Prime Time International Wagyu Sale
Waukesha, Wisconsin
Saturday, August 6, 2016
Prime Time International Wagyu Sale
Saturday, August 6, 2016      Waukesha, WI

Dear Wagyu Enthusiasts,

It is with great pleasure that all of us at R & R Marketing Company welcome you to the first ever Designer Wagyu Prime Time International Sale. Brian Greenman and his family have worked diligently for the past year in developing, planning and promoting this sale. We are proud to have been involved in the branding and marketing of this event with Designer Wagyu. Owner Brian Greenman and his family are joined in this event with only the finest propagators and promoters of Registered Fullblood Wagyu. All consignors have made a concentrated effort to offer only the very best to showcase in this event and to properly market and highlight this wonderful and most popular breed of cattle. We are very confident as you read thru this sale catalog that you will be pleased with what we have to offer. We think they are genetics that can highlight any program at any level and for sure bring attention to any farm that is just starting or has been established in the breed. As we know the Wagyu breed is very popular around the world and rightfully so. This first ever sale features only non-recessive Fullblood Wagyu cattle. They represent genetics from cow families and lineages that are not readily available in the United States. If we can be of any assistance with your questions or purchases in this sale please don’t hesitate to call as we enjoy talking and promoting seed stock.

Sincerely,
Randall O. Ratliff
R & R Marketing Company

[Image and text related to schedule of events]

[Image and text related to schedule of events]
TERMS: All cattle/genetics must be paid for immediately after the sale. Checks should be made payable to R & R Marketing Company. Credit cards are also accepted, and a processing fee will apply. Cattle/genetics will not be released until proper settlement has been made.

SPECIAL TERMS: (cattle/genetics for export)
Lots and genetics that are sold for export must be paid for at the time of the sale. There will be a representative of a forwarding company on hand to assist in this matter. It will be the responsibility of the buyer of these cattle/genetics for export to make arrangements with the seller for the care of the lots or genetics after the sale. Buyers will be responsible for any layover costs following the sale.

BREEDERS GUARANTEE: Every lot in this sale is, to the best of the seller’s knowledge, sound and free of any disease. Pregnant cows and cows with calves are considered breeders without further guarantee. All consignors will guarantee all open heifers to breed, however please keep in mind that the animal’s condition influences their fertility greatly. If there is a problem, we will work with you in the most professional manner. Open heifers that have been in embryo transplant/IVF are not guaranteed. Open heifers on intensive show diets are not subject to guarantee.

DISPUTES: The auctioneer in charge will settle any bid disputes. The decision of the auctioneer on such matters is final.

HEALTH: All necessary health papers will be provided for the purposes of shipping cattle and genetics anywhere in the U.S.

EXPORTS: Cattle/genetics sold for export to foreign countries must, by state law, test for diseases flagged by the country receiving the animal after the sale is made. The seller will be responsible for this testing.

ANNOUNCEMENTS: Any announcements from the auction block will take precedence over the printed material, this catalog and all other printed advertisements.

LIABILITIES: All persons who attend the sale do so at their own risk. Designer Wagyu and Brian Greenman, including the sale manager, assume no liability, legal or otherwise, for any accidents that may occur. Seller accepts no liability for the lots after they are sold. Insurance will be available at the sale for cattle/genetics upon the buyer’s request.

CONTRACT: The above terms and conditions shall constitute a contract between the buyer and the seller of each lot sold.

HANDLING: As the sale takes effect, all lots are under the buyer’s risk.

Full siblings in blood to Bar R Shigeshigetani 30T.

We could not be more thrilled to have Southern Cattle Company be involved with this first ever sale. Highlighting this are full sibling embryos to one of the breeds most prominent sires, Bar R Shigeshigetani 30T. He is the breed’s #1 ranking bull for ribeye, #1 for carcass weight, #2 for back fat and #8 for marbling in the 2016 Wagyu sire summary. Owned by Bar R Ranch, Jerry Reeves a well-respected Wagyu breeder has created this breed leader where his progeny are very well sought after. Southern Cattle Company owns Bar R 68P, the dam of 30T. She is a daughter of Bar R Michisuru 2K from a daughter of Blue Rock Haruki. Lot 1 will give you a chance to own six embryos that will be full siblings in blood to 30T. These embryos have not been made yet. Exportable.

