SALE ORDER & SUPPLEMENTAL INFORMATION	Sale order is catalog order! Any additional information or corrections to the sale catalog will be available online at www.wagyu365.com prior to the sale.
GENERAL INFORMATION	<p>TERMS AND CONDITIONS ... Cattle will sell under the standard terms and conditions. All consignors in the Signature Series 6.0 Wagyu Sale sell their lots 100% fully guaranteed. Any announcements from the sale podium will take precedence over the printed sale catalog.</p> <p>EMBRYO GUARANTEE ... Any embryos sold as stated and are not guaranteed on conception. All embryo lots will have statements regarding each with their descriptions.</p> <p>DESCRIPTIONS AND FOOTNOTES ... Each consignor wrote the descriptions that pertained to their lot or lots. Wagyu365 does not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.</p> <p>REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS ... Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Wagyu Association. The fee is paid for by the seller. It is up to each buyer to research or ask questions direct to the sellers on any specific export information needed for their desired destination.</p> <p>PAYMENT ... All lots must be paid for immediately within seven days following the conclusion of the Signature Series 6.0 Wagyu Sale unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.</p> <p>DELIVERY ... Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. Wagyu365 buyers and sellers will work together to make this the easiest and most efficient process possible.</p> <p>LIVESTOCK MORTALITY INSURANCE ... Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.</p> <p>GENETIC CONDITIONS ... Log onto www.wagyu.org, and go to Digital Beef Sign In link and results of the genetic testing will be found on the lot selling. It is the buyer's responsibility to check any information on the lots selling listed on the Wagyu digital beef website before purchasing.</p>

[BUYING FROM HOME]

ONLINE BIDDING

1. CREATE AN ACCOUNT

Click “Register to Bid” on the top right corner of LiveAuctions.tv.

Fill out the required information to bid online.

Agree to the terms of service and finish with the “register” button.

2. REGISTER FOR A BUYER NUMBER

From the home page or the “all auctions” page, choose the sale of interest.

Once selected, click the “request a buyer number” button.

Verify your email address with the email verification link. To verify your mobile number, click “send token”. Follow the steps to authorize your mobile device and click “submit.”

3. BID SUCCESSFULLY

You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you’re a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

FOR ALL BUYERS

PAYMENT INFORMATION FOR ALL BUYERS

• CASH

• CREDIT CARD (3% fee will be added) - please call Abby at 919.618.8098 to run your card information or request a quickbooks invoice to enter your information manually

• CHECK PAYMENT - please send with a tracking # to our Nashville office, PO Box 60097 Nashville, TN 37206

• BANK WIRE - wiring instructions will be available at the check out desk, or if you are an online buyer, these instructions will be send with your invoice.

IN PERSON BUYER INFORMATION

If you are a WINNING BIDDER, please follow these closeout steps:

1.) Visit the clerking table to get a printed copy of your invoice and receive all payment options and instructions. You cannot load out or set up trucking until you have been provided a copy of this invoice.

2.) Payment options—please let our clerking table know how you plan to pay for your purchase.

3.) Once paid for, a purchase release will be sent to both buyers and sellers. All buyers are responsible for working with sellers directly to set up trucking arrangements. All buyers will work with sellers and storage facilities directly on shipping and transfers of genetics.

ONLINE BUYER INFORMATION

If you are an ONLINE WINNING BIDDER, please follow these closeout steps:

1.) You will receive a buyer invoice via email with payment options & instructions.

2.) Once you receive your invoice (check your spam), please send in your preferred method of payment, and contact Abby Hinton with any questions at 919.618.8098, abby@wagyu365.com

3.) Once received, a member our Wagyu365 team will contact you if needed for payment assistance (applies to credit card or QuickBooks payment links)

4.) Once paid for, a purchase release will be sent to both buyers and sellers. All buyers are responsible for working with sellers directly to set up trucking arrangements. All buyers will work with sellers and storage facilities directly on shipping and transfers of genetics.

Auction money and proceeds will be conducted under Randall O. Ratliff dba R&R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program.

LiveAuctions.TV

If you have any questions in signing up for the sale, please contact representative Erick Schmidt, 830.263.0166 or email Erick@liveauctions.tv.

