DALT Absolute Anarchy has proven himself to be one of the great breeding sons of MAGS Winston. The homozygous black breeding bull has sired some of the most impressive Lim-Flex progeny born in the United States. His limited influence was well received in the Double A "Under the Big Top Sale" this fall, when his young heifer calves were featured. The phenotype and genotype of the offspring represent a phenomenal combination, and Double A Land and Cattle shares the influence of this great breeding sire through this exclusive semen offer. Some of the top progeny from this exciting breeding sire will be shown throughout the United States this coming year. They are uncommonly perfectly constructed from tremendous family lineage. Limited semen packages are offered in the National Sale, and this will be the only opportunity to obtain semen for the coming year. Complete details will be available before sale day.

Solid is either defined as being "firm and stable" or can be meant to be "dependable and reliable," with that in mind what better word can be used to describe your future herd sire? ELCX Axle 364A is as solid as they come from the ground up; comes from solid genetic background and from one of the most solid breeding programs in the country. His sire, MAGS Xyloid will go down in history as one of the most consistent producers of phenotypically superior cattle and his maternal granddam, MAGS Lady Ace is one of the all-time top producers of production type cattle in the Magness program. From a performance stand point, ELCX Axle is bred for profit and ranks in the top 20th percentile for \$MTI and top 15% for MB.

Selling 5% United States semen interest. This entitles you up to 40 units of semen annually for the life of the bull and 5% United States semen revenue. Folks, here is a rare opportunity to invest in one of the breed's best red, homozygous polled, outcross, purebred, AI sires in the business! Visually, this Canadian bred herd sire is described easily in one word - STOUT! If extra heavy muscled, big topped, thick-end bulls are your thing, here's one for you. On paper you simply can't make one more impressive, he ranks in the 25% or better for weaning, yearling, milk, total maternal, calving ease maternal, scrotal circumference and carcass weight. Plus, he charted an astounding actual ribeye of 17.0 square inches. Power up your program today with Cognac.

Straight from the heart of the Freebird Farms breeding program is JOAW Tennessee Mojo 248B, who has been successfully campaigned by John Alexander Walker this summer and fall. A past division winner in nearly every show he was entered in, ELCX Zorro was certainly an attractive and well-made show bull, however it is progeny such as this that is going to contribute to him becoming an impactful sire across the country. Mojo certainly has all the right components to be a leading herd sire with a tremendous dam who raised him as a two year old, exceptional growth and marbling numbers and a structure that is built for longevity.

The 2014 national junior show champion female for Grant Hubbard has certainly outdone herself on her very first calf. MAGS Zalia was the epitome of perfection when she hit the Red Dirt in Amarillo and is still flawless as a mature female. Mated to proven banner producer, EF Xcessive Force, certainly worked as anticipated and she produced Tulsa State Fair champion HUBB Bulletproof. New owners Lawrence Family Limousin and JCL Land & Cattle have chosen to sell semen packages on this intriguing combination bull that ties together muscle, athleticism, volume and eye appeal as well as a solid data set that shows particular excellence in birth to yearling spread and marbling value. Packages will only be sold for a limited time and semen will not be available on the public market until January 2017.

Thomas and Son Farms have been utilizing Limousin genetics since 1988 and have raised three sons in the Limousin show ring; it is a great honor to be able to offer TASF Boone 881B in the 2016 National Sale. Boone is everything that the TASF program is about, he is athletic, massive in his mid-body, straight lined and neatly constructed. A homozygous polled, direct son of the power cow and past Denver and Louisville champion, TASF Whiskey Lullaby, and is sired by the leading son of now deceased Dameron First Class, EXAR Classen. Statistically speaking, this prestigious show bull and future AI sire is in the top 10% of the Lim-Flex population for TM and has a 1.1 to 105 birth to yearling spread.

Consigned by: Edwards Land & Cattle, Beulaville, NC

Edwards Land and Cattle have once again decided to offer a truly elite lot to the National Sale. ELCX Bear Claw 437B is by the \$120,000 valued EBFL Ypsilanti and is a maternal brother to LFL Alicia, a highlight lot at NWSS last year that is now in the Wulf Cattle Co. system out of LFL Upper Crust 0090X. Since birth his actual performance has stood out, he posted a 68lb adj. BW, a 1422lb adj. YW and scanned an adj. 18.36 REA; going to show that he is one that will live up to his EPD in a real world scenario. This herd sire prospect is as explosive in his muscle shape as any bull offered recently in public auction. His EPD line up is exclusive, he combines growth and maternal along with ribeye and marbling in a manner that one a few can. He incredibly ranks in the top 3% for WW, 5% for YW, 2% for TM, 15% for REA, 15% for MB and 10% for \$MTI. Selling full possession and 2/3 semen interest.

