TRUCKING:

Free shipping will be available to central locations. Contact Charles Linhart, 641-340-1306, to make arrangements.

Welcome

LIMOUSIN FRIENDS & ENTHUSIASTS

We would like to welcome you to the 17th Annual Linhart Limousin Fall Harvest Production Sale. For more than four decades, our family has been committed to raising Limousin and Lim-Flex cattle just north of Leon, Iowa, in the heart of southern Iowa cow-calf country. What began in 1979 has grown to nearly 400 producing females, but our goals remain much the same: produce cattle we are proud of, stand behind our customers and continue doing things the right way.

This year's offering represents some of the very best genetics our program has to offer. As you page through the catalog, you will find the influence of our premier donor cow families, proven and exciting herd sires, a progressive A.I. program and the no-shortcuts approach that has shaped our program for generations. We are especially proud of the set of open show heifer prospects assembled this year, along with a herd sire prospect and a select group of genetic opportunities.

Whether you are a junior searching for your next show heifer or a breeder looking to add a valuable genetic piece to your program, we believe there is an opportunity here for you. One of the things we are most proud of is seeing Linhart genetics succeed for our customers. Over the years, females purchased from this sale at a wide range of price points have gone on to earn championship banners at the local, regional and national levels. We believe success should be attainable at different budgets, and once again this offering includes quality cattle at a variety of price points. Just as important as the cattle we sell is the service that follows them. It remains a priority for us to make every business transaction a positive experience and to be available long after sale day. The sale will once again be held at our on-farm sale facility. Cattle will be available for viewing in our on-site display pens and will sell by video auction inside the facility.

All cattle will be fully guaranteed to the catalog in accordance with the North American Limousin Foundation as of the date noted in the sale information. If you would like to discuss our sight-unseen purchase program, financial arrangements, trucking plans or simply visit about the offering, please do not hesitate to reach out. Our door is always open, and we welcome your calls and questions.

Thank you for your continued interest in Linhart Limousin and, most importantly, for the friendships and support that have made this sale possible year after year. We look forward to visiting with you and welcoming you back to Leon for the 17th Annual Fall Harvest Production Sale.

*Sincerely,
The Linhart Family
Linhart Limousin*

The Legacy Lives On

A true legacy echoes through generations in powerful ways, and that is precisely the imprint the famed Riverstone Charmed, affectionately known as "Larissa," has left not only on our program but across the entire show cattle industry.

Recognizing her passing underscores the monumental opportunity found within this very offering. As we move forward, opportunities to attain direct daughters by one of the truly great breeding cows ever created will be profoundly limited. This is your chance to anchor your program with the timeless genetics, proven power, and elite quality of a matriarch who redefined the standard.

Defining Success

Defining success in the cattle business isn't just about the banners we hang or the trophies we bring home....it is about the foundation we build for the next generation. While our passion drives us to produce elite show heifers and engineer elite genetics capable of competing at the highest levels, our true purpose is rooted in family. Every early morning in the barn and every late night on the road is a shared journey—one where hard work, integrity, and resilience are passed down from parent to child. We believe the greatest champion we can ever raise is a young person who understands the value of dedication, community, and land. When you invest in our genetics, you aren't just buying a heifer; you are joining a tradition that values family, future leaders, and the enduring legacy of the livestock industry.

What a way to kick off the offering! CELL Princess 6017P is a striking January show prospect with the presence, balance and genetic backing to command your attention. Sired by UDE New Heights 62/87 and out of the legendary Riverstone Charmed, Princess brings together an exciting blend of Angus phenotype with one of the most proven and recognizable cow families in the Limousin breed. Charmed's influence needs little introduction, and this mating offers a fresh opportunity to tap into that maternal legacy. From the show ring to the donor pen, we believe the future is incredibly bright for this female. Study her hard on sale day — Lot 1 was selected to lead off this offering for a reason.

The quality runs deep in this flush! CELL Paisley 6009P is a full sister to Lot 1 and brings the same exciting combination of UDE New Heights 62/87 and the legendary Riverstone Charmed. This early-January female is backed by generations of proven show-ring success and donor value, with a pedigree designed to generate cattle that look the part and have value long after their show careers are complete. When a mating delivers this kind of genetic opportunity more than once, it deserves your attention. Study Paisley closely and decide which of these sisters best fits your program.

