled.

PBRS 0210H is a 50% Lim-Flex female sired by Wulfs Emprize 242E. He is the Bieber Deep End B597 son out of the great Wulfs Zuni 2424Z female. This female's dam, AUTO Mercedes 249Z is a daughter of SAV Brilliance 8077 and out of the breed matriarch herself, MAGS Manuela. You'll want to study these EPDs- she ranks in the 15th percentile for her weaning weight figure, in the 20th percentile for her yearling weight figure and in the 25th percentile for both her milk and marbling figures. This female has such an attractive presence with tremendous depth of body and is very structurally attractive. She has ideal teat placement and a nice udder design coupled with such a powerful outline. We know this female will be an incredibly functional female for many years to come. She is double polled.

PBRS 0273H is a 75% Lim-Flex daughter of Riverstone Crown Royal. He topped the Riverstone Cattle Company sale at \$24,000 and his full sib is none other than Riverstone Charmed and needs no introduction- she is the "Larissa" Ratliff show heifer that will go down in history as one of the greatest show females of all time. Not only did she make her mark during her storied show career, she is now generating progeny that command top dollar and completely dominate any arena they walk into. The dam of Riverstone Crown Royal is none other than HSF Your Fantasy. Fantasy is a female that needs no introduction as one of the industry's top Purebred Limousin donors. This female is the best individual Riverstone Cattle Company has ever raised. The power and style that she exhibits is second to none and her progeny are no exception. As a yearling she was awarded the title of National Champion Limousin Female in Brandon, Manitoba and carried on that winning streak at Canadian Western Agribition. HSF Your Fantasy has not only a stellar record in the show ring but in the donor pen as well. This female's dam, EF Zynga 356Z is a daughter of TC Total 410, the Bon View New Design 208 son and out of MAGS Pretty Christine, a female sired by LVLS Secret Weapon 4408K.

Stone Valley Limousin

A GOOD RIDE BOB STONE'S JOURNEY IN THE SEEDSTOCK BUSINESS HAS BEEN A FRUITFUL ONE.

by Megan Silveira

With a childhood spent around registered Brown Swiss dairy cattle and hours upon hours in the milk parlor, one would not have expected Robert “Bob” Stone to have spent the last 20-plus years making a name for himself in the beef industry.

Bob and his sister, Karen, spent their childhood exhibiting their dairy cattle across the country, but it wasn't until years after their days in the show ring that they dove into the Limousin breed. Since purchasing the first foundation females with his sister Karen in 1994, Stone Valley Limousin in Cashion, Oklahoma, has been breeding some of the best fullblood genetics in the business.

“I knew we wanted to go back into the cattle business,” Bob said. “We weren't in the dairy industry anymore, so we made the choice to go with fullblood Limousin.”

The siblings knew they wanted a solid breed to start their farm on and were drawn to the looks of Limousin cattle. Bob said the breed had the basic traits both he and Karen appreciated in livestock but still offered enough room in the industry for them to grow.

The presence of horns on cattle, for example, was one area Bob and Karen were eager to focus on in their herd.

“Our foundation cattle were all horned cattle, but we made the decision that the polled route was where we wanted to go,” Bob explains. For convenience and to meet the demands of both their seedstock and commercial producers, this was a decision that certainly paid off for the duo and their operation.

After Karen left the operation in 2013 due to health reasons, Bob started his own herd. After purchasing a new set of 20 foundation females, Stone Valley Limousin continued building on their legacy within the cattle industry. Genetics from those females are still the main set of genetics within the herd today.

While Bob said he has a few Lim-Flex and black purebreds, the vast majority of his operation is built on the backs of the original red hides of the Limousin cattle originating from France.

Bob manages today’s herd of close to 50 cow/calf pairs with the help of his three children Amy, Brad and Coni; their spouses; and his 10 grandchildren.

“All three of my children have full time jobs, but all, in one way or another, are involved, part time, on the farm,” he said. “It’s a change of pace for them to help their dad, and I appreciate that very much.”

From feeding the herd at home in Cashion to delivering cattle to buyers, Bob said all of his children do what they can to help him run Stone Valley. In between their own work and the various activities of Bob’s grandchildren (sports, 4-H and FFA are just a few of the organizations Bob proudly lists), Bob said he is grateful to have such a supportive family.