Consigned by Southern Cattle Company, Marianna, FL

Lot 2

SIX EMBRYOS from BAR R 68P

Selling six IVF embryos from Bar R 68P and sired by the bull of the buyer’s choice. Exportable.

Here is an opportunity to get the premier maternal genetics from one of the breed’s top Fullblood Wagyu cows, Bar R 68P. She is the dam of the breed’s most popular Fullblood Wagyu bull, Bar R Shigeshigetani 30T. He is the breed’s #1 ranking bull for ribeye, #1 for carcass weight, #2 for back fat and #8 for marbling in the 2016 Wagyu sire summary. Southern Cattle Company Mr. Downs is giving the buying public an opportunity to use the bull of the buyer’s choice on an embryo flush to the dam of 30T. Purchase agreement, Buyer supplies flush quality semen, Southern Cattle Company will pay to have the embryo transplant work done and create 6 embryos. Any embryos beyond 6, the price will be negotiated between the buyer and the seller.

Southern Cattle Company wanted to be creative with the genetics from their leading Fullblood Wagyu donor, Bar R 68P and they have done just that. Why not take the breed’s #1 sire and mate him back to his mother for a little line breeding? The genetics from this mating will for sure be tight and very well aligned but strong with predictability. Buy with confidence and we welcome your inquiries as to this unique mating.

YCB ALZAKIKU KYOKO 3601-10 (FB11980)

Kumiko is a high marbling and high type female from the Anio 6 cow family, and one of the highest type females in the breed. She has proven herself as an excellent show animal. This cow family has produced highly scored bulls used to increase frame and milking ability. This family’s genetics has been used on Tajima to provide more milk and increase their mothering abilities. Kumiko’s 5th dam is the genetic powerhouse Aino 6 cow who produce many elite wagyu animals. Her offspring has some of the best rumps that the breed has ever seen, supporting their udders to provide excellent milking abilities. Tsuhana 2 was one of her famous sons. He made great framed cattle along with strong maternal abilities, solid milking, and big powerful mature cattle. Kumiko won her class at World Beef Expo in 2015 and is out of some of the biggest framed cattle we have ever seen. She is by far the tallest yearling that has ever been at Designer Wagyu. In her direct pedigree you will find Itomichi appear multiple times as her dam is sired by the great Itomichi 1/2 who is a son of Itomichi. (The great Aino 6 is also sired by Itomichi.) Itomichi’s genetics bring in the high type along with good frames which has been passed on to Kumiko who excels in these traits as well as strong growth and milking abilities. Kumiko is sired by WORLD K’S SANJIROU (FB2501) and could be one of his most correct daughters. Her offspring will soon be born and we predict that they will have excellent growth and large framed traits like her and her family.

Ms Mich 109 is a direct maternal granddaughter of the incomparable breed icon, Suzutani. Her dam, Suzutaka 2, is a maternal sister to several of the elite genetic AI bulls in both the USA and Australia, including Sanjirou and Shigeshitani. She is a full sister to leading Australian sire Shikikan. The genetics of the Suzutani maternal line are in demand by top breeders. A maternal brother to Ms Mich, Stonyrun Ichiro, sold to Larry Tebben, TX, for $12,500 at the 2016 Denver sale and two full sisters to Ms Mich sold for $18,000 and $17,000 at the Belcampo dispersal to Golden Age Farm in Kentucky. Golden Age Farm consigned a Harukii II son of one of these full sisters to the Passion for Prime sale in June that sold for $17,000. The embryos of this consignment will be 100% the same blood as that sale topping bull! These embryos qualify for export.

