PINEGAR
HERD BUILDER XXII

March 19, 2016
Springfield, MO

It is my pleasure to welcome you to our annual spring sale. It is an exciting time in the Limousin business. Our product continues to get better and better. With all of the new technology, guess work is becoming a thing of the past. We have all the tools to help us make the choice you want for your program. Strides of improvement, such as calving ease, fertility, docility, female longevity and carcass merits, have been made without loss of muscle and breed integrity. Limousin bulls are still one of the best choices for terminal cross for your females!

The crew and I strive to continue to give you, our valued customers, more and more predictability. If that means a bull for your commercial cows, we can deliver that to you, and then wait until you get the results in the flesh, you will be impressed! If you want a product with advertising and marketability qualities for your purebred operation, I feel we are near the top of the chart in product awareness!

We strive to give your cow family predictability. I have spent 25 years preaching this should be the number one goal if you are in the purebred cattle business; try to provide your customers with a dependable product to market and let them go from there!

Ty, Susie, James and the entire crew stand ready for your call or visit. We enjoy the Limousin business and Limousin breeders. See you on the 19th.

Morris

Lot 1 - **AUTO Power Plus 133B**

Morris

Lot 2 - **AUTO Power Line 135B**

AUTO Power Plus 133B and AUTO Power Line 135B are two big time herd sire prospects from the heart of the Pinegar Limousin program. Both are so much more than homozygous polled and homozygous black. They represent a remarkable mating and a very strong lineage that is predictable and prominent. They are sired by the leading Angus sire EXAR Denver and from the leading Linhart Limousin donor EF Yadda Yadda 809Y. She is a daughter of the two time national champion sire DHVO Deuce and from the proven donor MAGS Ruffles. It will definitely be a challenge to pick your favorite from these two full brothers. They both represent the correct structural soundness and proper movement that we so desire in quality seed stock. We admire their ideal frame score, their total body mass combined with their extreme thickness. They rank in the top 1% of the breed for total maternal, top 2% for milk with a 37 and REA with a 0.84.

AUTO Silverado 543B is one of the favorites of the select few cattlemen that have stopped by for preview prior to the sale. If you like your herd bulls to be moderate framed, packed full of muscle and very structurally correct then you will want to view this bull on sale day. He will be standing in a highlight pen on sale day with a crowd standing around him in admiration. He is sired by the leading purebred Pinegar sire AUTO Cruze 132X, the son of MAGS The General from AUTO Rebeca 292S. His calves are highly sought after and very much appreciated in all segments of the industry. LVLS 8713W is AUTO Silverado's dam. She is a daughter of Poss 112 and has been a solid producing donor in the Pinegar program.

These two purebred Limousin herd sire prospects have created a tremendous amount of interest in the breed and at Pinegar Limousin. They are some of the finest purebreds we have had a chance to experience in a long time in our breed. They are sons of the hottest purebred bull in our breed AUTO Cruze 132X. He is a proven son of MAGS The General from the many times national gold medal dam AUTO Rebeca 292S. The Cruze influence is very sought after across the breed and very admired and appreciated in the breed. These sons are from the elite and proven donor AUTO Luckie Too 423Y. She was grand champion at the 2013 Denver National Junior Limousin show and National Junior Heifer show. If your program needs the extra power, extreme thickness and the bred in predictability then we strongly urge you to take a close look her with these two up and coming breed leaders.

AUTO Curtain Call 179B is one of the big league herd sire prospects highlighted in this 22nd annual production sale. He is homozygous polled, homozygous black and offers so much that breed has strived to produce. He is a representative of exactly what the breed wanted created when they thought up "Lim-Flex". He is a result of the mating of one of the finest Angus sires, Connealy Consensus 7229, with the many times champion and once national junior heifer show champion female AUTO Luckie Too 423Y. AUTO Curtain Call 179B is so sound from the ground and up. We admire his foot size and fluid movement. He has the right mix of depth of flank along with that extra shot of thickness and still maintains a very prominent side profile.

AUTO Air Strike 116B is a full brother to AUTO Lucky Strike, the 2015 All American Futurity grand champion bull. He was a top purchase by Paul Sisemore of P Bar S Ranch, Sand Springs, OK in the 2015 Pinegar Herd Builder XX sale. From that sale time he later went on to be selected as the grand bull at the Futurity, one of the most prestigious shows in the entire breed. Sired by LH U Haul, one of the breed's biggest numbered bulls of the breed. His dam is AUTO Luckie 246W, one of the top show females ever bred in the Pinegar program. She won the '10 All American Futurity Grand Champion, '11 All American Futurity reserve champion and the '11 Ozark Empire Fair reserve supreme champion over all breeds '10 Missouri State Fair grand champion as a calf.