Folks, here is one of the sale highlights and one of the best individuals ever created at Gates Limousin. Coming to you in a double homozygous package is this super heavy structured, big footed, deep sided, wide topped, easy fleshing individual. Note, he charted an impressive 789 lbs. of adjusted weaning and ranks in the top 25% of the breed or better for 10 economically relevant traits - simply stated, numerically he simply sets the bar! Furthermore, from a pedigree standpoint he is a total outcross to much of today's popular lineages and is out of an amazing first calf heifer that has a perfectly constructed udder. The bottom line is, if you're looking for that high quality, huge numbered, outcross pedigree bull that promises to excel in a variety of traits don't hesitate to invest in Commander today!

Exclusive Semen Packages. Highland Boston is one of the most powerful purebred Limousin sires available in the breed today. The young sire was the calf division champion bull at the 2014 Canadian Western Agribition, and high selling bull in the 2015 Highland Stock Farms Bull Sale. His full sister with Payne Derby calf at side, in turn, were a high selling lot this year in the record-breaking Cattle Call Sale in Bragg Creek, Alberta. Both his sire and dam have been significant breeding pieces in assisting building the excellent breeding herd in place at Highland Stock Farms. The phenotype of the great young breeding bull is exceptional. He is thickly muscled, and he combines some of the most economically important traits in the industry. His genetic background further indicates his potential and consistency as a breeding bull. His genetics will be introduced into some of the great donor females in the industry. Glendinning Limousin owns the United States semen rights to this great breeding bull. Complete details available at sale time.

LH Butterfly 169B is a powerfully made, deep ribbed easy fleshing, structurally correct, double homozygous female whose dam now serves in the good Stowers program. Her performance and EPDs along with her beautiful style and balance make Butterfly a logical addition to most any program. She sells bred to the syndicated MAGS Xukalani son, MAGS All-Star. She ranks in the top 10% of the breed for WW, YW, CW, MB, and SMTI.

Magnificent opportunity to buy into proven and progressive genetics that are going will push your program forward. A beautifully designed female out of a full sister to the popular syndicated sire from P Bar S ranch, PBRS Milestone. Aside from her breed changing maternal influence, she is a direct daughter of the \$120,000 valued EBFL Ypsilanti and has an EPD profile that will dictate profit. Notably, she ranks in the top 4% for YW and MB and in the very top 2% of the breed for the ever so important SMTI.

Appropriately named, Cattleman's Kind - she is the high quality, performance oriented, brood cow type of female you'd expect from the Hager Cattle Company program! Visually, this red Lim-Flex female is exceptionally big bodied, soggy centered, big footed and square hipped. On paper she separates herself for the pack, note she ranks in the top 25% or better for weaning, yearling, milk, total maternal, scrotal, carcass weight, marbling and \$MTI. From a pedigree standpoint, she is by the high performance, easy fleshing AI sire that's in production at Wieczorek Limousin and out of a high power female that charts back the historic MAGS Phyllo cow family. The bottom line is, this is a sure-fire donor female in the making and one that would be an asset to your genetic arsenal for years to come.

If you want one to put a halter on and then kick out into the donor pen, JCL Cowgirl 504C is the answer for you. This March Lim-Flex heifer gives you a great look that resembles the profile of many of the past MOE champions in her pedigree such as EF Xcessive Force, CALO Brickyard, and Mollys Image. Beyond her good looks, she comes with a negative BW EPD, workable growth numbers and highly desirable maternal statistics. The future is exciting for this special female.

Year after year, JCL brings some of their very best and most complete show heifer to Denver to be highlighted in the National Sale, this year is no exception. JCL Keilma 511C is a homozygous polled and homozygous black Lim-Flex out of a maternal sister to JCL Katniss, the many-time champion for Linden Linthicum. This attractive female is so correct and balanced from the profile, she is sure to be a head turner like so many of the great ones in her pedigree. Highly workable EPD calculation on this female as well, very predictable in terms of calving ease and powerful performance numbers.

Guaranteeing 5 embryos. A maximum of 10 embryos. SSTO Starla 6803S is one of the proven foundation Lim-Flex donor females in the industry. The homozygous polled and homozygous black female has become an anchor in the breed from which to build trait-leading generations. This cow is the dam of some of the significant breeding bulls and females serving in top breeding programs in the country. The balanced EPDs of this female present an excellent genetic source for any bull of the buyer's choice. SSTO Starla 6803S has become one of the noted donor females in both the Graven and Glendinning programs. The female is open, rested, and ready for transplant at sale time.