- SARASON (FB6067)

Suzito is a cow with outstanding phenotype and an even more impressive pedigree. She is the only recessive free Itozurudoi TF 151 granddaughter of the legendary Suzutani. Suzito has an outcross pedigree from this line bred by Takeda Farms include TF Itomichi 1/2 and TF Miyushikokura 149. Suzito has a rare recessive free pedigree containing the great TF 151 x TF 148 combination. The Hikokura line is known for it’s combination of size, growth, and quality carcasses. A full sister to the dam Hikokura 15 sold for $16,000 at the last Lone Mountain sale and a cow that is 100% the same blood as her dam was the co-top of the Belcampo dispersal at $19,500. These embryos are sired by the great carcass bull, Michifuku, who was previously the $1 Marbling sire in the US and transmits great rib eye size. These embryos present a great chance to tie into top Takeda genetics! Eligible for export.

- UTAMORITAKA J2703 (FB681)
- CHR KIKUHANAHIME (FB3311)

Sara P sold as the $19,500 co-top of the Belcampo dispersal. She is from the Okutani maternal line which is one of the elite lines imported from Japan by the current World K group. Okutani is the dam of two outstanding Haruki II full brothers, Beijiro and Genjiro. Sara P traces back to Fujiko, who is the tremendous full sister to these bulls. Sara P has proven her value by being an excellent flush cow and her genetics are in great demand with embryos being exported to South Africa. Sara P is a favorite because of her large frame and great body capacity. These embryos are a great opportunity to get into a superior genetic maternal line which has proven itself many times with outstanding offspring in top herds in the US, Canada, and Australia. There are several progeny of the Sara P x Sanjirou mating born that are SCD AA. These embryos qualify for export.

Suzito is a cow with outstanding phenotype and an even more impressive pedigree. She is the only recessive free Itozurudoi TF 151 granddaughter of the legendary Suzutani. Suzito has an outcross pedigree from possibly the most potent carcass line in the breed. Her dam is a maternal sister to breed greats Sanjirou and Shigeshi getani, and full sister to Australian leader Shikkan, making Suzito one of the most genetically valuable cows in the breed. A cloning opportunity of Suzito sold for $19,000 and her full brother Ichiro, sold for $12,500 at the 2016 Denver sale. The embryos are sired by breed leader Shigeshi getani. Several progeny from this mating have tested SCD AA and Tenderness 7. The embryos qualify for export and represent an unbelievable opportunity to acquire Suzutani genetics!

MFC Kimitofuki 434B, sire to Lot 15 embryos.

The sire of the embryos is intensely concentrated Takeda (Fujiyoshi) breeding. With two crosses to Kimifuku 3, a top marbling Takeda sire and a maternal family going back to Ezokintau, a Japanese Champion cow, here’s a one of a kind combination. The donor dam has more Fujiyoshi on the top and Kikuyasa 400 and Kitaguni JR on the bottom. Embryos F.O.B. GenOvations, Lodi, WI.

Planned Matings

Buyer Choice of Matings

Wing Dingers Texas DBA, Wagyu 100 is offering the rare opportunity to bring foundation genetics into your herd from foundation sires whose semen has become not just limited but nearly non-existent. All our matings have foundation sires on the top of the pedigree and daughters of foundation sires on the bottom of the pedigree. At this time we are offering the Buyer the choice pick in each lot. Buyer will be given the ear tag numbers of the three Trans Ova recipients carrying each mating. Recips are all 60 days plus safe in calf. Seller will calf out the recipients on our East Texas ranch. At 60 days post birth buyer must choose which calf they will take. Seller will hold calf till weaning at 4 months. Seller will pay 50% at close of auction, 25% upon choosing calf and 25% at pickup. All embryo work was done at Trans Ova Texas and Iowa. Seller guarantees DNA confirmation and will register all calves with the AWA. Seller retains 10% interest in semen on all bulls.

This calf resulting from the pregnancy will bring outstanding marbling, high carcass weights, and high type. This calf will be the complete package that you can breed from and have excellent transmitting power.