**In hopes you can join us to celebrate
all things great in Wagyu!**

LIVE MUSIC BY
Jake Tankersley

THE VOICE SEASON 26 PLAYOFF FINALIST

Jake Tankersley grew up in Sand Springs, Oklahoma. He received a golden ticket to Hollywood on American Idol in 2016. In 2018 he released his first full length album, The Little Things. Jake has released six singles since then. His pursuits led him to Season 26 of The Voice where he made Top 20 after joining Team Snoop. Currently he is recording new music and booking shows!

Here is an open female that has a combination of two of the top proven sires from two countries! The blend of Sumo F154 x Sanjiro 3 should produce sensational carcasses with a growth boost coming from F154. F154 offers excellent growth to go with great carcasses and Sanjiro 3 has been the top marbling sire in the US. Sanjiro 3 infuses Suzutani genetics into this strong pedigree. The maternal line (Chiahime) behind this female is no stranger to the international stage and has performed at the very top level wherever the genetics have been used. There is tremendous depth here with a sire pathway of F154 x Sanjiro 3 x Itomichi 0602 x Yasufuku Jr x Kikuhana x JVP 068 x Yasukane!

Sells with 2 Units of semen (MFC KIMITOFUKU 434B, FB17785)
 FOB from Hawkeye Breeders.

This open female has a huge future ahead of her. She has a sparkling pedigree that extends back to the breed influencing cow, JVP Chisahime 662. This maternal line has proven itself in the US and internationally. Mayura L10 is her sire. L10 has been a hugely popular and successful bull within the breed and helped infuse JNR blood into the American herd. The maternal grandsire is the prized Sanjiro 3. Sanjiro 3 was the #1 marbling sire in the US and lived up to his pedigree of Suzutani x Michifuku. Here is a very deep pedigree that has a proven sire stack of L10 x Sanjiro 3 x Itomichi 0602 x Yasufuku Jr x Kikuhana x JVP 068 x Yasukane.

Sells with 2 Units of semen (MFC KIMITOFUKU 434B, FB17785) FOB from Hawkeye Breeders.

Here is a homozygous polled heifer! If that doesn't get your attention, her pedigree will! She is sired by Bar V Sanjiro 3 930G. 930G is a Sanjiro 3 son from the international, polled, super-donor Bar R 5U. Bar R 5U has been a game changing genetic transmitter for polled genetics. The maternal grandsire is the very popular and heavily used Bar R Polled Zurutani D64. This polled pedigree is special because it was built on a fullblood Wagyu maternal foundation, not a commercial cow foundation. The maternal foundation is the proven Aino cow family from the legendary Takeda Farms breeding program! This female is truly a gem within the polled Wagyu marketplace. Don't miss this opportunity. Recessive Free.

ECD: Mid-October (Preg checked 3.21.25, 80 days bred); pasture exposed from 11.15.24 to 1.20.2025 to the following bulls ... Don't miss this awesome opportunity to add a pair and pregnancy to your herd. This embryo transfer derived dam has the famous World K Sanjiro as her direct sire. Her dam, Bar R 36U, was purchased at the 1st BAR R production sale and sold by us to Sexing Technologies for embryo production. This mating puts the cow AWA EPD's in the top 30% for IMF, 10% fat thickness and 4% ribeye area. She has a 3.5-month-old fullblood bull calf on her side sired by a son of the original import World K's Bejiro, RS BEIJIROU 61K ET. This combination results in a calf with AWA mating prediction EPDs in the top 25%, IMF, 15% BF, 10% REA and 40% milk! Cow is pasture exposed to RS BEIJIROU 61K ET and reproductive status will be updated at time of sale. This pair brings elite and rare genetics to the table in a defect free package with excellent carcass EPDs. Located in Spokane, WA.

LOT 5A - RS BEIJIRO 95N - Full blood bull calf, born 6.12.25 sired by RS BEIJIROU 61K ET (FB82070)

Animals can be viewed in person prior to AWA meeting (15 minute drive from conference).

This heifer has a special pedigree. She is a rare daughter of Westholme Hiramichi Tsuru. Westholme genetics have been tightly held in Australia and Hiramichi Tsuru has been one of the best bulls produced from Westholme. He brings excellent growth and milk to the USA Wagyu gene pool. The maternal grandsire of this heifer is Sanjirou, who infuses the breed-leading carcass genetics of Suzutani while providing exceptional ribeye size. The well-proven cow, JVP Yuriko, provides the foundation of the pedigree that includes Musashi 03K, who is a JVP 068 son, and the big growth bull, TF Kikuhana. Anchoring the US portion of this pedigree is the heavily used JVP Kikuyasu 400. This heifer has a very solid and deep pedigree with a traditional rotation of carcass sires and growth sires.

