VIDEOS

Videos on each lot will be available in early October on CattleVids and BuyAgro

DNA

Every purebred in sale has been tested for Coat Color, PV, 100K, and Homo/Hetero Polled status. All the Charolais have been tested for PA and the Herefords tested for DB.

EMBRYO INTERESTS

Each consignor retains the right to one successful flush on each consigned Lot. These will be done at their expense and the new owners convenience

CATALOGUE INFORMATION & ANNOUNCEMENTS

EPDs are current and up-to-date as of publication date. Information in this document is believed to be accurate but any updates at the sale by the owners, auctioneer or sales management will take precedence over the information provided in the sale catalogue.

DIRECTIONS TO SALE

Balamore Farm Ltd.
9036 Hwy 2, Great Village, Nova Scotia

FROM THE NORTH: Exit 10 off Hwy 104. Take a right off of the ramp and travel for 2 miles. At stop sign, go straight for ½ mile. Farm is on the right and you will see a farm sign in front of the grain bins

FROM THE SOUTH AND EAST: Exit 12 off Hwy 104. Follow the signs for Parrsboro, Bass River, Great Village. In 3 miles turn left towards Great Village. Travel 3 miles and farm sign will be on your left in front of grain bins.

FROM BALAMORE FARM

We would like to welcome you the 2026 version of the Shoreline. With the help of our awesome consignors, we feel this is an offering that holds true to the quality of cattle we strive to raise. Working together with this great group of people has been extremely rewarding and we are very proud of the females that have been assembled. We appreciate all of our past supporters and look forward to continuing those relationships and friendships. The females on offer will be available for viewing anytime leading up to the sale and visitors are always welcome. If we can help or assist you in any way, please reach out to any of the Balamore team as well as the boys at T-Bar. We hope to see you at the Shore!

THE COOPER FAMILY

A NOTE ON DELIVERY

We understand that the idea of getting your females from Nova Scotia to your pasture may seem daunting, but we at Balamore are well versed in how to get it done not only simply and efficiently, but at an extremely low, fixed cost as listed below:

Quebec and Ontario: \$250 CAD Manitoba to BC: \$500 CAD USA: \$750 CAD

FROM THE DESK AT T BAR C

No matter what sector of the livestock industry you're in, everyone should plan to visit and stay at Balamore. This outfit is one of a kind, and you'll have a hard time finding an operation that matches the quality and attention to detail of this program. On the heels of last year's record-setting sale, we believe we have an offering that has outdone any offering we've ever had before. Each breed has been meticulously looked over and researched, with all credentials meeting the highest standards. Not only is the Balamore herd the largest seedstock producer east of the Manitoba border, but has maintained one of the most highly anticipated annual bull sales every March. When a program can host a bull sale like the Cooper family does, you can only imagine the females behind them. I can say in full trust that this cowherd is one of the nicest, well-balanced sets of females you will find across the entire nation. The sisters to those bulls that sell annually every spring are the ones being offered here at the Shoreline sale. I'm sure you'll agree as you browse through this catalogue; there are multiple options that will work for any situation in your herd. The consigners again have not only stepped up with their best product but are

some of the best people to deal with amongst their respective breeds. Touring this past summer and grading the sale cattle that will be at the Shoreline was a true pleasure and believe me when I say the top of the line will be standing in Great Village for your appraisal.

T Bar C is proud to work with the consigners and the Balamore outfit on striving forward and producing some of the finest purebred stock this nation knows. We are quite familiar with the offering. If you have any questions, please don't hesitate to contact us and we will be there the day before the sale for a final appraisal on any assistance you may need. On behalf of the Cooper family, see you at the Balamore loop.

SON

No doubt the Charolais foundation sire at Balamore. Powermax calves easily and has a desirable EPD profile. He stamps his progeny with an attractive look, big hips, and big tops. His daughters are a dream with awesome udders and ample milk. His sons have topped our bull sale to both commercial and purebred cattlemen. We can not say enough good things about this bull and what he has done for us.

Semen is stored at Alta Genetics or Balamore. Canadian Qualified.

Roosevelt is as excited we have felt about a sire in any breed ever. He is masculine, powerful, cocky-fronted with the hip shape and stoutness we crave in our cattle. His sire WAGR Patriot 1008J has been a machine for CK/WAGR and has sired their top bulls for the past 2 sales. Add in the Kathlene donor who is a maternal sister to the ST sire OMF Epic E17 (Sire of Lot 32) The \$300,00 OMF Doc Lynn L92 as well as being a $\frac{1}{4}$ sister to the \$128,000 OMF Kristy K88 and a full sister to the \$70,000 OMF Ludacris L17. This is the first Canadian semen offered on Roosevelt and will be the only semen to sell on him in 2026.

Semen is stored at Alta Genetics or Balamore. Canadian Qualified.

Get hold of some Roosevelt this way! Mated to our R-Plus 2126K “Mystique” Donor who has been our most heavily flushed cow in Balamore’s history. Her latest highlight was the \$41,000 Balamore Mystique 406M who topped Shoreline 2025 to JP Cattle/Andrews Cattle. 2126 consistently is a top producer no matter the mating and selling eggs that are this exclusive and exciting is not something we plan to do often. Eggs are stored at Balamore. Canadian Qualified. Balamore Farms Ltd. guarantees one pregnancy if implanted by a certified technician.

Commercial

HEIFERS LOTS 56-106

Commercial Bred Heifers are a staple in a Balamore sale and we are proud of the job past groups have done for there new owners. This group is no exception with many calving in January/February and another group ready for May/June. These strong square females were handpicked from Alberta and Manitoba and bred to Balamore Angus & Limousin Bulls. These females have been on pasture all summer but are now housed close to home so please take the time to stop in view them if given the opportunity. Preg Check Data will be included in our supplement sheets a few days before the sale.

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the appropriate breed association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the appropriate breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE

We strongly recommend that insurance is purchased for full value.

ERRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.
