COLEMAN DONNA 386

- Coleman Glacier 041 offers an outstanding genetic and visual package to lead off this year's sale, representing everything we look for in an ideal breeding bull. His herd bull look and presence, along with his pedigree, is exactly what the industry is looking for. He has explosive growth ranking in the Top 15% of the breed for weaning and yearling while complementing this with maternal genetics that rank him in the Top 5% of the breed for \$M.
- He blends the best of the Rito 707 lineage and stems from a very productive Pathfinder dam, Coleman Donna 439, who has powerful dimension and structure with an exquisite look in a very maternal package; she is a full sister to Coleman Playmaker 427, a featured member of the GENEX BEEF AI stud. Donna 439 is a headliner donor in the program and is a herd sire producer who has 11 sons selling in this year's sale along with being the mother to Coleman Ace 989; she is following right in her mother's footsteps.
- Glacier's phenomenal grandam, Coleman Donna 714, is the all-time, high income-producing female in the program and has multiple sons to her credit, including Bravo, Rock, Resolve, Charlo 3212 and Summit.