Show-ring genetics collide in a big way with CELL Piper 6013P! Sired by PVF DLX King Pin 0058 and out of the legendary Riverstone Charmed, this January female combines two pedigrees synonymous with generating cattle that command attention. King Pin has established himself as a dominant sire of high sellers and champions, while Charmed's influence on the Limousin breed speaks for itself. Piper offers a fresh Lim-Flex combination backed by proven phenotype, maternal strength and tremendous show-ring potential. With this kind of genetic firepower on both sides of the pedigree, she has the credentials to be exciting in the ring now and even more valuable in the donor pen later.

The power of this mating is already proven, and CELL Phoenix 6016P gives you another opportunity to tap into it. A full sister to Lot 3, Phoenix combines PVF DLX King Pin 0058 with the legendary Riverstone Charmed—a mating that has already produced high-selling and highly competitive females. Full sisters to Phoenix include CELL Northern Charm 5100N, the \$34,000 Lot 34 in the 2025 Linhart Fall Harvest Sale, as well as CELL Mia 4019M ET and CELL Myla 4018M ET, both successful on the national junior show circuit. With proven show-ring genetics, maternal value and donor potential stacked throughout her pedigree, Phoenix represents the kind of female built to keep the momentum going.

Here is one with the pedigree and presence to make some noise! CELL Presley 6167P combines the championship-caliber look of WWST The Comeback Kid 928K with the unmatched maternal influence of Riverstone Charmed. Comeback Kid was the 2023 NAILE Grand Champion Limousin Bull and has already proven his ability to sire competitive females, while Charmed continues to leave her mark through generation after generation of champions and high sellers. This May prospect brings together two of the most recognizable show-ring pedigrees in the business in an exciting 76% Limousin package. Presley has the genetic credentials to be fun in the show ring and the kind of cow-family backing that makes her value extend far beyond her show career.

A pedigree built for the purple! CELL Cardi 1403J ET was a Grand Champion Lim-Flex Female herself and has quickly established an impressive production record, with daughters succeeding at the regional and national level and commanding attention in the sale ring. Good Times adds another shot of proven Angus show-cattle genetics to the equation. This January female is a maternal sister to the \$98,000 KQLL North Star 5004N and is backed by the same Cardi cow family that continues to generate competitive, marketable females. Paxton has the pedigree, look and maternal foundation to make her an exciting show prospect now and a valuable breeding piece for years to come.

Consistency is the name of the game in this mating! CELL Payton 6014P is a full sister to Lot 6 and combines the proven show-ring style of STAG Good Times 201 ET with the maternal strength of CELL Cardi 1403J ET. This exact mating has already proven its ability to generate the right kind: full sister KQLL Nova 5099N ET was a sale feature in the 2025 Linhart Fall Harvest offering, while the Cardi cow family continues to stack up banners, high sellers and sought-after genetics. Payton offers the same exciting blend of eye appeal, balance and maternal value in an early-January package. With a pedigree this proven and a cow family this consistent, the guesswork has already been taken out of the equation.

There is plenty of show-ring power behind CELL Pearl 6002P! This New Year's Day female combines PVF DLX King Pin 0058 with CELL Cardi 1403J ET, stacking two of the most recognizable sources of phenotype in this offering. The Cardi cow family has proven it can generate at the highest level—maternal sister KQLL 4317M ET was named 3rd Overall Bred & Owned Lim-Flex Female at the 2025 Junior Nationals, while another maternal sister, CELL Nashville 5042N, commanded \$33,000 in the 2025 Linhart Fall Harvest Sale. Add King Pin's influence to that proven maternal base and Pearl becomes an intriguing show prospect with the pedigree and earning potential to remain valuable long after her time in the ring.

CELL Penelope 6084P is sired by PVF Capone 2104, the exciting King Pin son from the dam of PVF Marvel, and backed on the bottom side by AUTO Callie 403D ET. Callie was the 2018 All-American Limousin Futurity Grand Champion Limousin Female and has gone on to establish herself as a cornerstone donor for the Linhart program, consistently producing progeny with the look and presence buyers demand. Capone brings a fresh generation of Angus show genetics and has already sired competitive cattle across the country. This February female combines a proven Limousin donor with one of the exciting young phenotype sires in the Angus breed. Penelope has the pedigree to compete and the maternal foundation to make her value last.