Here is a young female from Logan Hill Ranch that is built on the strength of the legendary Bar R program with JVP import genetics at the very foundation. The American portion of this pedigree originates with the great JVP Chisahime 662. She has proven herself to be an exceptional foundation cow with generation after generation rising to the top of their contemporary groups around the world. The sire of this female is a blend of Suzutani and Chisahime. The maternal side of the pedigree is powered by one of the greatest Bar R sires, Shigeshigetani 30T. There is breed history in this pedigree and better yet, it is backed by proven performance.

This heifer is the result of classic rotational breeding, incorporating a balance of carcass sires and growth sires. Her maternal line extends through the breed-influencing cows Kikuchisa 19E and her dam, Chisahime. The sire of the heifer combines the blood of Suzutani and Chisahime. Itomoritaka is the maternal grandsire bringing tremendous growth and milk. Michifuku and Kikuyasu 400 alternate carcass traits and growth. This heifer will be a standout in any herd!

This breeding age bull brings a rare pedigree of great, proven genetics. His sire is the proven carcass sensation, Notorious, and his dam is from the famous World K's Kanetani line. Notorious is the amazing ribeye sire from Mayura and a son of JNR. Notorious semen has sold to \$60,000 dollars per straw in the US! The maternal line of this lot is filled with one word names like Misami, Misako, and Hisako that are known throughout the world. It is not easy to acquire genetics from this maternal line, let alone one sired by Notorious. Don't miss this opportunity to invest in a great young bull! (CHSC)

A black and white photograph of a large, muscular black bull standing in a grassy field behind a metal fence. The bull is facing right, and its shadow is cast on the ground. A small, dark object, possibly a bucket or container, is visible on the ground near the fence.

Here is a unique pedigree that you probably can't find anywhere else! Yes, this is the great Okutani maternal line but, the genetics are outcross to what has been commonly used in the US. This lot is a two-year-old son of Sumo Q85 which makes him one of only a few progeny of Q85 in the country. Beyond that, we find some rare, uncommon names such as Inaka Yama, Kagayaka, and Tsuyou. Their genetics are first-class and were bred and developed by Hammond Ranch and Rockin 2 Ranch. The common denominators are Fujiko and Okutani. Fujiko and Okutani genetics have proven themselves in breeding programs both in the US and Australia. This bull is a lock to produce great cattle and great carcasses. You can buy him and be confident in what he will do for your herd. (Recessive Free)

Check out this young ET bull with an elite pedigree, excellent EPDs that is genetic defect free! The sire of this bull is the elite Crescent Harbor wagyu Shigeshigetani 5 who brings AWA EPDs in the top 4% for IMF, 20% BF and 10% REA to the party. His dam was purchased at the 1st BAR R cattle company production sale and sired by the famous BAR R 30T! This pedigree stacks World K Shigeshigetani on both sides with a COI of 14%. He has the potential to produce exceptional carcasses and replacement females with his initial AWA EPDs in top 45% IMF, 10% REA, 30 CW and 30% milk! Located in Spokane, WA.

Animals can be viewed in person prior to AWA meeting (15 minute drive from conference).

DATA

This breeding age bull taps into Bar R and JVP breeding. His sire, Bar R G64, is a son of the ribeye king, Sanjirou, and his dam provides the superior genetics of the Chisahime maternal line loaded with proven bulls like 30T, Sanjirou, and Michifuku. This young bull is double bred to the Chisahimes as the line forms the bottom side of the pedigree, too. Sanjirou brings the carcass traits here and Itomoritaka 002 provides plenty of growth and milk. This is a very nicely balanced bull that will work in any program.

Here is a chance to obtain the genetics of the amazing brood cow that produced Itoguni! Any resulting calves will be maternal siblings to Wyndford Itoguni. Itoguni has crushed it on MS and he is producing calves that carry those same elite MS scores. Here is a chance to put that same maternal power into your own herd. The Kitaguni Jr. sired dam of the embryos was the \$60,000 top of the JDH Dispersal Sale with good reason. 6301D has an amazing pedigree, being a Kitaguni Jr. daughter x TF148 x Michifuku x 068 x 400 x the Kikuhana cow. All of the elite, proven, foundation sires are packed into 6301D. There are no holes here. 6301D is one of the very best Kitaguni Jr. daughters in the world in Breedplan. She possesses extreme MS and EMA EBVs and has demonstrated her ability to transmit through her amazing 44 registered progeny.