10	40	55	10	2	50	20	-	65	30	30	85	10	10	

AUTO Special Forces 148B is an extremely heavily muscled herd sire prospect that was bred and designed to be all that and so much more. This 50% Lim-Flex son of EXAR Denver has tremendous power and performance to him. His dam is AUTO Luckie 246W, one of the top show females ever bred in the Pinegar program. She won the '10 All American Futurity Grand Champion, '11 All American Futurity reserve champion and the '11 Ozark Empire Fair reserve supreme champion over all breeds '10 Missouri State Fair grand champion as a calf. This beef bull ranks in the top 2% of the breed for milk with a 37, top 3% for total maternal with a 71 and top 10% of the breed for marbling with a 0.39 and \$MTI with a 64.64.

Here are two full brothers that proudly represent a mating that are like no other in the business at the present moment. They both just happen to be full siblings to one of the breed's finest show females to ever step into the show ring in our entire breed, LH Belle 015B. She is owned and shown by Colt Cunningham, Rose, OK where she was recently named the grand champion female in the junior and open show at the 2016 NWSS Limousin shows. She was also the grand champion female of the 2015 NAILE Open show and countless other shows in her short show career. It has been said by many that she is one of the finest Lim-Flex females to ever be created. Her two brothers that are selling are sired by EXAR Upshot and are from the leading Diamond Hill Cattle Co., donor PBRs Touch Me Gently 798T. She is a daughter of DHVO Deuce from the national champion female Carrousel's Pina Colada. Whoever is the buyer of these two herd sires will reap the benefits of the promotion and notoriety of the success of LH Belle 015B.

AUTO Bullseye 176B is a black and polled 50% Lim-Flex beef bull that anyone will appreciate on sale day. This son of the highly syndicated sire EBFL Ypsilanti 420Y is from a GAR Predestined daughter from the national gold medal dam, ELMW Ginnie This "ready to use" herd sire prospect has performed very well in his life with a 72 pound at birth, 816# adjusted weaning weight and 1265# adjusted yearling weight. He also scanned a 16.42 for REA and 4.480 for IMF. The performance numbers are as good as you would want in a herd sire and we know you will appreciate his conformation on sale day. We really appreciate his combination of depth of body with more than ample amount of thickness and muscle. He represents all the things that are so right with the Lim-Flex breed of cattle.

AUTO Red Oak 140B is a big league red and homozygous polled bull that we feel will create a tremendous amount of interest in the business and rightfully so. He is a powerhouse of a bull. At every angle you look at him he is massive. From the ground up he is exciting and from behind he is very impressive. We admire his prominent stance and his posture. He is sired by PBRS Equinox, a big numbered son of LH U Haul and from a big numbered red Lim-Flex Pinegar donor, MAGS Hannah. This homozygous polled bull is solid across the board with a more than ideal set of numbers.

AUTO Red Roc 180B is a red and homozygous polled herd sire prospect that has a world of performance and power to him. He is a son of the big numbered CJSL Windfall and from the Pinegar red Lim-Flex donor, MAGS Hannah. He ranks in the top 2% of the breed for milk with a 37 and total maternal with a 72. We appreciate his moderate birth of 68 pounds, adjusted weaning weight of 815 pounds and adjusted yearling weight of 1,387 pounds.

AUTO Gateway 567B is a homozygous polled and homozygous black son of the breeds most sought after purebred bulls AUTO Cruze 132X. He is the son of MAGS The General and from the two time national gold medal dam AUTO Rebeca 292S. This 74% bull has a tremendous amount of growth and performance to him. He is extremely long bodied, level and square out of his hooks to his pens. His dam AUTO Belle 260U is a proven daughter of AUTO Blaque Label 176S from the now deceased donor Miss Gateway 1121J.

We are in hopes that AUTO Master General 555B follows the same footsteps as his father, AUTO Cruze 132X. AUTO Cruze happens to be the go to sire in the breed for purebred genetics, and his progeny are all that you can get your hands on because he is not on the open market. 555B and 567B are from full sibling dams and represent a very powerful and predictable lineage that has been very successful in the Pinegar program for years. This young bull is double homozygous and sure appears to have that look of that he can positively change a calf crop for the better.