Here is one backed by a cow family that continues to deliver! CELL Phoebe 6108P combines CELL Lasting Impression 3019L ET with CELL Kool 2043K ET, a daughter of CJSL Dauntless 6257D ET and the legendary Riverstone Charmed. Kool has already proven her ability to generate the right kind, with daughters featured in the Linhart Fall Harvest offering, while Lasting Impression has earned attention for his pedigree, balanced genetic profile and eye-catching phenotype. This mating stacks Charmed with SSTO Fancy 8865F ET and brings together some of the most recognizable maternal genetics in the Linhart program. Phoebe is a March show prospect with a pedigree designed to keep working long after her time in the ring.

Here is a Valentine's Day female with a pedigree built for the show ring! ADLL Palmer 1650P combines PVF DLX King Pin 0058 with CELL Lacy 3156L ET, a Silveiras Style 9303 daughter out of the legendary Riverstone Charmed. King Pin has established himself as one of the most dominant phenotype sires in the Angus breed, generating champions and high sellers across the country, while the Charmed influence continues to be a cornerstone of the Linhart program. With King Pin, Style and Charmed all stacked into one pedigree, Palmer brings together proven sources of look, maternal value and show-ring success. This February prospect has the genetic backing to be exciting in the ring and the kind of pedigree that can make her even more valuable as a donor.

Wren Porcia 6023P is a registered 1/2 MaineTainer sired by Walsh On The Brink and out of CELL 4006M. Her maternal pedigree traces through W/C Bankroll 811D and LLJB Absolute Style 3056A, bringing one of the most recognizable cow families in the Linhart program into this MaineTainer package. Absolute Style's influence has been felt through generations of high sellers and competitive females, while the top side adds the Maine-Anjou influence of BNWZ Data Bank 1311C ET. Porcia recorded a 70-pound actual birth weight and a 655-pound adjusted 205-day weight. This February female offers a different genetic avenue within the offering while still tying back to the maternal foundation that has played such an important role in the Linhart program.

Show-ring genetics collide in a big way with CELL Porsche 6013P! Sired by PVF DLX King Pin 0058 and out of the legendary Riverstone Charmed, this January female combines two pedigrees synonymous with generating cattle that command attention. King Pin has established himself as a dominant sire of high sellers and champions, while Charmed's influence on the Limousin breed speaks for itself. Porsche offers a fresh Lim-Flex combination backed by proven phenotype, maternal strength and tremendous show-ring potential. With this kind of genetic firepower on both sides of the pedigree, she has the credentials to be exciting in the ring now and even more valuable in the donor pen later.

Here is an opportunity to get in on a mating backed by proven champions on both sides! DL Hosanna 526H ET is a purebred daughter of TASF Crown Royal 960C ET and the legendary Riverstone Charmed, giving this mating one of the most recognizable maternal foundations in the Limousin breed. Hosanna was Reserve Champion Limousin Female at the 2022 Cattlemen's Congress and has gone on to prove herself as a donor. Her daughters were Grand & Reserve Champion Limousin Female at 2025 National Junior show and Reserve Champion Limousin Female in 2026. Mated to WWST The Comeback Kid 928K, the 2023 NAILE Grand Champion Limousin Bull, these three sexed embryos combine proven show-ring quality, maternal power and a pedigree built to generate.

A proven mating worth taking seriously! These three sexed embryos combine STAG Good Times 201 ET with CELL Cardi 1403J ET, bringing together two highly recognizable show-cattle pedigrees. Good Times is a 24 Karat son out of SCC SCH Phyllis 6104, while Cardi is a Silveiras Style daughter of the legendary Riverstone Charmed. Cardi has already established herself as a proven producer, with daughters earning show-ring success and valuable progeny carrying her influence throughout the Linhart program. This mating combines the look and generating power of Good Times with the maternal strength of Cardi and Charmed, creating an opportunity to put a proven genetic combination to work.