Bay Mak Mana 129 is from the elite Hisako cow family which is known for high quality meat traits including extremely high marbling. To our knowledge, Mana’s dam, Misami, is one of the highest; Mana’s second dam, Misako, one of the highest marbling cows tested (as far as we know). Her sire YCB ITO MAKOTO 5626 (FB11765) is a high type son of TF ITOMICHI 1/2 (FB2126). Mana is a very impressive individual and has the long wide loin that is needed to produce high value Wagyu carcasses with high steak value. Her genetics and offspring (who match her in wide loin) are sought after by breeders from around the world. Her sons will be entering stud and will help to improve carcass quality into the next generation.

Bay Sanj Kumiko 147-ET, dam of Lot 24 planned heifer mating.

Kumiko is a high marbling and high type female from the Anio 6 cow family, and one of the highest type females in the breed. She has proven herself as an excellent show animal. This cow family has produced highly scored bulls used to increase frame and milking ability. This family's genetics has been used on Tajima to provide more milk and increase their mothering abilities. Kumiko's 6th dam is the genetic powerhouse Aino 6 cow who produce many elite wagyu animals. Her offspring has some of the best rumps that the breed has ever seen, supporting their udders to provide excellent milking abilities. TF Itohana 2 was one of her famous sons. He made great framed cattle along with strong maternal abilities, solid milking, and big powerful mature cattle. Kumiko won her class at World Beef Expo in 2015 and is out of some of the biggest framed cattle we have ever seen. She is by far the tallest yearling that has ever been at Designer Wagyu. In her direct pedigree you will find Itomichi appear multiple times as her dam is sired by the great Itomichi 12 who is a son of Itomichi. (The great Aino 6 is also sired by Itomichi.) Itomichi's genetics bring in the high type along with good frames which has been passed on to Kumiko who excels in these traits as well as strong growth and milking abilities. Kumiko is sired by WORLD K'S SANJIROU (FB2501) and could be one of his most correct daughters. Her offspring will soon be born and we predict that they will have excellent growth and large framed traits like her and her family.

Prime Time International Wagyu Sale

Heifer pregnancy that sells with the recip, which is one of the top recip animals from the Designer Recip program. Guaranteed heifer pregnancy that can ship at 90 days of gestation. 50% down sale time; 50% when the pregnancy is at 90 days. If lot sells over $7,500, recip can calve at Designer free of charge and both recip and heifer will ship to buyer when the pair is able to.

Bay Shige Miki 118 is from the elite Hisako cow family known for high quality meat traits including extremely high marbling. To our knowledge, Miki’s 2nd dam, Misami, is one of the highest marbling Wagyu tested; Miki’s 3rd dam, Misako, is one of the highest marbling Wagyu tested (as far as we know). Miki is the complete package-high in type and marbling genes. Her sire is one of the greatest powerful genetic bulls the breed has ever seen. He brings consistent marbling traits with quality throughout. Miki has the genetic power to be one of his best daughters. She was named Grand Champion Cow at World Beef Expo in 2015. Her offspring are proving her transmitting power and are as correct as Miki is.

CD: AA Terminal Index of $281 GH EXON 5 GENE TYPE: BB Z278 is the product of the three elite Westholme bulls; his sire is the great ETJ001 whose sire Dai 20 Hirashige is one of the top 15 bulls in Japan. His dam is by ETJ003 who is out of a daughter of the high milk and meat trait bull, ETJ002. Z278 has grown into a big bull, that is balanced and correct. He has reached a weight over 2200 lbs and frame score is an 8. He has been used in Australia, North American and Mexico with great results. He is one of the top carcass weight bull in the 2014 Research EBV’s, and moreover, he is a trait leader in growth, milk, testicle size and EMA. He is currently being used as a sire of sons at Designer and other leading programs as well as having high contract interest for making embryos for export. His unborn sons are currently being contracted for stud and (as well as semen for export). With being GH EXON 5 gene type BB, he is the only bull with semen for sale in the U.S.A. that has this very elite and rare trait. His offspring have the ability to increase carcass yields more so then any other bull that we know of because of this rare gene type. His demand for siring the next genetics to for breed and meat production sons is very high. In addition, he was the sire of the winning carcass in the 2014 Branded Beef Competition, Grass Fed Class.