Due March 11, 2016. Selection of the calf from 11 pregnancies at weaning. Terms: 1/2 purchase price sale day, 1/2 due at selection. Two of the most familiar names in performance Lim-Flex are the sire and dam of this ET pick. LH Rodemaster 338R has become one of the dominant breeding bulls in the industry. The son of JCL Lodestar has become one of the most proven trait-leading sires. COLE Miss Production 926W is the foundation dam that has proven an amazing ability to transmit balance trait selection to offspring. Her progeny are now beginning excellent careers in some of the most prominent breeding herds in the country. From birth weight to \$MTI, the mating here represents some of the most extraordinary and breed-leading EPD statistics. Coupled with eye-appeal through balance and symmetry, the pick of the 11 calves due March 11, 2016 presents a tremendous opportunity in this National Limousin Sale during the National Western Stock Show.

Due March 11, 2016. Selection of the calf born from 5 pregnancies at weaning. Terms: 1/2 purchase price sale day, 1/2 due at selection. This embryo flush of calves due March 11, 2016 represents one of the most undisputed advanced groups of genetics available in the industry. This is the result of mating two of the most significant individuals of both the Limousin and Angus breeds. GAR Prophet has become one of the most dominant breeding bulls born within the Angus breed. His trait-leading status has moved the seedstock industry toward more efficiency due to his extraordinary performance, maternal and carcass merit. The genetics of this great Angus sire has merged in a most complimentary way with Polled Unique, the purebred daughter of AUTO Dollar General 122R. Astounding genetic profile coupled with a most excellent phenotype have created this great donor female. The calves born from this intriguing embryo flush will make a powerful addition to the genetic inventory of the Lim-Flex segment of the industry.

This marks the first opportunity to invest in embryos by the proven donor dam, MAGS Uahuka. Notably, this exceptionally well designed, big footed, free moving, sleek fronted, square hipped, perfect uddered donor is the mother to highly regarded, \$48,000, elite AI sire, MAGS Y-Axis. On the paternal side of the mating, MAGS Antelope was a sale day favorite at the 2014 Magness Land & Cattle bull sale and member of the 2014 NWSS champion carload. His first calves have impressed with their structural integrity, growth, eye appeal and stoutness. There's little question the blending of these two big numbered individuals project to produce results that are sure to impress. Catapult your program to a new level with this tremendous mating.

EXLR Luvly is a feature donor in the Buck Ridge Limousin program and is a go to Luvly to tie together phenotypic quality and predictable performance. Study the numbers that this exceptional homozygous polled female brings to the table. She is in the top 10% of the breed for CED and YW, and top 2% for CEM. Carcass wise, she is in the top 10% for REA, top 5% for MB and top 4% for \$MTI. She is destined to be a herd sire maker in the years to come. MAGS Anchor is now deceased and semen is limit in availability and with the popularity of the calves that are currently on the ground the marketability potential of this mating is endless. This lot is truly an investment in the future of the Limousin genetic base. Resulting progeny will be homozygous polled.

AUTO Bette 266Y is the pride and joy of Adam Griffith's breeding program, as she should be. She was an absolute rock star in the show ring and made frequent trips to the backdrop including the national junior show. Her production record is as impressive as her trophy collection; she is a flushmate to the \$30,000 AUTO Bliss, a big league donor in the Lawrence, Hall Cattle, Diamond Hill, and Coyote Hills programs. The paternal part of this equation is equally stellar; EF Xcessive Force is a household name in the Limousin breed that is synonymous with quality and success. Past Denver champion himself and now a standout sire with an exceptional performance record. Solid numbers across the board for this mating.

CHR Undying Love is the one of the very finest purebred females ever created in the Kervin and Coyote Hills program, her impact will be felt for generations through her progeny generated in the JCL and Wright Brothers' systems. She is the famous dam of Linden Linthicum's highly successful show heifer in 2012, winning the All-American Futurity amongst other exclusive titles. A maternal sister to this mating highlighted the 2014 National Sale and is now working in the Schur program in Texas. A similar mating combination with this cow family and EF Xcessive Force produced JCL Big Deal, the record selling herd sire to Logan Hills. If you are serious about raising good cattle the produce calves and banners alike, this combination may be the key.