Shogun 7704K is a perfect match for 6301D. He will bring the growth traits and carcass weight that could make resulting calves blow up the EBV profile and be breed leaders for BFI. This match up is what breeding is all about.

Arubial United has proven to be one of the biggest game changers in the breed. He provides extreme growth and frame with solid carcasses. He will put carcass size and weight into the smaller, high-Tajima females. He has been used world-wide with consistent results. Mated with Eiko 761G, he will maintain high growth with beautiful phenotype.

World K's Michifuku (FB 1615) is a highly proven, reliable sire for making huge ribeyes and great marbling. His sire is Monjiro 11550, and his dam is Michiko J655635. Michifuku's sire produced a carcass that sold for \$21,000 at the 2007 All-Japan Wagyu Competition (Zenkoku). Some believe that Michifuku is the most influential bull that ever left Japan. Michifuku calves are thick with outstanding marbling, and the Wagyu cattle have pleasant dispositions.

She possesses extreme MS and EMA EBVs and has demonstrated her ability to transmit through her 44 registered progeny.

MAYURA L0010, simply known as L10 is a Mayura bred World Super Sire. His progeny have dominated public sales in the US for several years with an L10 daughter selling for \$100,000 and two L10 sons selling for over \$150,000 in 2022. L10 progeny are at the top of every major sale. He is a leader in the BREEDPLAN Selection Indexes for Wagyu Sires. L10 is the son of Mayura Itoshigenami Junior 0139, who has the title of The King of Australian Wagyu Sires. L10's pedigree combines the genetics of JNR with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. The Aizakuras are a leading maternal line from Takeda that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura H017!

Arubial Bond follows in the footsteps of his sire, Mayura Itoshigenami JNR, by producing top shelf carcasses with excellent marbling and ribeyes. He is an excellent pairing with Eiko 761G. Bond will contribute breed-leading carcass traits to the balance and growth of Eiko. Classic rotational breeding put into practice!

World K's Shigesigetani (FB2907) is a proven sire for improving carcass traits. He produces large ribeyes and has excellent marbling. His dam is the legendary Suzutani and his sire is Haruki II. Shigesigetani carries the Kumanami strain, which is famous for its strong marbling genes. World K reported on 3,800 F1 Shigesigetani sired carcasses that 90% graded 3 full grades above USDA prime. The remaining 10% graded Prime to Prime +, and these impressive results remain consistent a decade later. World K's Shigesigetani tends to produce tall, long, thick cattle with pleasant dispositions.

If you can't get TWA Kajikari (Hikari x Ume) through his son Master Chef, then we suggest getting him through his grandson, Bald Ridge Henshin! Henshin has a loaded pedigree with breed greats such as Hikari, Ume, Big Al, Namiko and Akiko. He is a deep flanked, well balanced bull that will sire a propensity for elite carcass progeny. We have been very impressed by the Henshin progeny we have seen and we believe he will be a key piece to our breeding program moving forward. // TWA Kotsukari is the only Hikari x Akiko son ever bred and therefore extremely rare genetics given he was born in Australia and few straws were imported to the USA. Hikari x Akiko marries the two best carcass traits animals to have been exported from Japan and stamps elite carcass traits in his progeny. Acura hails from the Akiko maternal known as having the premier carcass traits line in the breed. Akiko herself is the dam of proven sires Big Al, Heart Brand Red Star, TWA Kotsukari, and Come and Take It! // The dam of this lot is a daughter of GK Rueshamaru bringing Rueshaw and Keademaru's carcass traits to this donor dam. The sire stack behind her is just as impressive being Ashwood Park Virile x Judo x Shigemaru x Big Al x Tamamaru x Akiko! This donor dam is sure to imprint elite carcass ability! Akaibara is the reigning Wagyu of the World Champion!