Abe is sired by one of the hottest bull TAKAMICHI DOI (FB7970). He is a double Misako and with the marbling power along with his extreme growth you cannot go wrong. His dam is the great brood cow BAY SHIGE MIKI 118 (FB16081) who continues to stamp out the legend makers! At five months of age he stood over 47 1⁄2 inches tall at the rump! He is on track to be hard not to miss in the Supreme Champion drive at any National Show! His dam, Bay Shige Miki 118, is from the elite Hisako cow family known for high quality meat traits including extremely high marbling. To our knowledge, Mana’s dam, Misami, is the one of the highest; Mana’s second dam, Misako, one of the highest marbling cows tested (as far as we know). Miki is the complete package - high in type and marbling genes. Her sire is one the greatest powerful genetic bulls the breed has ever seen. He brings consistent marbling traits with quality throughout. Miki has the genetic power to be one of his best daughters. She was named Grand Champion Cow at World Beef Expo in 2015. Her offspring are proving her transmitting power and are as correct as Miki.

AA-10, Recessive clean and a balanced pedigree with a Tajima top side and a Takeda/Fujiyoshi maternal line for longevity, growth and frame. (EU qualified semen, when available [late summer])

Consigned by Muddy Flats Cattle Co., Augusta, WI

**Bay Ito Macho 177**

BW: 65 lbs.; YW 965 lbs.

Start with a three generation sire stack of the greatest marbling bulls to ever leave Japan, 068, Michifuku and Itoshigenami. Add in a powerful dam by Itoshigefuji (TF147) for growth and frame and top the pedigree off with a son of the breed leading maternal traits sire, Itomoritaka (002).

Finally, a grandson of Misako whose marbling MVP was 1.01 and a great-grand son of Misako whose marbling MVP was 1.03. The exciting result is a tested recessive clean young super sire with a AA-10 score for SCD and tenderness. (EU qualified) (CSS Semen)

Consigned by Baycroft Wagyu, De Pere, WI

AA-10, recessive clean and a double Sanjirou pedigree could jump start your wagyu pedigrees. Add in the outcross Nakagishi maternal line and you have a special cross. (CSS semen)

Consigned by Muddy Flats Cattle Co., Augusta, WI

Bay Kiseki 87-ET, dam of Lot 47.

Bay Hero Kiku 172 FB20098 and her dam were the Grand Champion Cow/Calf pair at the first World Beef Expo Wagyu show in 2015. Kiku 172 continues to develop as a yearling and is entered for the 2016 World Beef Expo.

The sire “Hero” carries 14 crosses to Dai 7 Itozakura. His dam “Hoshi” lived past 17 years of age, and is from the Ezokintau Championship Japanese family. Hero also sired the top seller of the European Wagyu Gala at 27000 Euro.

Kiku’s dam, Bay Kiseki 87-ET FB12431, AA-7 is a powerful daughter of Hirashigetayasu (001). 001 Australian Breedplan EBV’s for Milk +8, and Mature Cow Weight +56. Kiseki echos these numbers. She is from the high marbling family of Misako FB6758.

This heifer has Fujiyoshi, Kedaka, and Tajima greats in the pedigree and looks the part of a show winner this fall. Recessive clean and carries service to CHR Hirashige Tayasu 533 (FB13499) sexed female semen.

WORLD K’S MICHIFUKU (FB1615)  HISAKO (FB5767)

Bay Itomichi 1/2 Mi 171 ET FB20097 will be entered to show at the 2016 World Beef Expo. Few bulls sire the consistent frame, size and perfect feet and legs like Itomichi 1/2, the sire of Mi 171. Itomichi 1/2’s Australian Wagyu Association Breedplan EBV for Milk +12 and Index Value +$207 compared to Breed Average of $118.

The maternal line of Mi-171 combines the elite marbling sires that have made the wagyu breed famous. Itoshigenami, Michifuku, and Fukutsuru 068 have each been at the top of marbling rankings in the USA and Australia.