AUTO Tidal Wave 551B is very powerful made Fullblood herd sire prospect. He is a son of ENGD Unbridled 832U and from a daughter COJR High Tide, a once highly syndicated Fullblood sire. This beef bull ranks in the top 1% of the breed for REA with a .95 and top 4% of the breed for weaning weight with an 81. We admire the clean front end, strength of top line and soundness found within this herd sire prospect. If you are interested in elite Fullblood genetics then we invite you to consider this beef bull.

MAGS Angel 9748W, dam of Lot 28 & 29.

AUTO Final Answer 110C is a 75% Lim-Flex red and homozygous polled son of FC Angels Answer. He is the big numbered CJSL Windfall son owned by Fosdick and Legacy Farms. This red and homozygous polled beef bull is a full brother in blood to the two previous lots. If you are looking for a stout made and very well made 75% Lim-Flex beef bull then consider this young bull.

MAGS Hannah 9726W, dam of Lot 30.

These two full brothers represent a progressive and prominent mating. They will be some of the first sons of MAGS Anchor to be offered for auction. He is the highly syndicated sire and one of the top breeding bulls in the breed. Their dam is the two time national gold medal dam and one of the most highly recognized donors in the breed and for Pinegar Limousin, AUTO Rebeca 292S. We love that these bulls are double homozygous and represent one of the most prominent matings created at Pinegar Limousin.

AUTO First Act 100C is one I know we are all going to appreciate on sale day. He is a known son of the two time national gold medal dam AUTO Rebeca 292S. She has produced countless champions and breed leaders over the last few years. This double homozygous bull is sired by the purebred Angus sire EXAR Classen and proudly represents a very strong Lim-Flex mating. This herd sire is huge footed, soft pasterns, extended up through his front end and long and level down his top line. We can only imagine the future calves from this well made sire.

Due 4.02.16 to AUTO Cruze (HB/HP)

AUTO Ada 420A proudly carries the AUTO prefix and is a result of the 20 plus years in the cattle business. She is a 59% Lim-Flex double homozygous heifer straight from the keeper pen at Pinegar Limousin. She is a known daughter of AUTO Rebeca 292S, the elite donor that is recognized by many as being one of the very finest Lim-Flex donors in the entire breed. She is a daughter of LESF Apshalt and from the once \$50,000 valued donor EXLR Rebeca 1019P. AUTO Ada 420A is sired by the big numbered LH U Haul135U. He is the leading sire for Hall Cattle Co. and Diamond Hill Cattle Co. This female is made as perfect as you would ever want and is one of the finest from Pinegar. She proudly kicks off the female offering of this 22nd annual Herd Builder Sale. The added bonus you get with this female is the fact that she is bred to the breed popular purebred bull AUTO Cruze. The resulting calf will be double homozygous and will represents a lineage beyond compare.

Due 4.01.16 to AUTO Cruze (HB/HP)

AUTO Breyell 259B is a full sister in blood to the '14 Denver National Champion Lim-Flex female, AUTO Mabeline 267Z owned by Mikah Edwards in Missouri. This female scanned a 12.58 for adj. REA and 5.12 for adj. IMF. She is solid in EPD profile and well above average in most of her traits. She is a daughter of the breed great MAGS Manuela. The Manuela influence in this breed has been unreal to say the least. The Manuela daughters seem to have such an impact in the show ring, pasture and then in the market place. The blending of Connealy Consensus 7229 with MAGS Manuela seems to be a magical one in the creation of this female and her select few full sisters. She sells bred to the Pinegar purebred herd sire AUTO Cruze that has created such a buzz in the breed.

Due 4.18.16 to MAGS Bradford 2201B (HB/HP)

AUTO Breranne 208B is one of the highlight lots in this 22nd annual Herd Builder Sale. She is a daughter of the breed popular MAGS Y-Axis. He is the leading Englewood Farms and Magness Land & Cattle Co. son of TC Aberdeen. His progeny have been some of the most popular and sought after genetics in the breed over the last couple of years. She is a known daughter of MAGS Manuela, the breeds leading purebred donor. She is responsible for creating some of the very best females in the breed. They have topped sales, won shows and created some of the finest progeny in the business. This young first calf heifer has the EPD profile, the predicated and notable pedigree and for sure the unique profile. She is absolutely perfect in her design and profile.

