

3rd Annual
Seeds of the Trade
Bull Sale

WEDNESDAY MARCH 18, 2026

AT THE RANCH-DUNDURN, SK

1PM

Welcome

Welcome to the 31st Annual Tools of the Trade Bull Sale. Thank you to our customers, supporters and friends for making each of the past 30 sales a reality. Your trust and loyalty mean more to us than I can capture in this welcome. You have many options when selecting seedstock and we are truly humbled by and grateful for your support. It's hard to believe another sale season is already here; each year seems to arrive a little quicker than the last. The past year has seen continued optimism and strength in our industry. Based on that market strength and inventory position, the selection of and investment in herdsires is more impactful than ever. For both you, our customer, and ourselves, we feel that selecting balanced trait, performance oriented and maternally backed genetics will put cow-calf producers in the best position to reap rewards of the market going forward. It may sound trite to say this is our strongest offering ever, but we believe it is and it remains our goal to make it true each and every year. We believe it is the most consistent offering across both colours and whether you are shopping in the red pen or the black pen, you will find sound, functional, hairy, gentle and growthy bulls. As in the past, the bulls have been developed on a forage based ration with longevity, fertility, libido and soundness in mind. The bulls, their dams and the commercial heifers are available for viewing any time and we'd love to show them to you. The bulls are parent verified, fertility tested, carcass evaluated and performance tested to provide you the tools you need to make the best selection to suit your needs. Please stop in for a tour ahead of time or join us in person for our 31st sale day. If you are unable to join us on March 18, please register on DLMS or connect with us or any of our sale staff by phone.

Thank you,

Bryan, Tracey, Kylie & Owen

FROM THE DESK AT T BAR C...

It is with great enthusiasm that we welcome you to the 2026 Tools of the Trade Bull Sale, hosted by Wilbar Cattle Company. Few programs in Western Canada can match the history, consistency, and forward momentum that the Willms family has built over four generations in the Angus breed. Wilbar has long been a prominent and respected Angus name across the prairies. However, under the leadership of Bryan and Tracey, alongside their children Kylie and Owen, the program has reached new heights and established itself as a true household name in Angus circles across North America. Their commitment to genetic excellence, disciplined selection, and progressive marketing has positioned Wilbar at the forefront of the industry. Over the past decade, Wilbar has been a dominant force in the show ring, capturing numerous major championships and Supreme titles along the way. Their ability to combine phenotype, structural integrity, and real-world performance has set them apart. The marketplace has responded in kind — highlighted this past spring by the sale of a record-setting Red Angus bull through this very event, and further reinforced by the record-setting Red Angus open heifer sold in the Opportunity Knocks Sale last December. While banners and headlines are noteworthy accomplishments, what truly defines Wilbar is their unwavering commitment to the commercial cattleman. As major suppliers to the seedstock industry, they have built influence and impact far beyond their own pastures. Yet one of their greatest pleasures remains supplying high-quality, dependable bulls to their many repeat commercial customers — cattle that go out and work, add pounds, and leave profitable daughters. The 2026 offering is deep and versatile. Whether you are searching for Red or Black Angus genetics, calving ease specialists for the heifer pen, or power bulls to add performance and scale to your calf crop, this year's lineup presents a host of quality options. Once again, a select and impressive group of open commercial heifers will complement the bull offering, providing added opportunity for progressive cattlemen. We have never witnessed stronger conditions in the cattle industry, and there has never been a better time to invest in quality genetics. Wilbar bulls are built on generations of disciplined breeding and backed by a program committed to standing behind their product. On behalf of everyone involved, we invite you to study the offering, visit with the Willms family, and join us at the 2026 Tools of the Trade Bull Sale. If you are unable to join us or require any assistance prior to sale day, feel free to contact any of the T Bar Team as we would be more than happy to help.