Recessive clean, Mi 171 is a VA-7 for SCD and tenderness, and will be bred to sexed female CHR Hirashige Tayasu 533 FB13499 semen. This balanced pedigree for growth and marbling allows the new owner unlimited opportunities for next generation matings. Misami and Misako have both been embryo donors for the EU market.

Consigned by Baycroft Wagyu, De Pere, WI
Stud Shig-Yuriko 148NB, Lot 49

Sells open and ready immediate reproduction. This Shigeshigetani daughter is from the Yuriko maternal line which has produced the current #1 Rib Eye and #1 Hot Carcass Weight sire, Bar R Shigeshigetani 30T, on the current WSU National Sire Summary, as well as the current #5 Marbling sire, Michiyoshi. Her maternal grandsire, Fukutsuru 068, is the current #1 Marbling bull on the Sire Summary making this heifer a fantastic opportunity to acquire breed leading genetics to build a superior herd. She sells open and ready to breed or flush.

Consigned by Kentucky Stud, Inc
Synergy 170P Suzutani 200

Sells open and ready for immediate reproduction. Suzutani 200 is from the breed defining Suzutani maternal, Suzutani is considered by many to have had the greatest genetic impact on the Wagyu breed of all the females exported from Japan. She is the dam of leading AI sires such as Sanjirou, Shigesheigo, and Shikikan which have excelled in the US and Australia. This heifer consignment's granddam is a maternal sister to Sanjirou and Shigesheigo and a full sister to Australian leader Shikikan. A full sister to her dam sold for $12,500 at the Belfield dispersal and her dam is also a full brother to BPF Mr San 4 who is a popular bull in the lineup at Origen. Selling open and ready to breed or flush, Suzutani 200 represents an excellent opportunity to get into the Suzutani blood.

JC MS Hakari 84 has the Red Wagyu gene in her, but with a good touch of the Tajima breeding. She has been of excellent fertility, having produced over 50 embryos as a heifer. And is now pregnant with a heifer calf. Type, fertility, the red gene, Hakari offers that to the Wagyu breed. Hakari 84 has a red pedigree on the male side and a top pedigree with Genjiro and Fukutsuru 068 (as sire of Oliver) on the female side. She is tested free of all recessives and has a great flushing history. 2 Shigeshigetani 5 daughters of her, both AA6 in SCD test, will sell in the Wagyu Gala Sale in Germany in September. Hakari 84 was bred to Rueshaw 74Z FB14720 on Dec 22. The inbreeding coefficient of the mating is only 1%. You have a 50% chance to get a red fullblood calf.

Bay Shige Mika 168 scores AA-6 for SCD and tenderness. She also won her class at the 2015 World Beef Expo Wagyu show. Mika’s sire, Shigeshigetani, is recognized worldwide as a marbling and carcass quality leader. His sons will be prominent sires in the next generation of wagyu genetics. Australian Wagyu Association May 2016 Breedplan ranks Eye Muscle Area -1.8 and Marble Score -0.1 for Shigeshigetani. Mika’s dam, Bay Madoka 85 ET FB12429 (AA-7 and Pfizer MVP 0.73) is sired by the Westholme foundation sire, Hirasashigetayasu 001, a growth and frame leader. Madoka’s full sister was Lot 1 in the European Wagyu Gala sale and sold with her daughter for over 20000 Euro. The second dam, Misaka FB6758 ((1.03 Pfizer MVP marbling) by Michifuku and the third dam by 068 complete a Tajima maternal line.

At AA-6, Mika is one of the highest rated Shigeshigetani females of the breed and recessive clean.

Only “once in a blue moon” will you find this unique combination of world class wagyu genetics in a pedigree. Michifuku, the sire of “Blue Moon”, is unchallenged as a foundation sire in the wagyu breed. His legend is unique for carcass traits. Australian Wagyu Association May 2016 Breedplan ranks Eye Muscle Area +7.7, Marble Score +1.2 and Marble Fineness +0.46. The dam of Blue Moon is pregnant for 2017 and due at over 15 years of age. The maternal line of “Blue Moon” has the full sister to Itomichi 1/2 as the second dam. Other greats from the Takeda Farm breeding program listed in this pedigree include Itomichi, Terutani and the champion show cow Ezokintau. “Blue Moon” is tested recessive clean and AA-7 for SCD and tenderness. This is the “franchise kind” to build a Wagyu herd. Sells open.