Arubial United has proven to be one of the biggest game changers in the breed. He provides extreme growth and frame with solid carcasses. He will put carcass size and weight into the smaller, high-Tajima females. He has been used world-wide with consistent results. Mated with Eiko 761G, he will maintain high growth with beautiful phenotype. No question about what you will get here! Eiko 761G is a donor with an exceptional pedigree. She is an Itozuru Doi TF151 daughter. TF151 is a legend of the breed and is considered the all-time most balanced Wagyu sire. He does it all from making excellent carcasses to the best cows in the herd. Eiko 761G has an unbelievably deep, well-balanced pedigree. The sire stack is TF151 x 001 Hirashigetayasu x Sanjirou x JVP 068 x Kitaguni Jr x Kikuyasu 400 and then Chisahime 662! Eiko 761G is the kind of donor that is a breeder's dream in that she can be mated to almost any bull and you will get excellent offspring. The work has already been done with generations of proven bulls. All you need to do is purchase her embryos!

First-Time Offering: Elite Polled Wagyu Genetics with Exceptional Marbling Potential!

Here's your chance to access an exclusive and powerful genetic combination: G4, one of the top polled bulls for marbling in the AWA EPDs, matched with 3Way Misstery, the highest-ranked polled female for marbling in the AWA. This is a first-time mating from this elite donor, and it offers the potential to produce a high-marbling, polled calf — with the added bonus of homozygous polled potential.

This mating represents a leap forward in polled Wagyu breeding: combining industry-leading carcass traits with the sought-after polled gene to eliminate the need for dehorning - without compromising meat quality.

The pedigree behind this pairing is nothing short of exceptional:

Sanjiro 3 x 753E x TF Itomichi x BAR R Nakagishiro 56T x Kitaguni Jr., finished with the legendary Bar R 5U cow. Each layer of this sire stack reinforces the carcass merit, feed efficiency, and structural integrity of this mating.

If you're looking to invest in next-generation Wagyu genetics that offer both premium carcass performance and polled convenience, this is an opportunity you don't want to miss.

Noche's progeny is 2024's Triple Crown Steak Challenge Fullblood Grand Champion. This award-winning sire has produced champions at the American Royal Steak Contest as well. Noche's carcasses have made their mark and set a high bar for superior quality at the Diamond T Ranch program. FC Noche 26 has a pedigree that will impress with JVP Fukutsuru-068 wrapped up with a double dose of Takazakura and a dash of JVP Kikuyasu 400. He is a direct decedent from original Japanese bloodlines. On the maternal side is VT Commonality L113. On her top side is Arubial United P0342 no introduction required. On the bottom side is CHR 376 a daughter of Itozuru Doi. Her EBVs impress with a +400 BFI, top 10% Marble fineness, top 15% CW and Maternal. If you're looking for carcass the EPDs on this pair are top 1% and 2% and marbling top 15% and 20% respectively. Proven genomically and on the plate, opportunity awaits you with this pairing.

CRCC 122B "Larry" is the top Carcass Trials bull in the US. He's the Triple Crown Steak Challenge Super Star for four years running. An unprecedented feat. No other bull has ever repeated this accomplishment for a second time let alone 4 consecutive years. He's proven in the labs and on the plate. What makes Larry even more spectacular was each year's entry was to a different dam. A perfect maternal cross of the Hikokura maternal line to the Kimifuku sire, famous for his Marbel Finess, balanced with TF Itoshigefuji. The maternal profile is topped with World K sire Kitiguni Jr. who is becoming more famous for his top marbling qualities. If that isn't enough, on the bottom side is VT Ms Yasusuzukura a stellar well-balanced dam with EPDs all to the right. Her growth is excellent top 20% IMF, 25% REA, 35% CW and her total maternal is top 35% with an impressive top 15% Milk. This dynamic pairing of closely held genetics coupled with unprecedented US and International carcass performance creates a one-of-a-kind opportunity in the Wagyu breed.

40F has a +9.2 EMA and +2.4 MS. He gets more and more popular as progeny hit the ground (16 progeny analyzed: 9 steers and 7 heifers - 33% DMp, 675 avg hang weight, 28 month old). 40F is an extremely rare offering, directly sired by Sanjiro 3, the #1 Marbling EPD bull in the 2017 National Wagyu Sire Summary. A full brother to the original WK Sanjiro, he is considered superior to him in many traits. His dam, MFC Ms Hisako 3-17 is sired by WK Kage out of Hisako, who is 100% Tajima. Hisako's dam, WK Kanetani, was born in the Hokkaido Prefecture and has similar breeding to Suzutani and Rikitani, making her potential much like theirs. Progeny from the WK Kanetani line are extremely scarce! 40F is in a league of his own. Free of all recessive disorders and ready to add Tajima and marbling to your herd.