Chris Polley

- 107N was the heaviest at weaning (114 ratio) back in September and continues to perform at the top of the pen.
- Length is the easiest way to add pounds. Empire will do this and then some.
- His dam is a favorite among the Rewind daughters combining a perfect udder with a big-barrelled look and an impressive 108 Weaning ratio on 5 bull calves.
- Sons have sold to Courtland and Krysta White, Mike Deneko, Griffin Ranching and a \$12,500 full brother last year to Lees Farms

- Onyx 176N is the natural calf of Owen's donor cow Mayflower 409E.
- He's big hipped and bodied standing on an ideal foot
- Mayflower 409E is possibly the most productive cow in the ranch's history. She never misses & has mated well to every bull used. She is a CAA Elite Premier cow indexing 118 on her last 5 natural calves. She has 25 progeny in the Canadian Angus Registry
- She raised 2 herd sires for us including Wilbar Juncture - the 2022 CAA Show Bull of the Year. Other sons have sold to BAR D Farm, Impact Ag Ventures, Lazy S Ranch, Bear Creek Angus, Flavel Glenn Farms & Murray Ranches. A daughter sold to Ter-Ron Farms & 6 are currently working here at Wilbar

- Takeover 101N is a curve-bending type sire. He combines moderate birth (top 4 %) with above breed average growth (top 20 % WW and YW)
- He was one of the crowd favourites at side of his powerful dam last summer
- His dam is a daughter of one of our all-time favourite donor cows, Wilbar Mayflower 507B
- A full brother was a \$11,000 calving ease feature last year selling to Cypress Colony Farms Ltd.

LOT 4

WILBAR MAYFLOWER 751G
 SISTER TO DAM OF LOT 4

- If you are in need of an elite cow bull, then set your sights on this stud
- He has been a standout at side of his dam and continues to be since being weaned
- Fault free in his structure, big bodied with top and hip
- His dam is one of the coolest looking cows in the herd – beautiful udder, deep sided and perfect footed. She is a daughter of Wilbar Mayflower 507B, one of our all-time favourite donors and a maternal sister to our 409E donor

- Here is a cool bull that can certainly be used in the heifer pen
- Long bodied & smooth fronted
- Wide based & big hipped at the business end
- The maternal portion of this pedigree combines two of our most productive cow families in the Jennifers & Mayflowers
- A maternal brother was a \$17,500 feature calving-ease bull last year selling to Cleveland Farms

- You'll hear us talk a lot about balance when we refer to Dexterity progeny – smooth, extended & attractive front ends, long, big bodies with deep flanks
- This bull's dam was one of our favorite first calf heifers in a long time, a full sister to Wilbar Reality Check herd. Unfortunately, she cast herself a month after 126N was born, which would explain his average performance, but make no mistake the genetics under his hide are exceptional

- A trio of flush mates out of Owen's Wilbar Mayflower 409E donor
- The sire, Blairs External Law 266F, is a very impressive herd sire that really grabbed our attention when we toured Duff Power Plus Angus. The combination of Duff Napoleon with the great BAR-E-L Erica 74A cow makes for super long spined cattle that are stout made & deep sided
- This mating hit a home run on the bulls – proud presence, herd bull looks and the full sisters could be the best part – wedge shaped, brood cows in the making
- Mayflower 409E is a CAA Elite Premier cow with a weaning ratio of 118. She has sons that have sold to Bar D Farm, Impact Ag Ventures, Lazy S Ranch, Bear Creek Angus, Flavel Gleann Farms, Murray Ranches Ltd. and another working here at Wilbar. Multiple daughters have been retained along with others that have sold all over Canada

- Moderate birth weight bull with the same Reality Check shape we've come to expect
- His granddam and great granddam are both CAA Elite/Premier cows
- A maternal brother sold last year to Helen and Mac Ross

- This Reality Check son has got some looks in the bull pen. He has an abundance of base width and top combined with an attractive, proud look
- His dam has the typical South Point udder that we've grown to love and is as productive as any of them
- A maternal brother sold to Duane Hale

- A sleep all night heifer bull designed to ensure calving-ease
- He is long bodied, smooth shouldered & has a smaller shaped head – perfect for a pasture of heifers
- His donor dam is a beautifully structured cow with a perfect looking udder
- Sons have sold to Brian Loos Trucking and Steve Doig. Daughters have sold to Autumn Dew Angus \$12,000 and Ross Springford \$15,500