Despite not having grown up around the livestock industry, Bob said his kids came back to the farm when they were older and jumped right in. He describes the process as a learning experience, but Bob said his children have been able to foster their own love and appreciation for the cattle business.

Coni, Bob’s youngest daughter, and her husband, Stacy, are the perfect example of this. The pair said they spend as much free time as possible on the farm, interacting with both the livestock and Bob. Stacy himself had not been around livestock other than hogs until he met Coni, but he said Bob has helped him find his place in the operation.

“He’s taught me a tremendous amount about the Limousin breed and cattle in general,” Stacy said. “There is no better person to learn from than Bob Stone. He’s very smart when it comes to cattle genetics and the Limousin breed—he’s like an encyclopedia.”

Stacy calls Bob the “Cow Whisperer,” describing the dedication he has to the herd as astounding. They work all animals on the operation

without the use of hotshots, horses or four wheelers. Stacy said Bob is all about being hands on with the livestock, a choice he believes has made all the difference when it comes to the docility of the animals.

Even more impressive—none of the animals on the property wear ear tags. Bob does not need the identification markers to recognize his cattle. Stacy said he is around them enough and so familiar with his herd’s genetics that just the phenotypic traits reveal the animal’s identity.

Coni describes her father as meticulous, saying he has an eye for detail when it comes to his cattle. From past knowledge to information about expected progeny differences (EPDs), she said Bob is all about the details.

Coni was in high school when her father was ready to step foot into the beef business, and since the beginning, she said Bob has exhibited an inborn fondness for the Limousin breed. Even as a youth, Coni could see the love in his eyes for the industry as they traveled together to sales across the country building his herd.

When you talk to Bob about cattle, Coni said his passion and honest love for the work he does shines through. She said her father has no qualms about sharing his stories and opinions of the industry with others.

“It’s just a huge part of his life,” Coni explains. “I can’t imagine him doing anything else. It’s his life. It’s his home.”

Stacy said Bob’s past in the dairy industry and education at Oklahoma State University provided him a unique combination of skills in the livestock industry that have helped him achieve success at Stone Valley. He considers himself to lucky to be around Bob and even luckier to raise his children in the cattle industry.

“It’s a family deal that we enjoy,” Stacy said. “We’re out there as often as we can be.”

It not just Bob’s own children that love the cattle business—some the third generation exhibits a love for the Limousin breed, too. Five of Bob’s grandsons have found their own love for the show ring, leading calves around that sport the Stone Valley prefix.

“No matter what field they choose to pursue, I think the roots and exposure to the agriculture industry is certainly very important in their development and their life,” Bob said.

Attending livestock shows is one of the many ways Bob said he works to establish connections with his fellow cattlemen. The Limousin people are near and dear to Bob’s heart, and he said he feels blessed to have made as many dear friends as he has over the past 20 years.

For as much love as Bob has for the cattle, Coni said that love is twofold for the people in the cattle business. Everywhere they go, Coni said someone always knows her father and respects him for his knowledge and experience within the industry. No matter where they are or what they are doing, she said Bob always makes time to interact with fellow producers.

It’s this equal devotion to the people behind the livestock that Bob said has helped him find success as a breeder. Through industry connections and friendships, Bob said he has been fortunate to develop lasting relationships with both fellow producers and buyers.

In addition to having repeat customers here in the United States, Stone Valley has consistently sold semen to several companies and individuals in Australia, Canada and Mexico. Bob said his all his clients, no matter where they call home, are dedicated to and appreciative of the Limousin breed.

Naturally, interactions with customers across national borders requires a lot of paperwork and health checks, but for Bob, it’s well worth the effort. He said he feels honored to be the provider of quality, fullblood Limousin genetics to people—in and out of the United States.

“The cattle industry, of course, is challenging at times. That’s what makes it interesting,” Bob explains. “We meet the changes that come down the pike. The cattle industry has its ups and downs, but that’s part of it.”

No matter what the future brings, Bob knows he will always call the cattle industry home. He plans to continue providing good breeding stock for his customers and consistently working to improve the genetics on his home operation.