WILD SHIGESHIGETANI 87L, a prime example of superior outcross marbling genetics. Bred with the goal of enhancing our herd, 87L is sired by the renowned Shigeshtetani. This exceptional bull, recessive free and bred to be a marbling powerhouse, brings a unique maternal pedigree, combining the distinguished bloodlines of TF Yasutani 1012, Sanjirou 3, and Hisako. His dam's remarkable genetics further enhance 87L's potential, offering great outcross options. We have harvested 1 carcass from his dam: rail weight 936lbs, 36% DMP, at 28 months of age. WILD SHIGESHIGETANI 87L is set to be a valuable asset in the breeding industry, providing an excellent outcross option for many popular genetic lines. By integrating 87L into breeding programs, you can expect a significant enhancement in both quality and genetic diversity.

Landgraf Ranch is pleased to present elite Wagyu semen genetics from LRX-TX MR MARBLE T157K.

Female Sexed with High Growth and Marble!! Shigeshigetani 1593 x F154 and free of all genetic conditions!

T157K is the sire of LRX-TX MS ITOGUNI W501N (FB126541 / LRXF25W501N) which was the top selling lot (\$80,000) for the 2025 Passion for Prime Sale in May.

T157K is son of top sire GRS Mr Marble K483. He leads with top Selection indexes including BFI (\$501), and FTI (\$431). T157K is a participant in the AuWA 2024- 2026 Progeny Test Program (PTP) as a link sire. He is son of world leading GRS Mr. Marble K483 (GRSFK0483). His grandsire on the dam side is the world leading, Sumo F154. Growth with strong carcass traits built on a Shigeshigetani foundation!!

His sire needs no introduction. Goorambat Mr. Marble K483 (GRSFK0483) is the top ranked son of legendary sire WKS Shigeshigetani. Mr Marble has one of the highest accuracies for all proven Wagyu sires. K483's maternal sire is World K's Shigeshigetani, some would consider the best foundation sire in the Wagyu breed outside of Japan. Of all Shigeshigetani son's, Mr Marble K483 is a trait leader for milk growth, CWT, and MS EBVs. This is due to his beautifully balanced pedigree featuring a combination of foundation sires – Shigeshigetani, Itoshigenami TF148, and Terutani 40/1.

On the dam side is the strong Sumo donor female, Sumo Fuku K174. She is well balanced genetic pedigree of 55% Tajima and 44% Shimane/Tottori.

Chairman is the only bull in Breedplan (February Run 1 2025) with his EBV profile for BW (max), Milk, CW, EMA, and MS! His balance is spectacular. On top of that, he is recessive-free. Chairman is an L10 son and his dam is a Sumo F154 daughter that is a powerful brood cow with proven transmitting ability. One of our best carcass proven cow families! His maternal line is the Chiyotakes from Takeda Farms. He hits the EBV profile big-time for MS and Milk. He is a link sire in the AUWA Progeny Test Program. Chairman can be used in almost any situation because of his balance.

M6 Itoshigenami 752E is the #1 IMF EPD animal in the American Wagyu Association database. His IMF accuracy score is the highest among the top 100 ranked animals. These rankings were earned through progeny performance in the R-C Ranch supply chain and our nationally distributed boxed beef brand. Itoshigenami 752E has sired 70+ cross-bred carcasses, with plenty more on the way. His offspring have consistently achieved the highest degrees of marbling at younger ages and less days on feed against our best internal bulls and popular AI sires, all while achieving an overall 2.26 Average Daily Gain through the feedyard. We'd expect nothing less from a pedigree packed with some of the best foundation marbling genetics like TF813 Kimitofuku, Kiteruyasudo J28810, and World K's Shigeshigetani. Don't miss this opportunity to add proven marbling genetics to your herd!