PM PRIDE 60'18
 DAM OF LOT 23

- A soggy made, big-bodied bull that could work on heifers or cows
- The 4Real progeny are massive bodied, expansive ribbed & carry tremendous muscle shape. His daughters in production are broody with great udder quality, certainly the type we like
- A full sister was featured in our Opportunity Knocks 4.0 sale to Landon Springford, BC

- This bull is a great example of genetics you can use in the heifer pen without sacrificing pounds on the scale come weaning day
- He has a calving-ease head & smooth shoulder that blends into a massive body & big hip
- The dam is a beautiful first calf heifer that we are very excited about. who is proving her worth at an early age boasting a 112 Weaning ratio on her first calf

- Here is a March born bull out of one of our newest herd bulls, Storm Warning. Sired by the Alta Genetics owned Sitz Continuity & out of an awesome made Jennifer cow that could crank them out
- This stout made bull comes from a cool made Duff 4Real X Mayflower daughter
- The maternal granddam produced a \$36,000 heifer calf that sold last fall in our Opportunity Knocks sale to Dugeon Livestock, ON
- 106 WW Ratio 109 YW Ratio

- An attractive looking Storm Warning son
- He is just a March 8th born bull with a big future ahead of him
- Check out his growth numbers – he's a big-time outlier for growth and carcass
- His Stamina dam is a beautiful uddered female with a deep, capacious body

- Soggy, big-middled bull that will add depth & dimension
- His dam is a cool wedge-shaped cow that can raise the good ones. She is an Elite/Premier dam indexing 108 on 5 calves
- A daughter was a past \$25,000 high selling bred heifer in the famous Red Round Up Sale going to Rohrich Cutting Edge Ranch. She raised a \$27,000 US son in their sale this spring. A son of 516G sold to Jamie Whitney last year.

- Forty Creek has been on our radar from a young age & continues to impress us through every stage of his life
- Moderate birth weight, impressive at side of his dam (114 WW Ratio) and can convert forage into pounds (127 YW Ratio)
- He moves with an athletic stride, stands on dark & ideal shaped feet with herd bull presence like only a few bulls we've raised
- The dam is nearing Elite status with a 106-lifetime weaning ratio. She comes from a cow family that has raised more high selling bulls & top production females than any other in our cowherd. A son & daughter have sold to Andy Niederer, ID. Another son sold to Windmill Stock Farm & most recently a daughter was a \$17,000 feature heifer calf to Wingello Red Angus in Opportunity Knocks 5.0
- Bold statement – Forty Creek 323N ranks as one of the top bulls to ever sell out of the Wilbar program

Retaining 1/3 semen interest.

RED WILBAR BLOCKANA 40K
DAM OF LOT 43

- Balanced trait bull that will add value whether used in the heifer pen or cow pasture
- We love the masculine look these Hennessey bulls have
- The dam is an ideal uddered cow. She is a daughter of our treasured 357X donor that has multiple females working in our herd along with others that have sold around Canada and the US
- A full brother was a \$32,500 sale feature to Southland Angus last year

- Feature cow bull
- Star City 350N combines performance, growth, muscle and a little extra bone mass that a lot of Red Angus could use – 112 WW Ratio
- His dam is a big-bodied Specialist daughter that is always a pasture highlight
- She is a CAA Elite/Premier dam indexing 108 on 7 calves
- Sons have sold to Mike Deneiko and Mark Thoner. Multiple daughters are working here at Wilbar

-0.4	37	79	9	23

- The last natural calf out of our treasured Blockana 357X donor
- One of the younger bulls in the pen but genetically designed to work in the heifer pen & put replacements into your herd
- The 357X dam has been a replacement female factory but a little stingy on bulls so take advantage
- Daughters have sold all over the county and into the US. Her legacy will live on through her productive daughters that remain in our herd

RED WILBAR BLOCKANA 357X
DAM OF LOT 47

- This bull is as muscular as any in the sale. A big-time beef bull
- Deep bodied, deep flanked, deep hipped & wide based
- 110 WW Ratio 118 YW Ratio
- When you see his dam you'll know where he gets his robust build from. She is a beast of a cow, massive in her rib structure and very deep sided. An interesting note on her pedigree, she is a granddaughter of the great Leachman Right Time – a bull that was very influential.