Due 4.02.16 to AUTO Grand Sport 578A (HB/HP)

AUTO Bristal 261B could easily be one of the finest purebred females to ever be created in the Pinegar program. She is a daughter of MAGS Xylopolist. He is a son of DHVO Deuce from the famed MAGS Strawberry female. Her dam is MAGS Manuela, the breed leading and money generating donor. So many things lined up in the right direction to make this female great. She has only the breeds greats stacked up and blended together to create such a great female. Not only is the pedigree amazing with this female but her design and conformation is superb. She is so clean up through her front end, smooth as silk down her top line and very appealing in her rump structure. She is clean in her lines and very appealing from the side profile. She sells bred to AUTO Grand Sport 578A, the top purchase in the '15 Pinegar Herd Builder sale by Jones Brothers in LaMonte, MO.

Due 4.02.16 to AUTO MAGS All-Star (HB/HP)

Oh boy! Take a look here at this unbelievable 71% Lim-Flex first calf heifer. She is a daughter of one of the biggest numbered bulls in the breed LH U Haul. AUTO Butterfly is maternal sibling to the highly syndicated bull and now top breeding bull for Council Family, CFLX Wild Card. We admire and appreciate the amount of rib shape and volume that this female has. She is extreme in her depth, extra thick made and very substantial from the ground up.

These two full sisters represent a progressive and prominent mating from the heart of the extensive embryo transplant program at Pinegar Limousin. They are sired by the breed leading and highly syndicated sire EBFL Ypsilanti 420Y. He is the big numbered son of TC Freedom from the once national champion MAGS Ramada. Their dam is one of the big time purebred red donors that highlighted the Pinegar program for years. She is a proven and predictable daughter of EXLR Dakota 353G.

The 75% Lim-Flex females are made very similar and have the scan data and strength in EPD's to add value to any program. They rank in the top 3% of the breed in milk with a 35.

This 50% Lim-Flex heifer is polled and homozygous black and we think made extremely well. She is a full sister to many of the top selling bulls in the 21st annual Pinegar Herd Builder sale last year. She is a daughter of the big numbered Angus sire SAV Brilliance 8077 and from AUTO Manuela 298S. She is the Council Family and Pinegar partnership donor that continues to produce excellence with each mating. She has really out done herself with this first calf heifer. We admire her ease of movement, structural correctness, feminine front end and then her design from the side profile.

Due 3.30.16 to MAGS All-Star (HB/HP)

AUTO Boey 620B is so striking in her stance and very prominent when she is with her contemporary groups. She is a 62% Lim-Flex first calf heifer that is double homozygous. Sired by the big numbered sire MAGS Y-Axis, the big numbered son of TC Freedom. Her dam is a daughter of DHVO Deuce that was bred in the Council Family Limousin program. This young heifer ranks in the top 10% of the breed for YW, MA and TM and still solid across the board the other important traits.

Due 8.28.16 to AUTO Cruze (HB/HP)

AUTO Moonshine 280B has already earned blue ribbons and proven herself a winner at the National Western Stock Show, very rarely does such an opportunity arise to buy a Denver class winner before her show career is over. The purebred donor female of "Moonshine" is EF Yadda Yadda 809Y who has proven to be a can't miss female in production and in the show-ring, claiming many titles including the 2012 grand champion banner at the 2012 MAGS Junior Jackpot Show. Sired by National Western lead-off bull of the Champion Angus Carload of Express Ranches, EXAR Denver.

Consigned by Cody Heavin

Due 9.02.16 AUTO Cruze (HB/HP)

We are pleased to be able to offer this ET daughter of one of our young, promising donors who is a past American Royal division champion, AUTO April 202A. This granddaughter of MAGS Manuela is a spectacular female in her own right, she certainly is on the path to making a stand out females especially after she enters production in September. Sired by MAGS Robin Hood, a MAGS Ur A Robin son who brings tremendous growth to the table. AUTO Robinette is homozygous polled / homozygous black.

Here is a full sister to a top lot that sold last year to Aaron Linhart, Leon, IA. EXAR Classen 1422B is such a tremendous option for the Lim-Flex population, he allows us to access the superior genetics of the rare valuable Dameron First Class. The traits of First Class are so very evident in the cattle that he has influenced, they are straight lined, well-balanced and exceptionally sound. This particular female is such a special breeding piece out of the world famous, MAGS Manuela.