Gatekeeper is one of the truly elite sires of the breed with his exceptional genomic EBVs and his equally impressive pedigree. He exhibits elite level carcass traits and is passing this on to his offspring. He has sired progeny over +4.0 MS and over +700 BFI. His figures are backed up with proven sires such as Sumo F154, Mayura Itoshigenami JNR, Yasufuku Jr., and TF151 Itozuru Doi. His maternal line traces directly to the amazing transmitting cows, Benlee Hikohime Z0444 and Benlee Hikohime V2058. Gatekeeper is recessive-free! He is proving himself to be able to make the great ones! Gatekeeper has produced several offspring well over +4.0 MS. He is living up to the lofty expectations of his stunning pedigree. As of the Breedplan February Run 1 2025, he is the only sire in the breed with his EBVs for MS, EMA, and CW. Gatekeeper, Notorious, and Mayura Revolution trace directly to the great Benlee Hikohime V2058. Take note of his sire stack of Sumo F154 x JNR x Yasufuku Jr x TF151 x Kaneyama x Michifuku x Kikuhana x Hikohime 3/2!

Synergy JNR Supreme S598 is a direct son of Mayura Itoshigenami JNR combined with one of our elite carcass proven branches of the Suzutani maternal line. JNR needs little introduction, now often called "The King of Australian Wagyu". The dam is a TF 148 x Shigesheetani x TF 151 x Takazakura (Full Sister to Shikikan) x Suzutani! Supreme represents an ideal linebreeding of TF 148 and Suzutani genetics with TF 148 appearing 2x in his 3-gen pedigree and Suzutani sons Shigesheetani and Sanjiro appearing too. • He combines low birth weight, good carcass weight, large ribeye area, and high marble score. • Multiple GEBV Traits & Indexes in the top 1-10% of the breed! • A maternal brother to Supreme harvested at only 27 months and 415 DOF scored over 40% IMF!

A rare offering of a semen package from a past Champion of the World Akaushi sire. Take note of his impressive phenotype and conformation. Add to this a stunningly deep pedigree of Ashwood Park Virile x Kotsukari x Judo x Shigemaru x Big Al x Tamarau x Akiko and we have true super star sire! The Akiko maternal that Blue Chip descends from is known as the premier carcass traits line in the breed. Akiko herself is the dam of proven sires Big Al, Heart Brand Red Star, TWA Kotsukari, and Come and Take It! This bull is sure to contribute a balance of carcass traits, growth, and conformation to his progeny.

HB Red Emperor died in 2020 so remaining semen on this great Red sire is in limited supply. Red Emperor is a son of the legendary Big Al who was the first Red Wagyu bull born outside of Japan. His sire, Dai Mitsumaru 76 ranked #1 in the Japanese Red Wagyu Directory with A4 and A5 carcasses. His dam is one of the best Red Wagyu cows in US History, Dai 8 Marunami. She was imported into the USA in 1994 as part of the Kumamoto Prefectural Cattle Improvement Project. Her Sire Dai 3 Mitsumaru 30 was ranked 3rd in the Japanese Red Wagyu Registry with A4 and A5 carcasses. The value of his progeny will make money for programs for years to come. Red Emperor makes amazing calves appreciated by any cattleman.

This lot is a fantastic opportunity to move your breeding program forward as Shindo introduces the next generation of superior genetics from the heralded Akikos. Shindo's sire is the amazing Master Chef, who transmits outstanding phenotype and heavy muscling, along with incorporating rare Kajikari blood. If you were not able to acquire Master Chef semen, Shindo is a great way to tap into his genetics. The dam of Shindo is the Judo daughter, Judo 73Z. She has established herself an icon of the breed with her proven ability to transmit elite performance to her numerous progeny. The 73Z cow is built on the powerful foundation of Akiko through sires such as Shigemaru, Big AI, and Tamamaru. Shindo will be a game-changer!

FEMALE SEXED semen from this RUESHAW x JUDO x RUESHAW x AKIKO stud! Genesis himself recently sired a \$25,000 heifer pregnancy. The first three straws of Genesis sold for \$1000 - \$1100 per straw in the Akaushi on the Vegas Strip sale. Three generations of 1976 import sires are at the front of this pedigree, followed by the original 1994 import dam, Akiko. Nearly 50 years have passed since Genesis' sire, grandsire, and great-grandsire were imported. What little semen remains from them has sold for up to \$22,000 for a straw of Rueshaw and up to \$10,000 for a straw of Judo. BID LAST and add the GENESIS of the Akaushi breed to the next generation of your program!

