TERMS & CONDITIONS:

Terms of the sale are cash unless satisfactory credit arrangements have been made prior to the sale. A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor LV Bar Ranch assume liability, legal or otherwise, for any accidents which may occur.

SALE ORDER & SUPPLEMENTAL INFORMATION:

Sale order and supplemental information will be posted at www.RRMktg.com for your convenience on Friday evening, February 8th.

TRUCKING:

Free delivery on central locations! LV Bar Ranch offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with the handling of your cattle in both a professional and conscientious way. LV Bar Ranch will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle will be delivered within 30 days following the sale. If you have questions on delivery then please call LV Bar Manager Mike Smith at 785.737.8070.

REBATE:

We will also be offering a \$50 PER HEAD REBATE for customers that arrange to pick up their bulls here at the sale location or within one week of the sale.

PAYMENT:

Cattle must be paid for at the time of the sale unless prior arrangements are made with sale management at the time of the sale at 615.330.2735.

AIR TRANSPORTATION:

Wichita, KS Approximately 3 hours
Denver, CO Approximately 5 hours
Kansas City, MO Approximately 4.5 hours

Limousin and Commercial Cattlemen, We would like to invite you to LV Bar's Annual Limousin and Lim-Flex Bull sale on February 9, 2019 at the Plainville, KS Livestock Auction Barn. As a family-run operation that has been in the Limousin business for over 30 years, we are proud of the detailed work that has been put into our program to help grow our cowherd to over 1,000 head of Limousin, Lim-Flex and Angus females—making us one of the largest Limousin seedstock producers in our breed. We are proud of the success of our past bulls that have gone on to other programs, and feel strongly that the set offered in this sale will continue to produce great results in the seedstock business as well as for the commercial cattle producer. Throughout our many years in the business, we have grown to understand the great significance of providing exceptional customer service to past and present customers. No matter what the current needs of your program are, we feel strongly that we have something of value to offer you on February 9th in Plainville, KS. We appreciate the continued support of our program in its expansion these last few years and we look forward to continuing those developing relationships as well as welcoming new ones this year. If you have any questions regarding the sale or the cattle please give us a call anytime.

Sincerely, Chad Settje Owner, LV Bar Ranch

Dear Cattleman and Cattlewoman,

This year's sale will be February 9th with our annual LV Bar Ranch Customer Appreciation Supper and Social taking place on Friday evening February 8th at 7:00 p.m. at the Knights of Columbus in Plainville, KS. We would love for you to join us for an evening of food and fellowship connecting old and new friends and to pause for night of celebrating all the good things happening in our breed across the country! Throughout our relationships with cattlemen across the nation, we are in constant conversation about the common demands and goals within any program of quality and profitability. These conversations drive our own program perspectives as we focus on bringing our customers the absolute best, creating products that benefit and elevate the programs of serious cattlemen and purebred breeders alike. With 30+ years in the business, LV Bar Ranch ranks in the top 10 list of the most cattle registered in the Limousin breed. We would be nothing without our loyal customers who have been essentially in helping us to grow and expand, and those who are dedicated to making the visions of our sales events come to life. We thank you all for the immense amount of work that it takes as a team to accomplish our goals. As always, in this sale we will offer for sale the stoutest set of BEEF BULLS ever assembled at LV Bar Ranch. These coming two year olds are ready to work and add pounds and performance to your calf crop.

Best Regards, Michael L. Smith, Manager LV Bar Ranch

CALF BUYBACK PROGRAM ...

LV BAR is extremely grateful for the continued relationships we have with our customers. The trust they put in us to provide quality genetics to continue to improve this great breed is rewarding. It is important to us to communicate with our clients to understand their wants and needs. We will collaborate with our customers on their program goals, breeding strategies, nutritional information, performance data and more.

If you are interested in our calf buyback program, LV Bar will gladly connect you with one of their representatives below to start the conversation in helping your calves sell for a premium.

ABOUT OUR CATTLE ...

FEEDING:

The yearling cattle are fed to gain 3.25 per day, receiving a ration of corn gluten and alfalfa. We feed our bulls to gain sufficiently, without pushing a lot of corn in the ration. We believe that corn causes structure problems later in life and causes yearling bulls to 'melt' when turned out to pasture. We are very proud of the success rate our yearling bulls have had.

SEMEN TESTING:

All bulls have been semen tested and measured and a certificate will go with each bull sold.

UNCONDITIONAL GUARANTEE:

If the cattle that you purchase at our sale fail to meet your expectations, we will replace the animal, providing you return the animal to our ranch at your expense. We will provide you with a replacement animal or give you full credit toward next year's sale or a cash refund. This guarantee expires after the first breeding season. We ask that you provide travel expenses for the replacement animal. Customer Service is #1!

HOW TO FIND WHAT YOU ARE LOOKING FOR IN THE SALE ...