“It’s been a good ride, and we have certainly enjoyed it,” Bob said. “My heart is in the cattle business and the purebred business. That’s why it’s what I’ve done basically all my life.”

Bob manages today’s herd of close to 50 cow/calf pairs with the help of his three children Amy McMullin, Brad Stone and Coni Kitchens; their spouses; and his 10 grandchildren.

Bob Stone and his sister, Karen, spent their childhood exhibiting their dairy cattle across the country. Since purchasing the first foundation females with his sister Karen in 1994, Stone Valley Limousin in Cashion, OK, has been breeding some of the best fullblood genetics in the business.

Bob’s grandsons have found their own love for the show ring, leading calves around that sport the Stone Valley prefix.

From feeding the herd at home, to delivering cattle to buyers, to exhibiting cattle at various shows, Bob says all of his children and many of his grandchildren do what they can to help him run Stone Valley.

A believer in the power of cow families, it should come as no surprise that SVL Mr. America 709G is a direct son of SVL Polled Amazing 971Z, one of the most prominent genetic lines in the Stone Valley program.

Coni describes her father as meticulous, saying he has an eye for detail when it comes to his cattle, a trait he is passing along to several of his grandchildren.

Greenwood Commitment 705K offers a new level of performance. He is as unique as any purebred bull in the industry. He is masculine in his design, stout in his build and phenomenal from every angle. He's massive, yet correct in his structure, big boned, stout topped and packed full of red meat. He still manages to stay soft through his middle third, while being an extra rib long, extended through his front third and upheaded with a masculine face. What adds to the puzzle of finding a bull you can really get behind and one that could make a difference, is this guy's ability to get out and move in the massive package he is. His feet are ideal and his large scrotal development is icing on the cake. His dam, Greenwood Pld Zoom Bloom has become a reliable source to make sale-topping progeny year after year.

SVL MR. AMERICA 709G

SVL Mr. America 709G is the fullblood bull we've all been waiting for! He is a red, homozygous polled son of Posthaven Polled Yellowstone, the Canadian Limousin bull sired by Posthaven Polled Urban Cowboy and out of the Posthaven Matriarch female. This bull's dam is SVL Polled Amazing 971Z, a daughter of SVL Polled Neutron 770X and out of our SVL Polled Amber Lady 706X female. Numerically, SVL Mr. America 709G ranks in the 30th percentile for his milk figure. When you study this guy from the ground up he's as solid and as masculine as they come. We admire his structural integrity, his incredibly strong topline, his expressive muscle shape and his attractive profile. When you get this guy on the move he moves as smooth as a cat. He tracks with a long, flexible stride and maintains his composure effortlessly. SVL Mr. America 709G will be the talk of the town and now is the opportunity to utilize his phenomenal attributes to catapult your program to new highs!

KLS SULL Charmer semen will be auctioned off.

KLS SULL Charmer is the recently \$52,000 valued herd sire that sold in the 2020 Night on the Town III Sale where full possession and half semen interest was purchased. KLS SULL Charmer is wicked good- he is gigantic boned, impeccable in his structure and build, flawless fronted and insanely powerful in his design. He is a son of TASF Crown Royal and out of the famed Riverstone Charmed 50C female. TASF Crown Royal is the DHVO Deuce x TASF Whiskey Lullaby 357W son that has taken over the entire breed with his powerful influence. Riverstone Charmed 50C needs no introduction- she is the "Larissa" Ratliff show heifer that will go down in history as one of the greatest show females of all time. Not only did she make her mark during her storied show career, she is now generating progeny that command top dollar and completely dominate any arena they walk into. The Ratliff Family is responsible for creating some of the finest and very best progeny ever created on this planet. KLS SULL Charmer is a PUREBRED Limousin bull that has all the potential in the world to be at the very top of the Limousin breed and far beyond! You'll want to be a part of this phenomenal offering- this is the opportunity of a lifetime to have KLS SULL Charmer influencing your program. We are more than thrilled to have this remarkable purebred bull's semen come on the market and it is being offered at a very reasonable figure, with the plan to allow any breeder at any level to influence their programs.