- The cross of Hennessy on Crackerjack, Tempo and Specialist daughters has been one that has worked well and will be repeated
- A heifer safe option
- The dam is our favorite daughter of the \$21,000 Red Wilbar Crackerjack – big dimensional body and top-notch udder quality
- Comes from the same Dorita cow family as the \$30,000 Maroon Out bull that sold last year to BCR Genetics in Texas
- Maternal brothers have sold to Cockburn Red Angus and Clem & Mina Sanden. A maternal sister sold as a feature heifer to Shaggy Meadows Red Angus, SD in Opportunity Knocks 4.0

RED WILBAR DORITA 599L
MAT. SIB TO LOT 49
SOLD TO SHAGGY MEADOWS ANGUS

- A calving-ease bull with a little more frame
- Whether in the heifer or cow pasture this bull will calve easy, add length of body and still add extra pounds to your calf crop at weaning time
- His dam is standard for the Glenfiddich daughters – picture perfect udder, very feminine in her build and productive. She has a son working at AX 74 Ranch
- 109 WW Ratio 102 YW Ratio

- The only Highlight to sell in the sale
- A paternal brother to the World Champion Hennessy and Canadian Record selling Beretta
- He has extra length and style like his siblings have had in the past
- The dam is a heavy milking Razor daughter that has lots of experience in weaning the heavy ones
- A brother sold to Hillcrest Farming
- Sells without papers

- The only Mainstage son in the sale as we had more heifers than bulls
- He offers a total outcross to the red breed including black greats like the International Champion Conley South Point, PM Executive Decision and BAR-E-L Natural Law
- We consider this bull a pretty ideal heifer bull – 106 WW Ratio 107 YW Ratio
- His beautiful Quarterback dam offers more calving ease and maternal strength to the pedigree

- The only Signify son in the sale.
- Given his young age, this bull is holding his own competing with his older pen mates
- He's long and athletic, has good frame to reach cows or bigger heifers
- His Rachel dam descends from the same good cow line at Ter-Ron Farms

- A slam-dunk bull in the heifer pen
- This Helix son offers the shape and size that offers true calving ease
- His dam is a moderate, ideal uddered cow

Commercial Heifers

This is a uniform, high quality group of straight Angus & Red Angus heifers. Over the past few years, our heifers have sold to great commercial cattlemen who have become repeat customers. Straight Angus & Red Angus heifers are in high demand and hard to find. These ones represent the younger end of the replacement pen. Buy with confidence.

TERMS & CONDITIONS

Payment due at the time of purchase. The right of property shall not pass until settlement has been made. All cattle sell under the standard terms and conditions of the Canadian Angus Association. All information in this catalogue is the most current available at press time. Any announcements made sale day supersede catalogue information.

Please insure your bulls. Each animal becomes the risk of the purchaser at the point of sale.

Wilbar Cattle Co. reserves the right to collect semen on any bull for in-herd use only, at the seller's expense and buyer's convenience.

All bulls will be semen tested and fully guaranteed. Scrotal measurements, ultrasound data and current weights will be available sale day.

Bulls will delivered to your yard or central points in Western Canada. If you pick your bull(s) up, you will receive a \$250 rebate. Wilbar Cattle will also offer assistance coordinating trucking to Eastern Canada & the US.

All heifers will be palpated for breeding soundness.

Please make arrangements to pick up heifers before April 1, 2026.

EPDS

A note about EPDs: Balanced trait selection remains our focus at Wilbar so you won't find us chasing outliers and EPD trait leaders but we respect the role this tool may play as part of your selection process. While we still believe the analysis of the bull standing in front of you, his mother, siblings, contemporaries and his actual performance data are most important, we recognize the potential usefulness of Angus HD EPDs as part of your herd bull selection.
