# FALL OPEN HEIFERS

# LOT 1

**Morris**

OCCC Baka 156B is straight from the heart of our replacement pen, her predictable pedigree, and homozygous polled and homozygous black status made it hard for us to part with her. We truly feel that her best days are ahead of her and that her impact as a foundation type female could possibly make a significant impact on a breeding program. Her top 25% ranking for WW and YW should breed true just like her top 25% ranking for Milk. We are excited about our EBFL Ypsilanti calf crop and pleased to be able to tap into such valuable genetics.

When we talk about bulls who have not only exceeded expectations, but have set precedences, MAGS Y-Axis is certainly doing just that. OCCC Bakana 158B was 61lbs at birth and has never looked back, she exhibits a phenomenal growth curve, incredible disposition and has that maternal look that we all strive for. This polled and black, 50% Lim-Flex female is a direct daughter of the 2010 NWSS Champion bull, CALO Brickyard, who has now gone on to do great things as a sire in herds across the country. 158B has earned herself a spot in the top 15% of the breed for both BW epd and \$MTI.

The \$120,000 valued EBFL Ypsilanti 420Y will go down in the record books as one of the most highly sought after bulls of this decade, with progeny lie OCCC Bakarne, it doesn't surprise us. The cattle that he is producing are so functional and genuine in their kind, we feel that their mating options are endless and their future is bright. This homozygous black/homozygous polled fall heifer is neatly balanced in her maternal traits and carcass indexes and is incredible to watch get better and better as each day goes

We love our “spread” cattle here at OCCC, and 161B is definitely that, these cattle offer so many options when it comes to breeding time, it is these type of cattle that make the pure-bred cattle business so much more enjoyable. OCCC Bala 161B ranges from a 0.1 BW to 1221 YW and posts a 30 for Milk, all while posting exceptional carcass data which is indicative of excelling in both quality and yield grade based scenarios. This September Y-Axis out one of our cherished Lonely Valley females, is definitely near the top of the “hard to let go” list.

BDHC Ironman 2006Z is the Diamond Hills bred herdsire that we proudly own in partnership with Sugar Bush Cattle Inc., OCCC Baji 162B is one of the very first progeny to hit the ground and we couldn't be happier. Maternally bred on both sides of her pedigree and stemming from the highly productive JP Lee's Hill herd in Virginia, there is no doubt in our mind that 162B will be a stand out in terms of performance and longevity.

Here is an opportunity to invest in a direct daughter out of the full sister to the 2014 NWSS Champion female of Mikah Edwards, AUTO Mabelline by the \$120,000 valued EBFL Ypsilanti 420Y. With a pedigree buried deep in banners and stacked high in performance, this is a sure bet. 163B is a double polled/double black 50% Lim-Flex show heifer prospect that has a world of potential, especially if you land in a show where data and phenotype both matter to the chosen judge. There isn't a single hole in her data profile from birth to the rail.

This attractive September Purebred daughter of the time-tested and proven winning sire, DHVO Deuce 132R and is homozygous polled and double black. RVF Belina 670B rivals her fall contemporaries for being our top fall calf of 2014, we hated to include her on this list, but we wanted to put our best that we had in our initial online offering. Her dam, AUTO Maykala posts an impressive 42 Milk EPD, ranking her in the top 1% of the breed. Belina is very traditional in her phenotype in terms of muscle, yet is still soft middle and easy fleshing.

Double digit CED, 112 YW EPD and ranking in the top 3% of the breed for \$MTI makes us a believer in this females future. MAGS Xukalani is the a.i. sire owned by Salt Creek, Magness and Linhart Limousin who has been used heavily on heifers and on mature cows to inject low birthweight and added eye appeal. This high marbling female is in the top 5% of the breed for that particular trait and calculates a 73 \$MTI that puts her in the top 3% of the Limousin population. Believe U Me is ideally designed from her fore to rear flank, with a beautiful sweeping shape to mid rib and tons of volume.

OCCC Balbina 149B is a granddaughter of the Demar Farms donor SBLX University Girls 105U, their top selection out of the Jepsen dispersal. With a stellar 110 YW epd, there is no doubt in our mind that growth and performance is not going to be a concern with 149B. Her potential for profitability as a herd sire maker is unlimited with the growth, marbling and \$MTI data that she possesses, clearly a formula for success.

A.I. 12.03.14 to Connealy Confidence; P.E. 12.11.14 to 2.04.15 to BDHC Ironman

To summarize this incredible female's royal pedigree, she is out of a full sister to DHVO Deuce by what is arguably the most popular bull in the Angus breed right now, EXAR Upshot. Upshot is the only Angus bull to ever sire the NWSS Champion Pen and Champion Carload in his very first calf crop. As a bred heifer due this fall, there is no doubt in our mind that you will soon recover your investment in this great female. Her numeric tabulation is absolutely fascinating across the board and her phenotype is flawless. She has the maternal wedge that we all look for, she is neat a refined about her neck and shoulder, expands to a huge top and hip as has a rib shape that you can't draw any more ideal.