Hiko 7673L boasts a pedigree that is as good as it gets in the Wagyu breed! His sire is the ribeye phenom, Notorious. Notorious is one of the best sons of JNR and has extremely limited semen used outside of the Mayura herd. Beyond Notorious is a beautiful pedigree that traces back to the amazing Hikokura 1/10. In between are the elite, proven sires Haruki 2, Itozuru Doi TF151, and Itoshigenami TF148. The pedigree includes CF504, who is fast becoming as legendary as her dam, Hikokura 1/10. Here is your chance to tap into Notorious and JNR genetics and the phenomenal CF504/Hikokura 1/10 maternal line.

Dream Maker 5M is a son of Sunnyside Q540. Q540 is making an impact on the breed with his tremendous carcasses. He is one of the very best sons of G113. G113 semen was not commercially available in the US. The dam of 5M is a cow that has made a big name for herself in the breed in the last couple of years. She is a marvelous individual in her own right, but is making exceptional offspring that are pushing to the forefront of the breed. The pedigree of 5M is loaded with proven sires Mayura L10 x Haruki 2 x Itozuru Doi x Ito-shigenami. His maternal line is the internationally proven Hikokura 1/10. As a huge bonus, CF504 is an anchor on the maternal side of 5M. 5M will bring both carcass traits and growth in a big way!

LMR Wakura 2781K is one of the top JNR offspring in the US. He is a standout for the IMF EPD in Digital Beef ranking as the #4 bull in the Wagyu breed with a +3.25. What an incredibly balanced sire that offers extreme marbling and above average growth.

2781K's dam, LMR Ms Mayura 0506H, is an excellent L10 donor who sold for \$67,500 at the 2022 Passion for Prime Sale. Her dam, LMR Ms Shigeshigetani 3443A, is proving to be a superior donor in the Lone Mountain program. 3443A has produced 73 viable embryos to date.

LMR Wakura 2781K is sired by Mayura Itoshigenami Jnr 0139, who needs no introduction as he is the undisputed "King of Australian Sires". His semen has sold to a world record \$70,000 per straw and live progeny have sold to \$280,000! JNR is a true once in a generation sire and the foundation of the Mayura Station branded beef program. He has more than 1,700 carcasses in the Mayura herd consistently grading AUS-Meat 9+, with leading ribeye area and carcass weight at a young harvest age. JNR is a breed changing sire that is as proven as they come! F11+.

VT Shigeteruhana D17 is nothing short of legendary. He currently holds the top spot as the leading proven sire by IMF Index in the American Wagyu Association for Fullblood Black Wagyu—a recognition he has approached several times. With over 70 graded carcasses, his exceptional quality is well-documented, boasting an impressive EPD IMF of 2.42, placing him in the top percentile and as the leading proven US sire.

Bred from VT Wagyu foundation seedstock, his sire, VTY10, was a high-marbling son of WKS Shigeshigetani, while his dam, VTW02, was a large and impressive daughter of Terutani TF40. The combination of VTY10 and VTW02 has consistently produced some of the finest marbling seen at VT Wagyu.

Semen availability for VT D17 is extremely limited. Free of all known recessives.

DATA

VT Tri Ito L306 has been nominated for the prestigious AWA Sire Progeny Test, launched in 2025. This exceptional All-American bull is sired by BarV Atsuku, out of Sanjiro 3. With a marbling score (MS) of 1.35, placing him in the top 10% for EPDs IMF Index, VT Tri Ito is one of the finest progenies of his sire.

His other performance metrics are equally impressive—his EPD CW ranks in the top 10%, setting him apart not only from his sire's progeny but also from his grandsire, the renowned Sanjiro 3. With remarkable size, ribeye area (REA), and marbling, Tri Ito offers a well-rounded genetic package for serious breeders.

On the maternal side, his dam, CHR 376, was a cornerstone of the VT Wagyu herd for over 14 years before joining Nordik Wagyu to cap off an illustrious career. A daughter of Itozuru Doi 151, she has passed down growth, excellent temperament, and superior genetics to her offspring, making VT Tri Ito a well-balanced, high-potential sire.

This is an opportunity to invest in a future legend.

DATA**

First time offered at auction is semen from RS BEIJIROU 61K ET. The sire of this bull is the rare original import World K Bejirou. This bull “has it all” with AWA EPDs in the top 20% IMF, 20% Fat, 15% REA, 4% milk. Check out the EPDs and pedigree on this sire and spend some time using the mating predictor tool to see what mating to 61K does do your animals EPDs! It is rare to find this type of carcass enhancement while improving milk EPDs in a legacy sire!

SATURDAY, SEPTEMBER 20, 2025