Due 8.18.16 to LH Advantage (B/HP)

With great respect for the Lance Hall program, we thought it would be an intriguing cross to mate this LH U Haul 135U out of MAGS Manuela to the homozygous polled LH Advantage. "Advantage" is rugged and massive, syndicated A.I. sire that was highlighted in the 2015 National Limousin Sale in Denver. AUTO Bryse 212B is in the top 10% for \$MTI and top 10% for MB epd, as well as posting a CED of 11 and 102 for YW epd. This female has always been one that has drawn our attention for her massive rib, exceptional thickness and overall broody look.

AUTO Paige 289B has been a numerical stand out since birth, she hit the ground at 63#, came off her recip at 709# and at yearling time she calculated an 108 ratio. She is so typical of our SAV Brand Name daughters, they are truly solid beef cattle that are bred for longevity, productivity and mating flexibility. Bohi Top Dollar, Carrousel Pina Colada, MAGS Ukalani and MCBN Tranquility Brown are just a few names of the dozens of legendary cattle that stem from the same cow family as Carrousel Peaches. Owing direct progeny of 4330P is the dream and goal of many long-time Limousin breeders. Here is your chance to invest in a piece of history.

Lot 66A - **AUTO Brockle 298B**

Selling the choice of AUTO Brockle 298B and AUTO Dreamy 295B are absolutely stunning daughters of AUTO Luckie 246W who is the phenomenal dam of AUTO Lucky Strike, CODY Commander and many of the lead off bulls in our 2015 sale. Both Luckie 246W and Lucky Strike were All-American Futurity winners. These AUTO Luckie 246W daughters are sired by EXAR Denver, one the highest valued sires in the entire beef industry at \$1,200,000. "Denver" is siring champions and sale top-pers on a weekly basis in the Angus breed and in numerous composite breeds as well. These females are particularly well balanced, eye appealing and ideal in their hind leg structure. We especially love the top and hip shape that they have.

AUTO Pepsi 412B is a 37% Lim-Flex double homozygous female that has a world of potential not only in the show ring but also in production. She just happens to be the result of one of the most progressive matings ever established by the Pinegar program. Sired by the leading Angus sire EXAR Classen 1422B and from the once national gold medal dam and leading Pinegar donor, AUTO Rebeca 292S. Her progeny have dominated the show ring the past few years and rightfully so. This heifer proudly represents a lineage that speaks volume for success in the business

The crossing of the genomic power. LH U Haul with the phenotypic prowess of AUTO Rebeca 292S has yielding such desirable results. 224B is homozygous polled and possesses a prestigious pedigree that is time tested and true. Each and every year the 292S offspring top sales and make their way to backdrops across the countryside, we wouldn't expect that "Berklee" and her progeny will be any different, she also has the added value of being in the top 10% for MB and \$MTI.

Due 9.02.16 to MAGS All-Star (HB/HP)

AUTO Shalimar 286B stems from the same prestigious cow families that produced Adam Griffith's National Junior Show Champion, AUTO Bette and her \$30,000 flushmate, AUTO Bliss and AUTO Rebeca 292S. 286B's dam, AUTO Bette has in fact been described as an absolutely rockstar of the showing due to her overpowering mass and substance, she has substantial foot size and bonework, a ton of volume yet still held herself together elegantly though her 1/3, just like her daughter. She is totally capable of producing superb show cattle and replacements alike.

Ooooooh ... wow, check out the four grand parents in this female's pedigree! GAR Predestined, AUTO Rebeca 292S, DHVO Deuce, MAGS Manuela are all the very finest cattle in their respective breeds and hybrid derivatives. Millions of dollars in sales and hundreds banner have been produced by the genetics of these exceptional individuals. These influential cattle are trusted to produce the finest and have proven themselves over and over again. There aren't enough pages in this catalog to expound upon these industry greats; two of which are donors who we attribute much of our success here at Pinegar Limousin. AUTO Calamity Jane is polled and homozygous black, as well, she excels in actual YW with a scale reading of 1,212 pounds.

From time to time, we have females that are youthful in their appearance and look extremely fresh at picture time and then each and every day after that, they stouten up, belly down and really start to come in to their own...and from time to time, knowledgeable cattlemen find these heifers and develop them into champions. We feel that AUTO Carmen 243C fits that mold perfectly. Her elegant and youthful head and neck, her strength of top and her perfectly blended pieces make her one that is easy to tie to as a serious show contender. Her grandsires are the two top bulls in the Angus and Limousin breed for producing show cattle, Dameron First Class and DHVO Deuce.