In regards to pedigree, MCC Stella 307A is nearly identical to many of the top selling bulls in the recent Lonely Valley Limousin sale, which averaged \$5578 on 80 Limousin and Lim-Flex bulls. Typical of the bulls that highlighted that sale, this particular female has an exceptionally balance set of epd's and excels on \$MTI, thus ranking in the top 10% of the breed for that particular index. To further entice a potential buyer, Stella is homozygous polled/homozygous black, thus giving you that mating freedom that is so often desired.

This exceptional female who is sired by the 2013 NWSS Champion Bull and out the same cow family that produced TMCK Durham Wheat, may be one of the most intriguing pedigrees in the offering. TMCK Strawberry Pie 12Z is a direct daughter of the 2010 record selling bull at Schaff Angus Valley, SAV Brand Name, who has been labeled as “the one” that is going to be charged with the task of carrying on the the Bismark name. 0201B’s functional skeletal design and ideal body condition will do nothing but help her as she enters her productive years.

# HERD SIRE PROSPECTS

# LOT 16

Morris

Leading off the Owens Cattle Company herd bull line-up is this heavy muscled, deep middle and soundly constructed son of the 2011 NWSS Reserve Champion Bull, TW Fire N' Ice. This exceptional yearling herd sire prospect excels in terms of maternal and growth traits without sacrificing desirable birthweight data. We couldn't be more pleased with the job 144B's dam did raising him as a first calf heifer, he certainly is a valid option to fix a lot of issues in a cowherd.

The magnitude of fame and quality found in this young sires pedigree is incredible, he is son of the \$120,000 record selling EBFL Ypsilanti 420Y and a grandson of the famous BOHI Sunset donor who is working hard in the Sugar Bush Cattle and Stowers Limousin programs. If you look back two generations in this bull's pedigree you will be simply amazed by the amount of Limousin and Angus legends present, there is not a single animal, bull or female, that isn't nationally recognized. Here is an excellent opportunity to tap into the very finest of Limousin genetics.

SAV Bismarck has withstood the test of time in the Angus population as a low birthweight sire, he has impressively archived this especially since he has been mated to numerous high birthweight cows in order to stabilize their EPD profiles. With that being said, we are confident that 203B is going to follow in his sire's footsteps and produce low birthweight cattle that are valuable on the grid.

Homozygous Black and homozygous polled son of MAG The General who ranks in the top 10% of the Pure-bred Limousin population for WW and YW epd. Upon researching the depths of this fine individual's pedigree you will notice that all 8 animals in the second generation back in his pedigree are all in triple digits for yearling growth, that is quite impressive and gives you the predictable growth that you can utilize in your herd to produce efficient and profitable calves next year and the years to come.

MAGS Thin Ice is a full sister to high selling MAGS Xtra Wet who is a featured A.I. sire and standing herd sire at Liberty Ranches and a natural calf of the exclusive Magness/Key Bar Ranch donor, MAGS Puddles. Thin Ice is a high percentage purebred who excels in the growth trait categories as well as being in the top 15 of the breed for \$MTI, which takes into consideration growth and carcass traits. These particular embryos are sired by one of the most dominant Angus bulls known for his show stopping profile in the industry today.

AUTO Kelly 230X is the \$11,500 valued daughter of the high growth legend, MAGS The General out of one of the very finest females ever produced in the Pinegar program, AUTO Rebeca 292S. At 8 years of age, 292S has 94 progeny recorded to her name and is still producing progeny that are topping sales across the country. This opportunity to acquire embryos out of a 292S may not be rare, but it certainly is valuable. As the old adage goes, you can never have too much of a good thing, this is especially true when they are sired by what may be the most talked about new sire of 2015, TMCK Hydraulic.

Very rarely have we been presented with an opportunity to acquire a donor with such an impressive set of EPD's across the board. JEPS Tiger Lily 103Y, is in the top 15% of the breed for CED and Milk, the top 10% for Marbling and SMTI as well as posting a 70 WW and 107 YW epd. When mated with TMCK Hydraulic, who currently has a 142 YW epd and is producing cattle with a deadly look and massive amounts of muscle and growth; the results could be incredible.

Sired by the syndicated out cross son of SAV Pioneer, TMCK Hydraulic, who's first daughters were undoubtedly some of the best bred heifers to sell last fall. Donor, GPFX Blaque Destiny has produced leading genetics in programs such as Pinegar Limousin, Jepson, Edwards Land & Cattle, Sugar Bush, Magness and Englewood Farms. Her impact is far reaching and deep impacting. Her data profile aligns perfectly with her REA epd in the top 15% of the breed and her MB epd in the top 10%.

If you are looking for cattle that are going to succeed in the show ring and proceed into the donor pen and herd bull lot, these Xcessive Force X Auto Kelly 230X progeny will do just that. EF Xcessive Force has set the precedence for show sires for the next several years with standout progeny such as MOE Gold Medal Winner RLBH Air Force One, who was the many time champion for Rachel Booth and Etherton Farms. Donor, AUTO Kelly 230X is the \$11,500 valued daughter of the high growth legend, MAGS The General out of one of the very finest females ever produced in the Pinegar program, AUTO Rebeca 292S.