Consigned by Baycroft Wagyu, De Pere, WI
Yuritani 31 is a hard to find Westholme Z278 daughter from a powerful Shigeshigetani dam. Yuritani 31 follows the breeding pattern of Z278 by displaying plenty of body capacity and excellent growth. She has the highly desirable SCD score of AA. She is a direct maternal descendant of Yuriko, who is perhaps the most genetically influential cow from the JVP imports. Evidence of the genetic influence of the Yuriko maternal line is that the #1 Rib Eye and #1 Hot Carcass Weight sire on the WSU Sire Summary, Bar R Shigeshigetani 30T, and the #5 Marbling sire, Michiyoshi, both descend from Yuriko. Adding to the desirability of Yuritani 31 is the fact that she can be bred to any of the high Tajima bulls to increase marbling while still retaining size and growth.

- **DAM**: BAY TAKAMICI HANA 79 (FB10775)

Bay Itomichi 1/2 Houdini 170 FB20096 was the Reserve Champion Bull at the first World Beef Expo Wagyu show in 2015. TF Itomichi 1/2, the sire of Houdini, has Australian Breedplan ratings showing extreme growth and exceptional ratings for Milk production, (+12). Houdini is a natural call from ‘Hana 79’, our special donor cow and a full sister to Takamichi Doi, the popular AI sire with high numbers for marbling and tenderness. Hana and Doi are both AA-8. The famous Michifuku daughter, Misako (1.03 marbling MVP from Pfizer), and the foundation Fukutsuru 068 daughter Hisako fill out the maternal pedigree. The Tajima sire stack on the maternal side combined with the Fujiyoshi growth powerhouse on the paternal side makes for a great combination. Houdini is a VA-9 for SCD and tenderness and is recessive clean.

Webbco Michiyoshi B113 is highly favorable for Fullblood and F1 production. He is the oldest listed Fullblood son of Michiyoshi, one of the top marbling and rib eye bulls (Sanjiroo son) of the breed. He is AA 9 on SCD fat/Tenderness 2, and tested BC on the GH Exxon S test for Marbling and Growth traits. His dam, 500y, is a Lone Mountain bred cow sired by TF Itomichi 1/2 that brings substance and strength to the pedigree. She carries over 1600 lbs. with a lot of style and balance. Her pedigree also includes 2 crosses with 068 that insures marbling to go with the substance. She has 7 ET Hirashigegetayasu J2351 heifer calves you will be hearing about in the near future. Free of undesirable recessives and over 1,200 pounds at 20 months, he is long, thick, very stylish and halter broke. A show prospect but ready to work in the pasture or collection facility.

Definitely the complete package!

This rare Mazda son will impress you from every angle. His front end that is picture perfect which allows him to stand uphill will make you want to lead him to the winners circle at any national show. He has a 0% inbreeding, high marbling, and a perfect out cross to any breeding program. He is the largest and one of the fastest growing bulls at Designer currently. He will be entered in the Midwest Fall National Wagyu show at World Beef Expo this year. His dam is Bay Mak Mana 129. She is from the elite Hisako cow family which is known for high quality meat traits including extremely high marbling. To our knowledge, Mana’s dam, Misami, is one of the highest; Mana’s second dam, Misako, one of the highest marbling cows tested (as far as we know). Her sire YCB ITO MAKOTO 5626 (FB11765) is a high type son of TF ITOMICHI 1/2 (FB2126). Mana is a very impressive individual and has the long wide loin that is needed to produce high value Wagyu carcasses with high steak value. Her genetics and offspring (who match her in wide loin) are sought after by breeders from around the world. Her sons will be entering stud and will help to improve carcass quality into the next generation. Just measured 43 inches at the rump. At 10,000 Designer will show at the World Beef Expo at their cost for the new buyer.
