SATURDAY | FEBRUARY 28, 2026 | NOON

Dexter, Iowa

WELCOME

Dear Angus Friends,

We would like to personally invite you to our 11th Annual Angus Production Sale on Saturday, February 28, 2026.

First and foremost, we would like to extend a huge thank you to all our current and past customers and look forward to creating relationships with new ones. Your support and loyalty has been the reason for the success of our program. We are forever grateful and thankful for each and every one of you. Your interest in our program will never be under appreciated or taken for granted.

Each year we have an unwavering commitment to breed the most productive Angus genetics within our reach. Our goal is to make each calf crop one that is better than the last, with special emphasis on maternal traits, such as longevity, udder quality, foot structure, and easy fleshing ability, to name a few.

This year's calf crop will be highlighted by some exciting matings from Throttle, President, Riptide, Panther, Harvester, Hollywood, Anthem, Scale House, Renovation, Landmark, Robust, Rainfall and Renown. The 2025 calf crop brings quality, consistency and performance we feel our customers are looking for. We have had overwhelming and positive responses from all whom toured this past year. From top to bottom, this is the deepest set of females and bulls we have ever offered. We are excited to hear from you and look forward to your appraisal of the 2025 calf crop.

Please plan to attend early to view the new herd sire barn, as we will have a number of herd sires on site for your viewing. Again, thank you and welcome to our 2026 Annual Production Sale! Hope to see you all soon. God Bless!

Sincerely,

Brent Voss

COMMENTS FROM OUR SALE MANAGERS:

Voss Angus - Top Quality Throughout!

Plan now to be on hand for the Voss Angus Annual Production Sale on the new date of Saturday February 28, 2026. With tremendous opportunity from start to finish, it is a special pleasure and privilege to work with Brent and Teresa Voss and the entire Voss family and crew in the presentation of this powerful sale offering that promises to be a highlight of the 2026 sale season. Extraordinary dedication and commitment to the Angus breed is unsurpassed.

The Voss family focuses on breeding cattle with performance and phenotype backed by pedigree stacked with generations of predictable quality with a strong maternal emphasis and real world carcass quality. The cattle in this sale are bred with the best of the basics in mind. The most dominant cow families in the industry are represented, along with breed-leading sires of international renown. Many full-siblings and half-siblings sell, representing the strength of the embryo program.

Plan now to be on hand with us in Dexter, Iowa, for this great event. Please don't hesitate to call on us at American Angus Hall of Fame if we can be of assistance in any way. We are here to serve.

Sincerely,

Tom Burke

Nutrition Program

Overview

Welcome to the Voss Angus Annual Bull & Female Sale. I believe the Voss family and crew have produced another excellent set of Angus bulls and females for your consideration. As their consulting nutritionist, I strive to develop optimal nutrition and management programs to match and express the genetic potential of the Voss cattle while giving special attention to safeguarding soundness and reproductive longevity.

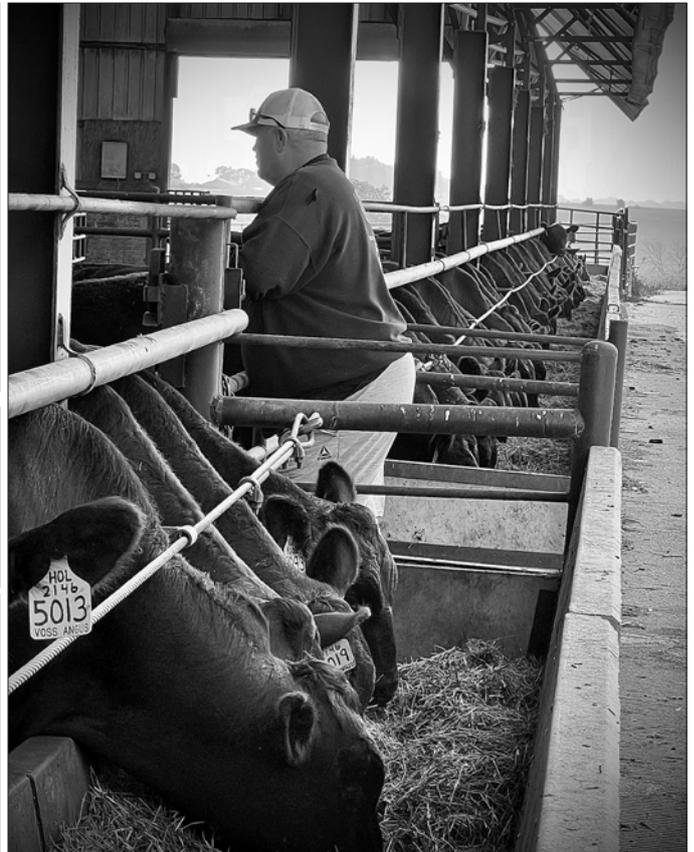

Nutritional Philosophy

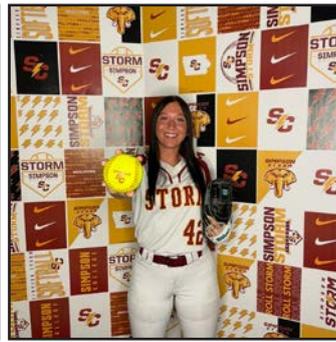

The nutritional treatment of breeding stock from conception to first breeding can have a profound effect on their lifetime potential. In fact, nutritional influences on future health and productivity have been traced as far back as early embryonic development; a concept termed "fetal programming." Therefore, we focus not only on the nutrient requirements of the cow throughout her production cycle, but also on the nutritional factors that affect gene expression of economically important traits in the developing calf. From conception to turnout, we strive to express the genetic potential of the cattle without compromising structural soundness and breeding performance.

Bull and Heifer Development

We believe in the concept of developing seedstock, not finishing them. To properly develop breeding stock, we pay special attention to optimum energy and protein levels to achieve lean gain growth targets. To this end, the Voss bulls and heifers were developed on high-roughage, low to moderate-energy, high-protein diets. Particular attention was given to proper vitamin and mineral supplementation to promote reproductive development and longevity. We think that you will agree that our nutritional philosophy has produced an exceptional set of fertile Angus bulls and females that are ready to go to work for you. Buy with confidence!