We first select without papers, finding all visible phenotypic defects and problems. Once the outliers are eliminated, we then select on paper, eliminating those cattle with performance, EPD or genetic problems. This two-step selection process is done at weaning and repeated again just before the sale with yearling data and semen checking added to the criteria. Of course, disposition is still the number one culling criteria in our herd. Choose the type of bull that best meets your cowherd or feel free to call us to further discuss your options. We would be happy to visit with you.

'MAXIMIZERS': *Purebred & High Percentage Limousin Bulls*

These lean, red meat machines will maximize hybrid vigor on your British and British X cows. These bulls will maximize performance without sacrificing calving ease. Several of these prospects go back into the purebred industry each year, being purchased by other purebred breeders.

'STABLIZERS': *75% Limousin x 25% Angus Bulls*

Our most popular hybrid for 28 years, these ultra-thick and deep machines are unequalled in their muscle, volume and phenotype. These bulls work well on most any cowherd, offering the extreme thickness of Limousin and the volume of Angus. Hybrid vigor can be increased and maintained with these bulls on most all straight bred and crossbred cows.

ANALYZING THE PERFORMANCE DATA ...

BW :: BIRTH WEIGHT

We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

WW :: WEANING WEIGHT

This is the weight of the cattle taken at weaning time adjusted to a constant age of 205 days, and a good indication of early growth.

YW :: YEARLING WEIGHT

This is the weight of the cattle taken at approximately one year of age and adjusted to a constant age of 365 days with at least 150 days between actual weaning and yearling weight dates.

ADG :: AVERAGE DAILY GAIN

Growth rate is highly heritable and these numbers will give you an idea of how the cattle respond to environmental conditions. i.e. feed, weather, etc.

'OPTIMIZERS': *50% Angus x 50% Limousin Bulls*

These Angus x Limousin F1 Composites have been a hit on our sale for many years as well. Many cattlemen are using these bulls to moderate their cow size and create consistency or in a four way cross breeding system. Optimizers are moderately framed, very deep and offer much more thickness than the pure-bred Angus cattle.

'OPTIMIZERS': *25% Limousin x 75% Angus Bulls*

They are 25% Limousin and 75% Angus. These bulls combine the best of the numbers of the elite Angus combined with the prominent Limousin. These bulls are huge numbered and have some of the strongest weights and stats of the entire sale offering. These bulls bring the statement of Lim-Flex to a whole new level in our breed. We urge you to see for yourself how any one of these bulls might fit into your program to sire a uniform and very desirable calf crop.

CALF BUYBACK PROGRAM ...

LV BAR is extremely grateful for the continued relationships we have with our customers. The trust they put in us to provide quality genetics to continue to improve this great breed is rewarding. It is important to us to communicate with our clients to understand their wants and needs. We will collaborate with our customers on their program goals, breeding strategies, nutritional information, performance data and more.

If you are interested in our calf buyback program, LV Bar will gladly connect you with one of their representatives below to start the conversation in helping your calves sell for a premium.

- Lim-Flex and double polled
- Here is a young herd sire prospect that carries a substantial amount of bone, depth of center body and extension through his front one third
- This MAGS Zarah son is sure to follow in his father's footsteps in creating offspring with outstanding performance and great numbers
- He will grab your attention right off the bat with his extreme swooping rib shape and powerhouse build
- Look no further than this guy for one that's got phenomenal extension and travels with such comfort and ease of movement

 - This bull goes back to EXLR New Generation on his dam's side and comes from the popular MAGS Whitcomb son, MAGS Zarah
 - He offers a soft skeletal design and expressive muscle shape
 - His functionality will set him up for greatness in any environment and we're confident in his lineage, that he'll be one to stay in your herd for multiple breeding seasons
- [Act. BW: 78 lbs.] [Act. WW: 565 lbs.] [Act. YW: 1,049 lbs.]

ANALYZING THE PERFORMANCE DATA ...

BW :: BIRTH WEIGHT

We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

WW :: WEANING WEIGHT

This is the weight of the cattle taken at weaning time adjusted to a constant age of 205 days, and a good indication of early growth.

YW :: YEARLING WEIGHT

This is the weight of the cattle taken at approximately one year of age and adjusted to a constant age of 365 days with at least 150 days between actual weaning and yearling weight dates.

ADG :: AVERAGE DAILY GAIN

Growth rate is highly heritable and these numbers will give you an idea of how the cattle respond to environmental conditions. i.e. feed, weather, etc.

NOTES

LV COMMERCIAL BRED BAR HEIFERS

Offering 40 Commercial Bred Heifers from the heart of the LV Bar and LVLS programs. These first calf heifers have been ultra sounded and confirmed bred for a 60 day calving period from 2.25.19 to 4.27.19. They are bred to proven Lonely Valley Seedstock Lim-Flex bulls. They are proven bulls for calving ease and sired by the Angus sires such as SAV Brilliance and MYTTY In Focus. All have been vaccinated with Vibrio/Lepto Breedback 9 and poured.

These females will sell in groups of five.