Pull up the dam production record on this exceptional donor and prepare yourself to be blown away, AUTO Brooklyn 249U's calves are averaging a BW ratio of 98 and WW ratio of 106 and on her first two natural calves she has an average adj. WW ratio of 827 lbs. Beyond her exceptional performance record, pedigree wise, she is a direct daughter of Angus carcass legend GAR Predestined, who led all beef bull semen sales for many years at Select Sires. She is the famous dam of two of the top selling cattle to leave the Tubmill Creek program in 2014-2015 through public auction; as well as at the maternal sister to the exceptional phenotypic sire, WLR Direct Hit and Sugar Bush Donor, SBX Untouchable. Being sired by WULFS Exclusive 2458X, the maternal brother to Xcellisor, Success and Kenworth, makes these embryos a sure bet. Resulting progeny will be homozygous polled.

The embryos that sell here from Counsil Family Limousin are from deep within the breeding herd. They represent the very best in genotype and phenotype from one of the most dominant bulls and females in use today. LH Rodemaster 338R has been one of the most appreciated sires of Lim-Flex genetics. Trait-leading EPDs and uniformity are synonymous with the progeny of this excellent breeding son of JCL Lodestar. BOHI Red Robin 282R is one of the most appreciated daughter of the entire Manuela female line. The former NULSC grand champion female has produced some of the most highly sought individuals in the breed. A daughter of this mating was the high selling female in last year's Counsil production sale.

The genetics offered here are some of the most elite in the Limousin breed. EF Excessive Force, the former national grand champion Lim-Flex bull, has become one of the greatest breeding bulls in the industry. His progeny are among the leading individuals in the breed, and he stamps his progeny with an easily recognizable pattern. His progeny have assisted in fueling another new level of excitement in the industry. BOHI Red Robin 282R is one of the most consistent producing donor females. Her progeny have been among the most competitive and trait-leading in EPD documentation. Complete and total genetics for constant improvement are offered with these embryos from Council Family Limousin.

These purebred embryos are from one of the most exclusive purebred lines of trait-leading genetics that have been well documented for success across the country. A female from this mating, TJMR Blackberry 427B, was the high selling open female in the Remember September Sale this year when she was purchased by Lights Farms and Majestic Farms for \$10,000. She, in turn, was a division champion female at the 2015 NAILE in Louisville, Ky., and was followed in division in the reserve position by her maternal sister by MAGS Y Axis, shown by Samantha Moore. From this family line, TJMR Bell Curve 320A, by MAGS Y Axis, was the high selling female in the 2014 Eastern Regional Sale, and was purchased by Glendenning Limousin. She and the aforementioned females are a part of the most progressive individuals from the entire Pepper trait-leading cow family. The embryos here offered by the great breeding sire, MAGS Yip, can become an even more important part of the Limousin forefront.

This mating combines two of the most legendary cow families in the breed. These embryos are a part of the on-going embryo transfer program at JP's Lee Hill Farms. CORL Good Girl 74G has become one of the most proven and long-lasting donor females in the industry. She is one of the most noted females to descend from the legendary Tempress female line that has been responsible for generating millions of dollars worth of revenue. The donor female is a full sister to CORL Dream of Me, the former NJLSC & AALF grand champion female. Furthermore, another full sister is the dam of the great breeding sire, JLWM Dire Straytes. This cow family genetically infused with MAGS Y Axis make these embryos some of the great lines to ensure ambitious Lim-Flex genetics that will increase in value for years to come.

39 PICK OF 2016 SPRING HEIFER CALVES

Consigned by: *Wulf Cattle Company, Morris, MN*

Rare opportunity abounds! This pick of approximately 600 spring born heifer calves is coming from one of the most historic, internationally respected, and leading firms the Limousin breed has ever known - Wulf Cattle Company. The list of elite and breed impacting cattle to have been raised over the years dawning the FI prefix is simply remarkable. Found in the 2016 spring heifer calf crop is sure to be numerous donor prospects featuring leading Limousin genetics and females that combine both numerical superiority and a desirable phenotype. Folks, this marks the first time ever in the existence of the Wulf Cattle program spanning across five decades that an exclusive pick of the herd is being placed on offer for your appreciated appraisal. Bid with confidence.

40

TAKE YOUR PICK

Edwards Land & Cattle has graciously donated the 2016 Corner Post Package. This 10th Annual Corner Post offers an exciting opportunity to make one pick from the ELCX 2015 fall born ET calves and the 2015 fall born natural calves from their donors.

All proceeds from the package will benefit the Corner Post Fund, which facilitates additional activities and scholarships for members of the North American Limousin Junior Association.