Here is a donor whose record speaks for itself! ELCX Extra Special 701E ET combines PVF Insight 0129 with AUTO Poem 273Y and has established herself as a proven source of elite Limousin and Lim-Flex genetics. Her daughter ELCX Kate 332K ET has compiled an exceptional show record, including major wins at Junior Nationals, NAILE, Fort Worth and the Cattlemen's Congress, while other Extra Special daughters continue to earn division honors. This lot offers three sexed embryos with your choice of two sires. ELCX Kings Landing 599 D ET brings a proven championship and generating record and is already a proven mating on Extra Special—the mating that produced ELCX Kate 332K ET. OPHM Mandate 86M offers a fresh genetic direction as the Homo Polled, Homo Black J6 We The People 411J ET son selected through the 2026 Limousin Legacy Sale. Whether you choose the proven Kings Landing combination or the newer Mandate option, the foundation remains one of the most productive donor females in the breed.

A choice-sire opportunity from a daughter of one of the most influential females in the Limousin breed! CELL Kool 2043K ET is a CJSL Dauntless 6257D ET daughter out of Riverstone Charmed, giving this donor the maternal foundation that has repeatedly generated champions and high sellers. The buyer has three exciting ways to mate her: BNWZ Dignity 8017, PVF DLX King Pin 0058, or CELL Lasting Impression 3019L ET. Whether the goal is a lower-percentage Lim-Flex with Angus influence or a higher-percentage mating built within the Limousin gene pool, these three sexed embryos offer the flexibility to build around a young Charmed daughter with a proven pedigree.

Here is a mating that combines championship phenotype with proven generating power on both sides! CELL Lenny 4004M ET was selected Reserve Grand Champion Purebred Limousin Female at the 2025 NAILE, and her pedigree is equally impressive—she is an ELCX Kings Landing 599 D ET daughter out of the legendary Riverstone Charmed. Mated to BNWZ Dignity 8017, these three sexed embryos bring together a proven Angus sire known for producing high-valued, highly competitive progeny with one of the most recognizable maternal families in the Limousin breed. Dignity adds the influence of PVF Insight 0129 and CCC Sara's Dream 5116, while Lenny stacks Kings Landing and Charmed on the bottom side. The projected EPD profile adds balance to a mating already loaded with show-ring credentials and maternal value. This is a chance to invest in genetics built around cattle that have proven they can compete at the highest level.

A package that lets you tap into AUTO Callie 403D ET through two proven Angus sires! Callie was the Grand Champion Limousin Female at the 2018 All-American Limousin Futurity and has built an equally impressive reputation in production, with competitive daughters and valuable progeny continuing to represent her influence. This package includes two sexed embryos sired by STAG Good Times 201 ET and one sexed embryo sired by PVF Capone 2104. Good Times brings the influence of SCC SCH 24 Karat 838 and SCC SCH Phyllis 6104 and has already proven to work on Callie in the Linhart program. Capone, a PVF DLX King Pin 0058 son, offers a different Angus option with an exceptional numerical profile and another opportunity to blend Callie's maternal power with elite Angus genetics. Three sexed embryos, two complementary matings and one proven donor make this a versatile genetic package.

ACT. BW:	72												

CELL Purple Rain 6007P brings together two of the most proven and exciting genetic pieces in this offering. He is sired by PVF DLX King Pin 0058, the Angus sire whose progeny have earned major banners and commanded attention in the sale ring, and he is out of CELL Cardi 1403J ET, a Riverstone Charmed daughter who was herself a champion and has already proven her ability to generate. Cardi's daughters have been successful in the show ring, and her influence continues to grow through high-valued progeny. That makes Purple Rain more than an interesting pedigree on paper—he is backed by cow families that have repeatedly produced the kind that compete, sell and go on to generate. His projected EPD profile adds another dimension, including a 68 WW, 111 YW and .50 REA. If you are looking for a young bull with the pedigree, genetic value and maternal backing to build around, study Purple Rain closely. We believe this one has the pieces to develop into a legitimate herd sire.

Affordable Success

5-YEAR FALL HARVEST HISTORICAL COST BREAKDOWN

TOTAL OPEN HEIFERS SOLD

14%		\$15,000 & Above
17%		\$9,000 - \$14,999