2015 American Royal Division I Champion

This female has already dawned a leather halter and graced the back-drop at the American Royal when she won her division this past fall. She is an absolute sweetheart and has a tremendous showing appeal, she stop pops her head up and is a no miss female from the judges perspective and ringside. Her future is so bright and will be quite the ride for her new owner. This mating of PVF Insight and with the time tested EXLR Molly 7103K is destined to prove a success. EXLR Molly is one of the most dominant females to stem from the famous JCL Molly lineage.

2016 Denver National Western Limousin Show class winner

"Casper" has been a favorite amongst the crew here in the showbarn since the first time she had a halter on her, needless to say they have pretty good taste and she went on to win her class at the National Western Stock Show in January. The way that her neck is so slender and long, with such a refined and youthful head makes her one of the most eye appealing females in this year's offering. Her dam is a past All-American Futurity champion and there is no doubt that this EXAR Classen daughter will hang some banners and add décor to the memory wall. In addition to her first class phenotype, she is in the top 20% for MB and \$MTI.

This heifer is very much patterned like her maternal sister that the Ochsner Family of CO won Denver with in 2015, AUTO Amerie amongst nearly 95 other progeny. Carrousel's Peaches has flushed great for us and her daughters exhibit the same strong fertility traits. "Cluster" is perfectly designed down her top, offers flexibility to her spine and levelness to her hip. PVF Insight has recently been the go-to sire in the Angus breed for show ring appeal without sacrificing birthweight. We feel that you will be impressed with the "Insight" progeny and leave here thinking about using him in your own program. Individually speaking, 220C is negative for birthweight and over 100 for yearling weight and in the top 2% for REA EPD.

This homozygous polled and red daughter of PBRS Equinox is from the same cow family that produced Bohi Top Dollar, Carrousel's Pina Colada and Stower's donor, SSTO Watercolors. Through the ELMW Ginnie P58G lineage, a tremendous amount of quality is passed down and apparent in "Cori." Through the planning process we were excited with this mating of the power found in PBRS Equinox and the maternal look of Carrousel's Peaches.

2015 American Royal Reserve Division Champion

2016 Denver National Western Junior Limousin Show class winner

If crossing the finish line is the goal for you and your family for this upcoming show season, we encourage you to study the angles and opportunities in this fine female. She is like fine wine, she just keeps getting better with age, at her debut in Kansas City she was reserve in her division and her second time on the road she won a very competitive class in Denver. These EF Xcessive Force cattle are so unique and offer so much breeding flexibility. We deeply admire the muscle and softness of them; in addition they typically are great haired cattle that makes showing them that much more enjoyable.

Attention Juniors if you are wanting to have an advantage out of the starting gate when you walk into the showing in Lexington this summer, this heifer will give you just that! My goodness, look at the arrogance that this heifer portrays! Not only is her rocket fronted make her look absolutely incredible, but it makes us think that she will be such a great showmanship heifer as well. To put it in teen terms, she is "spot on" every time you look at her. We could write paragraphs about "Cooper's" killer profile, lines and angles, but we need to take a few moments to focus on her proven pedigree. She is sired by past National Western Champion, EF Xcessive Force and out of a JCL Lodestar X MAGS Manuela daughter.

This past fall, there was a record setting offering at Sullivan Farms with guest consignors, Sugar Bush Cattle, one of the lead off females was a full sister to AUTO Canapy 225C which sold to P Bar S Ranch, OK. The sire of this exquisite flush is PVF Insight, his depth of rib, size of foot and his "soft look" are traits that so nicely blend with the length of side, elegance and additional grow that is found in the Manuela cow family. "Canapy" has the look of a future donor female and the pedigree to be a foundation type producer. Furthermore, she is in the top 15% for MB epd and \$MTI.

Being one of the only Lim-Flex females that we are offering with a Red Angus sire in 2016, we wanted to make sure she was a good one! Red Lim-Flex are gaining popularity due to the exponential increase in the demand for Red Angus in the Beef industry, the quality of Red Angus bulls available for utilization in our ET program is nearly overwhelming, however we agreed upon PZC RMAS Red Zone 2795. Red Zone is the son of one of the most impressive Red Angus females to ever be created, Whitestone Lana V150. AUTO Cresent 215C is an own daughter of MAGS Manuela.
